**The role of resilience in explaining hotel growth**

**A fuzzy set QCA approach**

**PURPOSE** Due to the detrimental effects of the recent pandemic on the hotel sector hotel resilience research and its impact on hotel recovery have received lots of academic attention However a sustainable perspective on hotel resilience as an approach for investigating its impact on long term hotel growth has been largely overlooked in the hospitality resilience literature Therefore this paper aims to address the research gap by identifying the configuration of factors that constitute sustainable hotel resilience leading to the growth of selected hotels operating in Poland

**METHODOLOGY** Data for analysis were obtained from surveys conducted with 120 managers of one and two star hotels A fuzzy set qualitative comparative analysis fsQCA was chosen to achieve the goal which belongs to the group of configurational analysis methods

**FINDINGS** Due to the asymmetric nature of the method the analysis reveals configurations of factors leading to high hotel growth and those leading to low growth In both cases two such factor configurations were obtained For high levels of hotel growth it was found that maintaining a high level of three factors simultaneously namely employee resilience CSR activities and leadership resilience or CSR activities team resilience and leadership resilience provided sufficient conditions For low levels of growth fsQCA indicated sufficient conditions in the form of a low level of CSR activities and leadership resilience or a low level of employee resilience and team resilience These findings emphasize the role of combining different factors to improve hotel growth

**IMPLICATIONS** The research contributes to the literature on resilience in the hospitality industry by developing a new theoretical perspective on the complex nature of combinations of factors that contribute to sustainable hotel resilience leading to both high and low growth The research results also provide significant implications for entrepreneurs and managers indicating the role of different combinations of factors in determining hotel growth

**ORIGINALITY AND VALUE** The knowledge regarding sustainable hotel resilience is still insufficient The study identified the best combinations of factors both internal and external that constitute sustainable hotel resilience which may be vital for hotel growth

**Keywords** hotel resilience CSR activities employee resilience leadership resilience team resilience financial resilience hotel growth Poland

**fsQCA** Exploring resilience of the hotel industry using the example of Polish regions The case of COVID 19 pandemic

**PURPOSE** This study explores the relationship between the resilience of the hotel industry an underdeveloped concept and the factors that support the development of this industry It examines whether the resilience of the hotel industry varies regionally and whether it is influenced either by the characteristics of the hotel industry or by regional economic conditions The study focuses on the COVID 19 pandemic which particularly hit the hotel industry

**METHODOLOGY** The clustering method is used to identify regions in Poland with similar pre pandemic hotel industry development are identified Secondly Potthoff s analysis and Kruskal Wallis tests with Dunn s tests are used respectively to identify variations in the resilience

responses of the industry in different regions and to examine the antecedents of these variations

**FINDINGS** The data collected indicate variations between clusters in terms of resilience response Not all factors that support the development of the hotel industry in a particular region are equally conducive to its resilience Our study shows that the pandemic was not an isolated or unique event but rather a catalyst that brought long standing issues for the hotel and tourism sector

**IMPLICATIONS FOR THEORY AND PRACTICE** This study contributes to the development of resilience theory by providing evidence based arguments for separating the domains of resilience and development and for a more granular exploration of the trade offs between them From the perspective of the hotel industry insights into narrowly channeled agglomeration externalities during a crisis could inform strategic decisions regarding the location of hotel investments the value proposition created and business model diversification Therefore there is a need for more resilient crisis management strategies that can be applied across the tourism sector These strategies should encompass effective supply chain management and a robust framework for labor security

**ORIGINALITY AND VALUE** The findings suggest that hotel industry development factors which include both industry characteristics and regionally shaped economic conditions provide mixed support for the resilience of this industry The study revealed clear tensions between development and resilience impacts by highlighting existing trade offs Focusing attention on trade off tensions advances both the conceptual validity and application potential Although the present study was defined for the specific circumstances of the hotel industry this approach can be replicated in different industries that are components of the supply chain of the tourism market and its value chain

**Keywords** hotel industry resilience multidimensionality pandemic regional conditions COVID 19 Assessing sustainable practices and managerial approaches in the hotel industry A comparative case study

**PURPOSE** The study is comparative comparing sustainable practices and approaches in two hotels to better understand different management approaches The study s design provides valuable insights into the topic of sustainability practices in the hotel industry and the results are analyzed and discussed in the context of existing academic knowledge on the issue

**METHODOLOGY** The goal of the selection process was to find information rich cases After conducting initial online research two four star hotels in the same regional capital city in the Czech Republic were intentionally chosen These hotels are direct competitors and have very similar target customers To collect data the authors conducted two separate semi structured in depth interviews with the CEOs of both hotels as well as observations in both establishments and additional interviews with staff The interview protocol which is innovative and newly assembled was added to ensure the case study s reliability and enable future comparisons A comprehensive criterion table methodically presents the research outcomes

**FINDINGS** Besides the list of sustainability practices applied in the hotels under study the authors described two distinct management approaches The first approach takes a broad perspective considering all aspects of sustainability and incorporating it as a fundamental part of the company s vision In contrast the second approach focuses narrowly on cost savings and profit generation The form of business is the critical factor

responsible for the difference in managerial approach Interestingly the study suggested that hotels belonging to large chains and stock companies may be more compelled to adopt sustainability practices and may have more established sustainability programs than independent hotels

**IMPLICATIONS** In light of previous literature the findings of this case study provide valuable theoretical contributions to managerial approaches to sustainability programmes sustainability reporting transparency and more Additionally the newly assembled interview protocol is an innovative and important foundation for future research The study also uncovers significant new barriers to the adoption of sustainability practices From a managerial perspective this study offers a comprehensive overview of hotels sustainability practices and serves as a practical list of potential sustainable practices for hotels to consider Finally the conclusion provides suggestions for future research that can further advance sustainable practices in the hotel industry

**ORIGINALITY AND VALUE** The study s significance stems from a thorough analysis of prior literature and conducting additional research in a new setting providing a unique perspective on the topic of hotel sustainability within a specific area The case study approach allowed for an in depth examination of the selected cases with attention to detail The methodology and public interview protocol offer the potential for comparable studies in other regions to be conducted and compared in the future

**Keywords** sustainability sustainable development practices hotel industry hospitality industry tourism management Linking employee voice to service recovery performance in the hotel sector The mediating role of tacit knowledge sharing and employee innovation

**PURPOSE** In reality service failures are inevitable However poor service recovery can decrease customer trust and exacerbate customer dissatisfaction Previous studies have focused on service failure types reasons for failure and successful recovery actions from the customers perspective Accordingly this study aims to present a different view by investigating the factors that could improve hotel recovery performance from the employees perspective Therefore a model was developed to study the influence of employees voice tacit knowledge sharing and employee innovation on service recovery performance

**METHODOLOGY** This quantitative study used an online survey to gather data from employees in the hotel industry in Jordan A total of 214 valid responses were obtained Participants were targeted randomly mainly through Facebook groups for hotel employees

**PLS SEM** Partial Least Squares Structural Equation Modeling was employed in this research to analyze the data using Smart PLS 3 software

**FINDINGS** The results indicated that employee voice is positively associated with tacit knowledge sharing Furthermore it was found that tacit knowledge sharing is positively related to employee innovation The findings demonstrated that tacit knowledge plays a partial mediating role in the association between employee voice and employee innovation Additionally it was discovered that employee innovation has a positive association with service recovery performance Finally the results indicate that employee innovation partially mediates the relationship between tacit knowledge and service recovery performance

**IMPLICATIONS** Hoteliers are suggested to create a supportive work climate where employees can express their thoughts ideas and concerns without fear of retribution Furthermore hotel managers are

advised to establish clear expectations for employees regarding the significance of their opinions and insights and recognize and reward innovative ideas that can hopefully enhance hotels performance ORIGINALITY AND VALUE This research provides new insights and contributes to the understanding of the role of employee voice tacit knowledge sharing and employee innovation in enhancing service recovery performance particularly in a context that has received little attention from researchers which is the hotel sector and in a developing country Jordan Compared to past studies this study offers a model that demonstrates how to leverage service recovery efforts in hotels by illustrating structured relationships between employee voice and service recovery performance through the mediation of tacit knowledge sharing and employee innovation

**Keywords** employee voice service recovery performance employee innovation tacit knowledge sharing hotels Jordan hotel sector quantitative research Structural Equation Modeling Turning crisis into chances Tourism entrepreneurs timing strategies amidst emergencies

**PURPOSE** Nowadays enterprises operate in a very turbulent environment characterized by frequent significant and often unpredictable changes Such conditions including crises force enterprises to take quick actions to adapt to changing conditions The aim of the paper is to identify chances and timing strategies used by tourism entrepreneurs in conditions of large scale emergencies such as COVID 19 and show how they can serve organizational resilience

**METHODOLOGY** Qualitative research was conducted in the form of 12 individual in depth interviews and 4 focus group interviews with 22 representatives of selected industries in the tourism sector The concept of chance management and timing strategies is used to present how according to our interviewees changes in the environment caused by the pandemic contributed to the survival and development of their entities in the tourism market

**FINDINGS** The research findings showed that changes caused by the pandemic allowed entities to identify several chances These chances mainly concerned the introduction of changes to the offer accelerating previously planned changes and enabling the introduction of unplanned changes Moreover they provided the chances to use held digital competences and time to think about the company s development strategy as well as establishing and developing relationships with stakeholders Additionally our research identified four timing strategies used by tourism entrepreneurs in the time of crisis i e chance grasping strategy chance entraining strategy chance riding strategy and chance creating strategy

**IMPLICATIONS** Tourism enterprises are highly exposed to operating in crisis conditions Therefore chance management can be very useful in their activity and our research findings can be also useful regarding its theoretical and practical implications From the theoretical point of view we show how the concept of chance management in particular timing strategies can be useful for analyzing the reactions of tourism entrepreneurs to changes in times of crisis and taking advantage of opportunities arising from crisis situations From a practical point of view we show what strategies depending on entrepreneurs subjective assessment of the current and future conditions for implementing changes can serve organizational resilience in times of crisis ORIGINALITY AND VALUE This paper fills a research gap related to the use of the concepts of chance management and timing strategies from the

perspective of tourist enterprises resilience previously not used in this context and to a limited extent used in the general management literature so far

**Keywords** chance management tourism timing strategies opportunities large scale emergency COVID 19 pandemic

**The potential of accessible tourism for sustainable development of local communities in northern Pakistan**

**PURPOSE** Accessible tourism holds significant importance for local communities as it is a cornerstone for fostering inclusivity and equal participation in the tourism industry Recognizing the growing global emphasis on inclusivity especially for individuals with diverse needs this research aims to explore the multifaceted impacts of accessible tourism on the sustainable development of local communities in the northern areas of Pakistan Additionally the study assesses the moderating role of destination image between accessible tourism dimensions and the sustainable development of local communities Given that destinations heavily rely on tourism to fulfill their socio economic needs it becomes imperative to evaluate the potential transformative impact of accessible tourism on their sustainable development

**METHODOLOGY** A self administered survey was completed using a two stage sampling approach with 321 tourists and 321 local residents from five tourist destinations in northern Pakistan Subsequently the collected data were analyzed using Structural Equation Modeling SEM to test the proposed hypotheses

**FINDINGS** The results show the significance of all four dimensions of accessible tourism accessible core resources and attractors accessible supporting factors and resources accessible qualifying and amplifying determinants and destination planning and management in the sustainable development of local communities The moderation assessment further confirms that destination image strengthens the relationship between accessible core resources and attractors contributing to the sustainable development of local communities However destination image was found to have a negative moderating effect between accessible qualifying and amplifying determinants and the sustainable development of local communities

**IMPLICATIONS** Empirical findings offer fresh insights for destination planners and policymakers in the tourism industry These insights pertain to the effective utilization of accessible tourism practices which can significantly contribute to the sustainable development of destinations Additionally tourism businesses can leverage the research to attract a broader segment of tourists increase profitability and enhance tourist satisfaction by implementing accessible practices and services Understanding the moderating role of destination image can further guide them in crafting responsible tourism narratives that resonate with diverse travelers

**ORIGINALITY AND VALUE** The study marks an initial attempt to explain how destinations particularly those heavily reliant on tourism can strategically leverage accessible tourism as a crucial factor in fostering sustainable community development

**Keywords** accessible tourism sustainable development local communities northern Pakistan inclusivity in tourism destination image structural equation modeling tourism policy community development tourist satisfaction

*Collaborative Networks and Their Breeding Environments* Luis M. Camarinha-Matos, Hamideh Afsarmanesh, Angel Ortiz, 2006-03-09 Progress in collaborative networks continues showing a growing number of manifestations and has led to the acceptance of Collaborative Networks CN as a new scientific discipline Contributions to CN coming from multiple reference disciplines has been extensively investigated In fact developments in CN have benefited from contributions of multiple areas namely computer science computer engineering communications and networking management economy social sciences law and ethics etc Furthermore some theories and paradigms defined elsewhere have been suggested by several research groups as promising tools to help define and characterize emerging collaborative organizational forms Although still at the beginning of a long way to go there is a growing awareness in the research and academic world for the need to establish a stronger theoretical foundation for this new discipline and a number of recent works are contributing to this goal From a utilitarian perspective agility has been pointed out as one of the most appealing characteristics of collaborative networks to face the challenges of a fast changing socio economic context However during the last years it became more evident that finding the right partners and establishing the necessary preconditions for starting an effective collaboration process are both costly and time consuming activities and therefore an inhibitor of the aimed agility Among others obstacles include lack of information e g non availability of catalogs with normalized profiles of organizations and lack of preparedness of organizations to join the collaborative process Overcoming the mismatches resulting from the heterogeneity of potential partners e g differences in infrastructures corporate culture methods of work and business practices requires considerable investment Building trust a pre requisite for any effective collaboration is not straight forward and requires time Therefore the effective creation of truly dynamic collaborative networks requires a proper context in which potential members are prepared to rapidly get engaged in collaborative processes The concept of breeding environment has thus emerged as an important facilitator for wider dissemination of collaborative networks and their practical materialization The PRO VE 05 held in Valencia Spain continues the 6th event in a series of successful working conferences on virtual enterprises This book includes selected papers from that conference and should become a valuable tool to all of those interested in the advances and challenges of collaborative networks

*Mobile Networks and Management* Kostas Pentikousis, Oliver Blume, Ramon Agüero, Symeon Papavassiliou, 2010-05-10 The First International ICST Conference on Mobile Networks and Management MONAMI was held in Athens Greece during October 13-14 2009 hosted by the National Technical University of Athens. Through what we hope will be a long lasting series of events this new international conference aims at bringing together top researchers, academics and practitioners specializing in the area of mobile network management. Multiaccess and resource management, mobility management and network management have emerged as core topics in the design, deployment and operation of current and future networks. Yet they are treated as separate, isolated domains with very little interaction between the experts in these fields and lack of cross-pollination. MONAMI 2009 offered the opportunity to leading researchers, industry professionals and academics to meet and discuss the latest advances in these areas and present results related to technologies for true plug and play networking, efficient use of all infrastructure investments and access competition. MONAMI 2009 featured eight full papers and five short papers which were selected after a thorough peer review process based on their relevance to the scope of the conference and their technical merit. The overall acceptance rate was 50%. The contributing authors covered a range of topics in mobile networks and their management that are currently of high interest in the wireless research area.

*A Modern Guide to Networks* Robyn Keast, Joris Voets, Jack W. Meek, Christine Flynn, 2023-09-06 *A Modern Guide to Networks* highlights the key dimensions of today's networks, advancing knowledge of how networks operate and how they will likely function in the future. Combining academic perspectives with practice-based insights, it pushes disciplinary boundaries and provides unique insight into researching and participating in social networks.

Brears,2020-03-24 This book provides a systematic review of nature based solutions and their potential to address current environmental challenges In the 21st century society is faced by rapid urbanisation and population growth degradation and loss of natural capital and associated ecosystem services an increase in natural disaster risks and climate change With growing recognition of the need to work with ecosystems to resolve these issues there is now a move towards nature based solutions which involve utilising nature s ecosystem to solve societal challenges while providing multiple co benefits This book systematically reviews nature based solutions from a public policy angle assessing policy developments which encourage the implementation of nature based solutions to address societal challenges while simultaneously providing human well being and biodiversity benefits This includes enhancing sustainable urbanisation restoring degraded ecosystems mitigating and adapting to climate change and reducing risks from natural disasters While nature based solutions can be applied strategically and equitably to help societies address a variety of climatic and non climatic challenges there is still a lack of understanding on how best to implement them The book concludes by providing a best practice guide for those aiming to turn societal challenges into opportunities This book will be of great interest to policymakers practitioners and researchers involved in nature based solutions sustainable urban planning environmental management and sustainable development generally *Unravelling Supply Chain Networks of Fisheries in India* Meenakshi Rajeev,Supriya Bhandarkar,2022-01-19 This book on the fisheries sector in India through primary surveys as well as secondary literature brings out various nuances of the sector and its trade opportunities the complexities surrounding the supply chain of fish as well as the evolution of its marketing channels A distinctive feature of this book is that it carries out a comprehensive mapping of the fisheries supply chain by taking into account both marine and freshwater fish It identifies various players especially traders who take part in the product flow irrespective of the impact each of them has on the value provided to the end customer While members of the supply chain include all individuals or organisations

between whom interaction takes place directly or indirectly from the point of production to consumption this study also distinguishes between primary and peripheral members to make a complex network more manageable Moreover the book provides a comprehensive analysis of the emerging marketing channels both organised and unorganised in this highly perishable food segment It provides important insights into the current scenario focusing on the emergence of newer forms of marketing such as multinationals and e retailing while highlighting how traditional forms such as mom and pop shops have continued to sustain despite the challenges they face The findings from India are also compared to global experiences of other fish producing and exporting countries such as Bangladesh Indonesia and Thailand to offer a comparison of the differences and similarities in the supply chains of various countries The book provides important takeaways for researchers and PhD scholars working in the area of fisheries as well as supply chains Since this book is based on field visits to different parts of the country it brings out the ground realities along with interesting insights and important policy implications for the sector and should therefore appeal to policymakers as well

### **Managing Ntwks Twentyfirst C Org Introduction**

In today's digital age, the availability of Managing Ntwks Twentyfirst C Org books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Managing Ntwks Twentyfirst C Org books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Managing Ntwks Twentyfirst C Org books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Managing Ntwks Twentyfirst C Org versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Managing Ntwks Twentyfirst C Org books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Managing Ntwks Twentyfirst C Org books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Managing Ntwks Twentyfirst C Org books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library.

lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers.
