Managing Quality In Young Childrens Programs The Leaders Role:

Evidence-Based Practices and Programs for Early Childhood Care and Education Christina J. Groark, Kelly E. Mehaffie, Robert B. McCall, Mark T. Greenberg, 2006-07-14 This timely handbook presents evidence and recommendations to make informed decisions for planning funding and operating high quality educational programs for children ages 3-8

Early Childhood Education Moncrieff Cochran, Rebecca S. New, 2007-01-30 Early childhood education has reached a level of unprecedented national and international focus. Parents, policy makers and politicians have opinions as well as new questions about what, how, when and where young children should learn. Teachers and program administrators now find curriculum discussions linked to dramatic new understandings about children's early learning and brain development. Early childhood education is also a major topic of concern internationally as social policy analysts point to its role in a nation's future economic outlook. As a groundbreaking contribution to its field, this four-volume handbook discusses key historical and contemporary issues, research, theoretical perspectives, national policies and practices. Culture and Child Development in Early Childhood Programs Carollee Howes, 2010 Early childhood education programs are expected to provide exemplary care for all children, poor and affluent, children of color and White children, while also adapting care to include children's families and cultures. These two sets of expectations are often difficult for teachers and programs to meet. In this book, Carollee Howes shows how high quality programs successfully adapt child development guidelines within cultural contexts and why quality needs to be and can be measured in culturally specific ways. This important book closely examines ECE programs considered exemplary for low-income children of color. Shows how directors and teachers successfully use practices derived from their cultural communities to implement universal standards of child care. Identifies the commonalities in good early childhood programs that are shared across class, race and ethnic communities. Offers best practices based on extensive assessments, interviews and observations. Will have immediate relevance for policy debates for understanding the mechanisms of program effects and for educators who wish to deepen their knowledge of practice. Robert C. Pianta, University of Virginia. I urge all higher education faculty, in-service teacher trainers, accreditation observers, researchers, text book writers and policymakers of standards to read this book. From the Foreword by Louise Derman-Sparks. Leading Anti-Bias Early Childhood Programs Louise Derman-Sparks, Debbie Lee-Keenan, John Nimmo, 2015 With a focus on the leader's role in initiating and sustaining anti-bias education in programs for young children and their families, this book is both a stand-alone text and a perfect companion for *Anti-Bias Education for Young Children and Ourselves*. It emphasizes that this work is not only about changing curriculum but requires thoughtful strategic long-term planning that addresses all components of an early childhood program. With a powerful combination of conceptual frameworks, strategies and practical tools, Louise Derman-Sparks, renowned expert on anti-bias education, together with experienced early childhood directors Debbie Lee-Keenan and John Nimmo, explain the structural and individual changes leaders must foster. Featuring the authors' extensive experience in the field, supplemented

with insights from other anti bias educators they build on and expand current thinking about best early childhood leadership practices This is an essential resource for anti bias education leaders engaged in change in the wide range of early childhood care and education settings Book Features The principles guidelines and strategies needed for school and program wide transformation Activities for working with teachers and families to integrate an anti bias approach Strategies for supporting and strengthening the leader s ability to initiate and sustain anti bias education change including resources to increase staff skills for implementing anti bias education with children Tools for assessing anti bias education progress and managing mandated standards and assessments A concise and powerful message for anti bias leaders in early childhood education everywhere A truly inspired gift of lessons from the movement for the movement Carol Brunson Day President of the Board National Association for the Education of Young Children If you are an educator wanting to see more equity and inclusiveness in the world at times discouraged confused or overwhelmed with how to manage the conflict that always emerges in the change process you ll find reassurance resources and strategic thinking to engage in this anti bias work Margie Carter author The Visionary Director and international early childhood consultant It is never too early to prepare children to deal effectively with issues of race class gender family and ability and equity This book is a tool box for building early childhood programs that foster sentiments of justice and fairness in leaders teachers and young children and help them to act on these values Herbert Kohl educator and bestselling author of The Herb Kohl Reader Awakening the Heart of Teaching Management of Child Development Centers Patricia F. Hearron, Verna Hildebrand, 2003 For courses in administration of preschool and daycare programs In this popular text Hearron and Hildebrand position the child development program among the key components of a child s ecosystem They show high quality children s programs as essential support for a child s family not as islands of education unconnected to the rest of a child s world Coverage is clearly based on developmentally appropriate practices and the indicators of quality established by the NAEYC and organized around thirteen core competencies with a full chapter devoted to each As the narrative is written in friendly easy to understand language and bolstered by learning aids examples and exercises that capture student attention and keep it
