Managing Public Finances In A Small Developing Economy The Case Of Barbados:

Managing Public Finances in a Small Developing Economy Marion V. Williams, 2001-02-28 The sound management of public finances is in Williams view the most important factor in attaining the twin objectives of economic growth and improvement in the standard of living in small open developing economies While looking at the challenges of public finance management in small states with a focus on Barbados this book suggests strategies of fiscal and microeconomic management for small economies that will permit them to ensure macroeconomic stability while promoting economic growth and development In discussing the philosophy of public finance it examines small size and openness using both traditional criteria and modern perspectives of liberalized systems It deals with the challenge of avoiding overly expansionary budgets and the need for counter cyclical policies in relation to macroeconomic objectives This book also discusses state involvement in commercial types of enterprise and the implications for efficiency and economic growth The Keynesian approach to fiscal spending is compared with the structuralist approach which takes into account initial conditions and inflexibilities facing small developing economies The government's role in financing accelerated economic development its social responsibility and the balancing need for fiscal discipline are also considered The public finance performance of governments is seen as facing important challenges to its capacity to champion economic development given the increasing global perception of a mostly regulatory and stabilizing role of government

Public Finance in Small Open Economies Michael Howard, 1992-11-24 This book presents an analysis of Caribbean fiscal problems with particular emphasis on the relationship between high levels of public expenditure and balance of payments problems The study examines deficit financing public expenditure growth and IMF stabilization policies Other issues raised relate to income distribution and problems of taxation and tax reform The work focuses on Jamaica Guyana Barbados and Trinidad and Tobago The economies of the Organization of Eastern Caribbean States are also considered This work will interest scholars in economics and economic policy making especially those in developing countries

The Economic Development of Barbados Michael Howard, 2006 Discusses mainly economic factors influencing Barbadian economic development since the Second World War This work provides an interpretation of the role of foreign investment and public policy in the development process within the conceptual framework of institutional structural analysis
