**Political Economy of Islamic Banking in Indonesia** Ahmad

Dahlan, 2021-06-15 This book is a work of historical analysis focusing on the development of Islamic financial institutions from 1992 to 2011 in Indonesia as they relate to Islamic banking using a political economic approach Indonesia plays an influential role in various international political and Islamic organizations because it has the largest Muslim population in the world Although Indonesia was late in establishing its banking initiatives it did so 1992 in response to the growth of the Islamic financial institutions From 1992 to 2011 many laws and regulations were established to support the growth of Islamic banking in Indonesia but by national financial market indicators Islamic banking in Indonesia fell behind many expectations This analysis suggests that the shortcomings may be due in part to the waning power of key elements of the political superstructure to push policies that supported Islamic banking and Islamic economic systems and establish synergies with institutions of Islamic economic education and stakeholders to accelerate the growth of Islamic banks in terms of service national market share and public trust The Politics of Post-Suharto Indonesia Adam Schwarz, Jonathan Paris, 1999 This book responds to the critical need of policymakers practitioners and scholars for current research on Indonesia

*Historical Dictionary of Indonesia* Audrey Kahin, 2015-10-29 A wide flung archipelago lying between the Pacific and Indian Oceans Indonesia is the world s most populous Islamic country For over two thousand years it was a crossroads on the major trading route between China and India but it was not brought together into a single entity until the Dutch extended their rule throughout the Netherlands East Indies in the early part of the 20th century Declaring its independence from the

Dutch in 1945 the Republic of Indonesia was ruled by only two regimes over the next half century Throughout the years the country has continued to be dogged by an inefficient bureaucracy and by perpetual problems of corruption However since 2004 Indonesia has successfully carried out four direct elections for president together with an equal number of elections for legislative bodies at all levels of government and has finally in 2014 elected a president with no ties to either the military or to the previous authoritarian power structure This third edition of Historical Dictionary of Indonesia contains a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has over 900 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent access point for students researchers and anyone wanting to know more about Indonesia      Wars Within Janet E. Steele, 2005 For the twenty three years prior to its banning on June 21 1994 Tempo magazine was Indonesia s most important news weekly and its editor in chief one of Indonesia s leading poets and intellectuals This book tells the story of the paper its staff and many supporters and of its relations with political movements      The International Monetary Fund under Constraint Eva Riesenhuber, 2021-08-04 The International Monetary Fund under Constraint exposes a legal dilemma facing the IMF as it tackles international crisis management Using the Asian crisis and more particularly economic and political events in Indonesia as an example this volume examines whether the Fund s activities in Asia were legally justified The results of this analysis lead to the following question What future role can the IMF play in the international financial architecture The principles of international law and the legal foundations of the Fund are used to analyse the reform suggestions of economic experts and to find a suitable concept for future IMF involvement in financial crises and crises prevention This volume is a long overdue legal analysis of IMF activities It presents the combination of law and economics which was originally at the heart of the IMF but which so far has been ignored in today s reform discussion      *Globalism, Terrorism and Islamism in Southeast Asia* Dedy Tabrani, Al Chaidar, Herdi Sahrasad, 2020-08-26 The Philippines is an archipelago with 7 107 islands with a population of around 60 million using 87 different language dialects that reflect the number of ethnic groups and communities Muslims in the Philippines call themselves Moro But this name is actually political because in reality Moro consists of many ethno linguistic groups for example Maranaw Maquindanao Tausug Somal Yakan Ira Nun Jamampun Badjao Kalibugan Kalagan and Sangil In connection with actions of terrorism the international communities have articulated and done about confronting threats directly engaging the enemy disrupting terrorist networks denying enemies safe haven building international coalitions forging treaties that reinforce the rule of law denying the enemy weapons of mass destruction and changing the conditions that terrorists exploit      **Indonesia Beyond Suharto** Donald K. Emmerson, 2015-05-20 This text presents an accessible introduction to the most significant problems facing Indonesia and raises issues for further investigations It addresses such questions as how has Indonesia managed to remain one country and is there a truly national Indonesian culture      **The Coalitions Presidents Make** Marcus Mietzner, 2023-12-15 In The

Coalitions Presidents Make Marcus Mietzner explains how Indonesia has turned its volatile post authoritarian presidential system into one of the world s most stable He argues that since 2004 Indonesian presidents have deployed nuanced strategies of coalition building to consolidate their authority and these coalitions are responsible for the regime stability in place today In building coalitions Indonesian presidents have looked beyond parties and parliament the traditional partners of presidents in most other countries In Indonesia actors such as the military the police the bureaucracy local governments oligarchs and Muslim groups are integrated into presidential coalitions by giving them the same status as parties and parliament But while this inclusiveness has made Indonesia s presidential system extraordinarily durable it has also caused democratic decline In order to secure the stability of their coalitions presidents must observe the vested interests of each member when making policy decisions The Coalitions Presidents Make details the process through which presidents balance their own powers and interests with those of their partners encouraging patronage oriented collaboration and disincentivizing confrontation

Growing Apart Peter Lewis, 2009-12-11 Growing Apart is an important and distinguished contribution to the literature on the political economy of development Indonesia and Nigeria have long presented one of the most natural opportunities for comparative study Peter Lewis one of America s best scholars of Nigeria has produced the definitive treatment of their divergent development paths In the process he tells us much theoretically about when why and how political institutions shape economic growth Larry Diamond Senior Fellow Hoover Institution Growing Apart is a careful and sophisticated analysis of the political factors that have shaped the economic fortunes of Indonesia and Nigeria Both scholars and policymakers will benefit from this book s valuable insights Michael L Ross Associate Professor of Political Science Chair of International Development Studies UCLA Lewis presents an extraordinarily well documented comparative case study of two countries with a great deal in common and yet with remarkably different postcolonial histories His approach is a welcome departure from currently fashionable attempts to explain development using large multi country databases packed with often dubious measures of various aspects of governance Ross H McLeod Editor Bulletin of Indonesian Economic Studies This is a highly readable and important book Peter Lewis provides us with both a compelling institutionalist analysis of economic development performance and a very insightful comparative account of the political economies of two highly complex developing countries Nigeria and Indonesia His well informed account generates interesting findings by focusing on the ability of leaders in both countries to make credible commitments to the private sector and assemble pro growth coalitions This kind of cross regional political economy is often advocated in the profession but actually quite rare because it is so hard to do well Lewis s book will set the standard for a long time Nicolas van de Walle John S Knight Professor of International Studies Cornell University Peter M Lewis is Associate Professor and Director of the African Studies Program Johns Hopkins University School of Advanced International Studies
