Managing Ocean Resources A Primer Westview Special Studies In Natural Resources And Energy Management:

Managing Ocean Resources Robert L. Friedheim, 2019-03-13 This comprehensive collection of data and theory provides an essential resource base for intelligent ocean management decisions. The book begins with essays on ocean science and technology, social and political organization, theory relating to the oceans, and some of the problems of extracting energy from the oceans and monitoring oceans from space. **Natural Resource Administration** C. West Churchman, 2019-03-04

Successful natural resource administration demands the well-exercised ability to deal with the interests of many actors, including the public and wildlife, in a balanced, constructive way. The authors of this book, recognized as experts in the management of natural resources, discuss management with special emphasis on fish and other wildlife. Their approach to management development constantly searches for creative compromises that protect today's wildlife for future generations while maximizing present social and economic benefits. Their comprehensive treatment also includes a discussion of such topics as the interaction of human management of wildlife with natural regulation of wildlife, the need for sound research and development programs, the importance of public participation in the management of natural resources, and the political and administrative context in which resource management must take place. 日本環境省 (Japan), 1900

Renewable Natural Resources Dennis Little, Robert E. Dils, John Gray, 2019-07-11 Enormous in scope, this book presents in comprehensive and logical form the sum of our national knowledge about renewable energy resources. It deals with these resources in terms of opportunities and dangers, in terms of current availability and possible expansion, in terms of how natural resources relate to human resources and needs, and in terms of their replacement potential for nonrenewable resources such as fossil fuels. It also puts domestic resources and needs into the context of international needs, supplies, and policies, emphasizing the issues facing an interdependent world and the urgent requirements perceived by countries less endowed than the United States. This is a handbook for the concerned citizen as well as for resource managers and policymakers at local, regional, and national levels. The analyses it contains underscore the fact that there are no easy answers; everything is part of an interlocking system, and every decision will affect multiple aspects of our daily lives and indeed our very existence. The authors emphasize the crucial importance of early planning, balanced management, and timely decisions while suggesting that something more is required: a new ideology and a new educational approach. **Managing**

Renewable Natural Resources In Developing Countries Charles W. Howe, 2019-03-01 Much of the improvement in material living standards in the Third World is attributable to the exploitation of nonrenewable resources such as fossil fuels and metallic ores, and to the exploitation of renewable resource systems at rates that cannot be sustained. This state of affairs presents a serious problem for the future, just as may be the case for the developed regions. A long-term perspective shows clearly that Third World countries must return to a greater dependence on renewable resources while also avoiding irreversible degradation of renewable systems and learning to manage these systems more productively. The authors of this

book examine major issues in the four main renewable resource sectors fisheries forestry agriculture and water with emphasis on the problems and benefits attendant to various use patterns and management practices *Monographic Series* Library of Congress,1980 [○○○○○○○○○○○○○○○○○○○○](#) ,1986 **American Book Publishing Record** ,1979 [Fisheries Development Series](#) ,1982 [Directions](#) ,1980 [A London Bibliography of the Social Sciences](#) ,1931 Vols 1 4 include material to June 1 1929 [Books in Print Supplement](#) ,2002 **Scientific and Technical Books and Serials in Print** ,1989 **Resources in Education** ,1988 [List of Recent Additions](#) International Monetary Fund Library,Joint Bank-Fund Library,1980 **Books in Series** ,1980 *Subject Catalog*, 1980 Library of Congress,1980 [Subject Catalog](#) Library of Congress,1980 *National Union Catalog* , Includes entries for maps and atlases **The Publishers' Trade List Annual** ,1985
