peace resident of Blaine Washington whose home is but one block from Peace Arch State Park completed an exhaustive manuscript after fifteen years of research The Peace Arch standing on beautiful international parkland has also been enshrouded with myths and mysteries that Clark has uncovered in the course of his research Peace Arch devotees long forgotten have been restored to remembrances they have long deserved Vital facts long lost have been recovered and given merited recognition The Peace Arch has been the setting of devotion and demonstrations queens and quarrels marriages and marching bands But in its history so notably marked by variation ranging from violence to indifference peace has remained its ongoing theme

The Seattle Guidebook Archie Satterfield,1994

The Eagle Magazine ,1923

The Seattle Street-Smart Naturalist David B. Williams,2012-11-15 Back to the city or back to nature Seattle author David Williams shows us how we can get the best of

both Botany and bugs geology and geese and creeks and crows living in a major city doesn't have to separate us from the natural world. Stepping away from a guidebook format, Williams presents the reader with a series of essays and maps that weave personal musings, bits of humor, natural history observations, and scientific data into a multi-textured perspective of life in the city. Descriptions of his journeys as a naturalist in an urban landscape. Williams addresses questions that an observant person asks in an urban environment: What did Seattle look like before Europeans got here? How does the area's geologic past affect us? Why have some animals thrived and others languished? How are we affected by the species with whom we share the urban environment, and how do we affect them? This book captures all of the distinctive flavors of the Emerald City, urban and natural.
