Managing Professional Teachers Middle Management In Primary And Secondary Schools:

Managing Professional Teachers Nigel Bennett, 1995-10-28 It is an easy read but a book with substance to be read chapter by chapter or to dip into for advice Yes I would recommend this book to others Certainly a book for the staff library and one that I expect to see on many a course reading list Management in Education This book provides a different approach to management development for teachers holding positions of responsibility in schools below the level of senior management It argues that practical help for managers in schools lies in developing a sound understanding of the nature of their job rather than following recipes and applying formulae Instead of offering a how to do it recipe of tips for teachers which may or may not be helpful it provides

Managing the Curriculum David Middlewood, Neil Burton, 2001-07-23 Keeping the focus clearly on learning and teaching the authors explore the practical issues for managers at the institutional level within the context of their need to understand and analyze key educational values and principles

Managing the Curriculum in South African Schools Marianne Coleman, M. Graham-Jolly, David Middlewood, 2003 The introduction of Curriculum 2005 and Outcomes Based Education mark both a sea change in the way in which education is offered in schools and a challenge to all involved This book considers the main issues in curriculum management as education switches to a more devolved framework

Managing People in Education Tony Bush, David Middlewood, 1997-02-28 Aims to enhance management practice in education by presenting research findings and theory from a wide range of contributors Skills and Enterprise Update This is indeed a book which could be useful to a much larger readership than the normal closed circle of those working in education Managing Schools Today The book presents relevant research and theory in order to enhance management practice in education The editors intention is to articulate good practice on the basis of evidence in educational settings The ideas presented here are derived from international research and practice and apply to all phases of education with the emphasis on applying research findings to improve practice in schools and colleges

Rethinking Educational Leadership Nigel Bennett, Lesley Anderson, 2003-07-11 Focusing on current research and thinking about leadership a wide range of prominent international contributors present a rare self critical look at their own assertions and test alternative leadership models against recent research projects

Middle Management in FE Ann Briggs, 2006-10-15 This is a survival guide for middle managers in FE Ann Briggs provides readers with helpful hints and strategies for dealing with the key issues associated with this role such as managing people liaising with other staff being an effective leader as well as succeeding as a player manager Informative and engaging this practical guide will prove essential reading for all managers in FE

Understanding School Leadership Peter Earley, Dick Weindling, 2004-09-28 This is a book packed with ideas and insights It is informed by evidence from school leaders and provides a valuable overview of many important theories and research findings A strength of the book is the way it pulls together empirical research the authors have conducted over the last 20 years Such a long term view offers a new and needed long term perspective on school leadership and enables the

authors to show how trends in leaders careers thinking and practice have emerged and unfolded Researchers and practitioners alike will find something of value in this book Professor Geoff Southworth Director of Research National College for School Leadership A n excellent well written extensively referenced empirically based contribution to school leadership thinking Earley and Weindling offer valuable insights for all of us serving headteachers principles advisory and distinct wide policy makers and aspiring headteachers Journal of Educational Administration By giving a detailed picture of the rapidly developing field of educational leadership this book focuses on how to become a more effective manager and on understanding the vital importance of the manager s role in school improvement Written in a clear and readable style it contains an extensive exploration of leadership models and management strategies and is based on the latest research The text is supplemented with case studies of leadership in action Understanding School Leadership is indispensable reading for those who have a managerial role within their school and for students of educational management Subject Leadership and School Improvement Hugh Busher,Alma Harris,2000 Curriculum and subject leadership in schools has recently gained substantial attention from both researchers and policy makers The Teacher Training Agency TTA has reinforced the importance of subject leadership in school improvement proposing a new measure of such leadership competence through the creation of national subject leader standards NPQSL Subject Leadership and School Improvement reflects critically on the work of subject and curriculum leaders especially in schools in England and Wales that is those within the policy framework of The National Curriculum and the Teacher Training Agency The book debates the functions of subject leaders in primary and secondary schools using current research *Managing Effective Learning and Teaching* Ann R J Briggs,Daniela Sommefeldt,2002-07-23 Presenting the theory underlying management of teaching and learning as well as discussion of good practice in schools and colleges the authors of this volume discuss the rationale for learning and teaching though a consideration of curriculum design This is linked to models of learning and teaching and the management of contexts for learning together with the roles and responsibilities of curriculum managers Examples are drawn from international settings as well as from the United Kingdom encouraging the reader to explore the context of managing learning and teaching within his her own institution The authors provide self study material with extensive links to other key texts in the field This book is a valuable source book for curriculum managers at all levels in schools and colleges as well as a course book for Masters level study in educational management **Effective Subject Leadership** Kit Field,Phil Holden,Hugh Lawlor,2002-03-11 This book highlights issues which underpin the professional capabilities of existing and aspiring subject leaders The content is designed to build on the skills knowledge understanding and attributes which serving Heads of Department and subject co ordinators already possess Sections are provided on essential knowledge and understanding for the role strategic planning and development monitoring and evaluating teaching and learning leading and managing staff to raise achievement The emphasis throughout is on corresponding with the National Standards set by the Teacher Training Agency Through focused

activities the book aims to set challenges in practical contexts and to help subject leaders to plan ahead and improve subject provision in order to raise standards *How to Run Your Department Successfully* Chris Turner, 2005-04-29 It is increasingly being acknowledged that subject leaders hold the key to school improvement and professional development However there is little information available for subject leaders to help them with the day to day practicalities of running a department on top of existing teaching commitments This uniquely practical book deals specifically with current issues faced by subject heads of department HoDs Engagingly and entertainingly written this book covers the major areas of concern to subject leaders including leadership styles managing staff managing pupil performance strategic planning curriculum development and coping with problems *Leading Professional Development in Education* Bob Moon, John Butcher, Elizabeth Bird, 2000 This work focuses on the nature of professional learning and the policy context in which educational reform takes place It also explores the forms of leadership relevant to the differing contexts of professional development *School Leadership in the Context of Standards-Based Reform* Louis Volante, 2012-05-16 Although standards based reform emerged in the United States and the United Kingdom the idea has spread across the world as an approach to systemic reform It might appear that there is a world wide tsunami of standards based reform that will standardize and homogenize the educational system across the globe This volume makes it very clear however that there is no one approach to standards based reform and countries change there is a danger in paying attention to its evolution and impact in only one context That's what makes this volume so valuable Louis Volante has drawn together descriptions from a wide range of countries all involved in large scale reform and using standards and assessments as part of their process What becomes very obvious is that the language may be the same but the words reflect different contexts and can represent very different ideals values and processes I'm sure you will find this book as interesting and challenging as I have a gem that pushes your thinking and does not allow readers to remain neutral Lorna Earl **Effective Subject Leadership in Secondary Schools** Alma Harris, 2013-10-28 First Published in 1999 Expectations placed on middle management have risen sharply in the last few years and their increased importance in the role of managing and developing others have been reflected in the new Teacher Training Authority TTA Subject Leader Standards Consequently the role of subject leader is one which necessitates careful preparation and development Written in line with these Standards in an accessible style and format this book supports INSET courses and days designed to develop the essential management skills required by secondary subject leaders provides support for the Head of Department in developing an more systematic approach to the management of an effective department provides useful information for aspiring Heads of Department and Senior Managers who are endeavouring to improve the performance of middle management in their schools *Educational Leadership and Learning* Sue Law, Derek Glover, 2000-02-16 Educational leaders whether in schools colleges or higher education are challenged with steering unprecedented change educational management has never been more demanding Within the context of a new learning age

and the Teacher Training Agency's National Standards this book explores many of the key issues facing those both aspiring to and already involved in leadership and management whether at middle or senior levels While focusing particularly on schools and colleges this book evaluates issues increasingly central to leadership in a variety of professional educational settings for example school improvement innovation teamwork organizational culture professional development motivation and the nature of leadership In identifying key concepts it scrutinizes possible management strategies within a changing policy context that is increasingly focused around standards accountability and reputation The book utilizes research evidence to illuminate the practices challenges and problems facing educationists and endeavours to overcome the perceived gap between practice and research to create an integrated approach to leadership and management development one which both supports and stimulates managers professional development aspirations
