**The National Electronic Library** Gary Pitkin, 1996-06-30 The National Information Infrastructure will bring information to the doorstep of every household Librarianship must respond to this development through the National Electronic Library Librarianship as a profession must set the information agenda if it is to be a viable and influential entity in the electronic environment Traditional library services are being redefined by technology and the concept of the National Electronic Library must combine the roles of the academic institution public enterprise and library education This professional reference is a guide to assist librarians in planning for the future The volume maintains that the growing electronic environment is driving a cultural transformation in which libraries must examine and understand what libraries have been what they are and what they need to be Libraries need to participate actively in this transformation in

order to remain the central providers of information and related services The book explores the National Electronic Library as a concept and formal organization Library services collections and the physical facility are examined in terms of present and future needs based on the rapidly changing electronic environment and the volume relates the future management of information to administrative structures constituencies public and technical services collection development education and strategic planning

Capter L'essence Du Spectacle Nicole Leclercq,Kristy Davis,Laurent Rossion,Alan R. Jones,2010 Le défi du patrimoine immatériel est de capturer l'essence du spectacle l'idée de capture a cela d'intéressant qu'elle suppose que les professionnels impliqués dans la SIBMAS soient comme des chasseurs sur la piste de toutes sortes de façons afin de coincer et de recueillir un petit quelque chose d'éphémère qui en vaut la peine et qui nous en apprend sur nous mêmes et sur notre monde Certains chasseurs se servent des bases de données d'autres des écrits ou des images mais tous partagent un même objectif ne pas laisser se perdre un moment spécial magique que seule la vie du spectacle peut générer The challenge of intangible heritage is to capture the essence of performance the idea of capturing is interesting as it implies that the professionals involved in SIBMAS are on a hunt a hunt in a number of different ways to pin down and preserve something ephemeral and something worth preserving something that tells us more about ourselves and the world we live in Some hunters use the database some the written word some the camera but all share a common goal not to let go of a particular moment a magic moment that only the live event can create

Introduction to Health Sciences Librarianship Frank Kellerman,1997-01-21 Health sciences librarianship today demands a balance among computer files human ingenuity and print sources The many information sources presently available enable health sciences librarians to do a better job but that job has also become correspondingly more difficult This professional reference surveys the various types of print and electronic resources important to the health sciences and provides valuable practical advice to librarians for meeting the information needs of researchers practicing physicians and other health professionals Health sciences librarianship today demands a balance among electronic files human ingenuity and print sources Thanks to computerization and telecommunications librarians can do much more now than just a few years ago While the tremendous growth in available resources has enabled librarians to provide more thorough information to patrons the process of doing so has become correspondingly more complex While librarians still need to use many traditional skills they must also develop new ways of finding and utilizing information This professional reference surveys the field of health sciences librarianship and provides extensive practical advice to assist health sciences librarians in meeting the information needs of their patrons Because journal literature is the principal medium of information in the health sciences the book begins with an examination of the roles that journals play as well as the large proportion of the library budget that they consume The volume then discusses techniques of searching journal literature such as print and electronic indexing and abstracting tools Additional chapters are devoted to the selection and organization of health sciences books and reference tools and services Special attention is given

to the electronic distribution of biomedical information With important sources of health information now becoming available via the Internet this book provides a point of departure to evaluate those sources The final chapter discusses the various environments that shape health sciences librarianship such as library settings professional associations and economic contexts

**Du Document à l'utilisateur- from Document to User** Kristy Davis,2008 C est un defi de taille pour les archivistes les bibliothecaires les museologues ou les documentalistes specialises de conserver la memoire et la trace du spectacle vivant dans une societe ou les techniques evoluent sans cesse Les techniques d enregistrement audiovisuel et les supports pour conserver les images se sont modifiees La mise en valeur de nouveaux medias est une gageure dans la conception des expositions Enfin les pratiques de recherche et l essor conjoint des bases de donnees ont modifie la donne Tels sont les nombreux sujets de reflexion qui se sont offerts aux membres de la SIBMAS Societe internationale des bibliotheques et musees des arts du spectacle lors de son 25e Congres qui s est tenu a Barcelone en 2004 En voici les Actes qui par des approches diverses tenteront d eclairer ces interrogations In a world where technologies are constantly evolving it is a real challenge for archivists librarians museum curators and information professionals to keep track of and record living theatre Audiovisual recording techniques are now cheap and accessible to many electronic storage and dissemination of information and images has radically altered the relationship between the managers of collections and their potential users new techniques have introduced new possibilities for interactivity in exhibitions and displays These are just some of the issues addressed by the SIBMAS International Association of Libraries and Museum of the Performing Arts during its 25th Annual Conference held in Barcelona in 2004

Future-Proofing the News Kathleen A. Hansen,Nora Paul,2017-01-26 News coverage is often described as the first draft of history From the publication in 1690 of the first American newspaper Publick Occurrences to the latest tweet news has been disseminated to inform its audience about what is going on in the world But the preservation of news content has had its technological legal and organizational challenges Over the centuries as new means of finding producing and distributing news were developed the methods used to ensure future generations access changed and new challenges for news content preservation arose This book covers the history of news preservation or lack thereof the decisions that helped ensure or doom its preservation and the unique preservation issues that each new form of media brought All but one copy of Publick Occurrences were destroyed by decree The wood pulp based newsprint used for later newspapers crumbled to dust Early microfilm disintegrates to acid and decades of microfilmed newspapers have already dissolved in their storage drawers Early radio and television newscasts were rarely captured and when they were the technological formats for accessing the tapes are long superseded Sounds and images stored on audio and videotapes fade and become unreadable The early years of web publication by news organizations were

lost by changes in publishing platforms and a false security that everything on the Internet lives forever In 50 or 100 years what will we be able to retrieve from today's news output How will we tell the story of this time and place Will we have better access to news produced in 1816 than news produced in 2016 These are some of the questions Future Proofing the News aims to answer
