Innovation in City Governments Jenny M. Lewis, Lykke Margot Ricard, Erik Hans Klijn, Tamyko Ysa Figueras, 2016-12-08. Innovation has become an important focus for governments around the world over the last decade with greater pressure on governments to do more with less and expanding community expectations. Some are now calling this social innovation innovation that is related to creating new services that have value for stakeholders such as citizens in terms of the social and political outcomes they produce. Innovation in City Governments Structures Networks and Leadership establishes an analytical framework of innovation capacity based on three dimensions: Structure, national governance and traditions, the local socioeconomic context and the municipal structure, Networks, interpersonal connections inside and outside the organization, Leadership, the qualities and capabilities of senior individuals within the organization. Each of these are analysed using data from a comparative EU research project in Copenhagen, Barcelona and Rotterdam. The book provides major new insights on how structures, networks and leadership in city governments shape the social innovation capacity of cities. It provides ground breaking analyses of how governance structures and local socio economic challenges are related to the innovations introduced by these cities. The volume maps and analyses the social networks of the three cities and examines boundary spanning within and outside of the cities. It also examines what leadership qualities are important for innovation. Innovation in City Governments Structures Networks and Leadership combines an original analytical approach with comparative empirical work to generate a novel perspective on the social innovation capacity of cities and is critical reading for academics, students and policy makers alike in the fields of Public Management, Public Administration, Local Government, Policy, Innovation and Leadership.

Making Collaboratives Work Susan Meyers Chandler,2018-10-26 Most contemporary public managers will work in some type of collaborative or networked arrangement at some time in their professional careers More and more work in public administration and policy is now being done in collaborative formats and while there are many studies articles and cases describing successful endeavors a good deal of confusion persists about what exactly makes them work What are the best practices This book focuses on the processes protocols and incentives needed for successful collaborative endeavors Moving beyond new public governance theories and the limits of new public management Chandler uniquely focuses on the facilitative skills and tools that members and facilitators need for success in collaborative work Written by an author with both academic and practical experience in organizing developing leading and facilitating public private collaboratives this book has both an academic thrust and an action focus drawing on case studies from the fields of health and human services to highlight important theoretical and or practice points Making Collaboratives Work is required reading for undergraduate and graduate public administration students of collaborative management nonprofit administration organizational theory and practice communications public policy and leadership The book is also ideally suited to public administrators and nonprofit managers asked to work in public private partnerships and collaboratives to solve complex problems

Networks and Collaboration in the Public Sector Joris Voets,Robyn Keast,Christopher Koliba,2019-08-02 Networks and other collaborations are central to the public sector s ability to respond to their diverse responsibilities from international development and regional governance to policy development and service provision Great strides have been made toward understanding their formation governance and management but more opportunities to explore methodologies and measures is required to ensure they are properly understood This volume showcases an array of selected research methods and analytics tools currently used by scholars and practitioners in network and collaboration research as well as emerging styles of empirical investigation Although it cannot attempt to capture all technical details for each one this book provides a unique catalogue of compelling methods for researchers and practitioners which are illustrated extensively with applications in the public and non profit sector By bringing together leading and upcoming scholars in network research the book will be of enormous assistance in guiding students and scholars in public management to study collaboration and networks empirically by demonstrating the core research approaches and tools for investigating and evaluating these crucially important arrangements

Calling on the Community Jeroen Rodenberg,Pieter Wagenaar,Gert-Jan Burgers,2023-01-13 There is a call in Heritage Studies to democratize heritage practices and place local communities at the forefront heritage plays an important role in identity formation and therefore in social inclusion and exclusion Public participation is often presented as the primary means to prioritize communities However studies focusing on

public participation are typically descriptive in nature and lack a strong analytical framework that enables us to understand participation. The essays in this volume apply Public Administration theory to collaborative governance and thus contribute to a better understanding of public participation in the heritage sector. **Governing Cross-Sector Collaboration** John

Forrer, James (Jed) Kee, Eric Boyer, 2014-08-18 A comprehensive guide to public sector collaboration with private and nonprofit organizations for better service delivery. **Governing Cross Sector Collaboration** tackles the issues inherent in partnerships with nongovernmental actors for public service delivery, highlighting the choices available and the accompanying challenges and opportunities that arise. Based on research interviews with public, private, and nonprofit sector leaders and considerable analysis of organizations involved in public-private-nonprofit collaborations, the book provides insight into cross-sector collaboration at the global, federal, state, and local levels. Through an examination of the primary modes of cross-sector collaboration, including collaborative contracting, partnerships, networks, and independent public services providers, the book presents a clear case for how public managers can assess the trade-offs and use these options to improve public service delivery. Nonprofit organizations, businesses, and third-party contractors are increasingly partnering with government to deliver public services. Recognizing the types of collaborative approaches and their potential to solve public policy problems is quickly becoming a major task for public managers with new methods and techniques constantly emerging. **Governing Cross Sector Collaboration** provides specific examples and a framework for public managers to make strategic choices about how to engage private and nonprofit actors in delivering public goods and services while ensuring the public interest. The book provides effective methods for choosing, designing, governing, and evaluating networks, partnerships, and independent public services providers with in-depth discussion encompassing analysis and engagement of cross-sector organizations, fostering democratic accountability in the public interest, collaborative approaches including contracts, networks, and partnerships, and the issues associated with each type of arrangement. Leadership and organizational learning in cross-sector collaboration. Included case studies illustrate effective application of the concepts and methods described, providing both practicing public and nonprofit managers and public policy administration students with insight into these emerging strategic alliances. The first comprehensive guide to public governance collaborations. **Governing Cross Sector Collaboration** is an important and timely contribution to the field of public management. **Crowdfunding in the Public Sector** Regina Lenart-Gansiniec, Jin Chen, 2021-07-27

In recent years, crowdfunding has become important, and it has been enthusiastically used not only by commercial organizations but also by the public sector. This alternative source of financing in times of constrained government budgets enables citizens to vote with their dollars online to bring ideas into reality. This book sheds light on the developing concept of crowdfunding in the public sector with an overview of current academic discussions and best practices on crowdfunding in the public sector. The volume approaches crowdfunding in the public sector from an integrated perspective, addressing the dearth of publications on the subject. The book gathers a wealth of

theoretical information ideas best practices and lessons learned in the context of executing concrete crowdfunding projects and assess methodological approaches to integrating the topic of crowdfunding in public organizations curricula The book provides definitions insights and examples of this managerial perspective resulting in a theoretical framework of crowdfunding in the public sector The contributors also explore different crowdfunding applications in public sectors such as local government higher education schools arts culture organizations healthcare energy sector and police services which are presented in several case studies This is a unique book in the field that points the way forward both for policymakers and for the research community in terms of thinking about crowdfunding in the public sector and the complex issues surrounding its development
