Managing Primary Health Care Implications Of The Health Transition:

Managing Primary Health Care Richard Heaver,1995

Managing Primary Health Care Richard Heaver,1995-01-01

This paper looks at the way in which the pattern of disease is changing in developing countries and the implications this has for the way in which primary health care PHC programs should be designed and managed In the absence of an accepted methodology for discussing health management issues it attempts to develop a conceptual framework suited to analyzing an environment of dynamic change It applies this framework first to the management of primary health care programs provided by governments and then to the role of the non government sector in primary care The paper draws broad clients If the general approach adopted seems useful the conceptual framework needs next to be applied to a series of specific country cases to test its validity and refine it and to adapt the general conclusions to local cultural administrative and political conditions

government entities as a critical institutional level of intervention Other language editions available French Stock No 13814 ISBN 0 8213 3814 5 Spanish Stock No 13813 ISBN 0 8213 3813 7 Review and Outlook for the World Oil Market Shane S. Streifel,1995-01-01 After the collapse of the Soviet system the immense problems of environmental pollution in Central and Eastern Europe were widely publicized Less well known were its effects on health in the region which have led to a serious health crisis This report examines the degree to which the pollution adversely affected human health putting it in the context of other health determinants such as socioeconomic factors health care standards and availability and lifestyle factors Among the numerous pollutants the report points to lead dust toxic gases and nitrates in rural water supplies as having a significant impact on health in Central and Eastern Europe The author suggests possible avenues for international action However an analysis of the determinants of health reveals that addressing the pollution problems alone will not solve the health crisis Improving health in this region will depend on the changing economic fortunes of individual countries and the ability of each to create a supportive social environment for its citizens **Uganda's AIDS Crisis** Jill Armstrong,1995-01-01 Examines the economic problems that arise when governments own and operate enterprises that could be managed by the private sector Despite more than a decade of divestiture state owned enterprises account for nearly as large a share of developing countries economies today as twenty years ago This report examines the economic problems that arise when governments own and operate enterprises that could be managed by the private sector It finds that such enterprises are often inefficient and shows how the resulting losses to the economy hinder growth making it harder for people to escape poverty Why have reforms had such little impact In an innovative study of the political economy of state enterprise reform the report describes common obstacles to reform and describes ways that some countries have overcome them Drawing on a rich database and detailed country case studies the report provides the most comprehensive assessment yet of a decade of divestiture and reform of state owned enterprises It evaluates the experiences of 12 countries some of these countries reformed successfully and some did not but all tried to improve the incentive structure by changing the contract between the government and state owned firms The report offers guidance for successful reform and suggests ways that foreign assistance can more effectively support reform efforts The countries covered in the case studies are Chile China Czech Republic Egypt Ghana India Republic of Korea Mexico Philippines Poland Senegal and Turkey Published for the World Bank by Oxford University Press The Broad Sector Approach to Investment Lending Peter Harrold,1995-01-01 The persistent inequality between women and men constrains society to lower levels of productivity and economic growth The evidence for taking corrective action is now more compelling than ever This report draws on case studies and other evidence to show how public policy can and should support services and infrastructure where the social returns are the highest and the use by women the greatest It reviews progress made to date on gender issues and explores why inequalities persist The report also stimulates ideas for creative solutions by pointing out innovative and less than obvious strategies that have proved successful In Morocco for instance a study shows

that paving the public road to school increases a girl's probability of attending classes by 40 percent. Also available: *Toward Gender Equality: The Role of Public Policy* on CD-ROM ISBN 0 8213 3471 9 Stock No 13471
