Managing The Chinese Environment:

Managing the Chinese Environment Richard L. Edmonds, 2000 **Managing the Chinese Environment** Richard L. Edmonds, 2000 In the coming decades environmental issues will play an increasing role in China's economic development drive internal politics legal development international relations and regional development issues While several books have appeared in the 1990s which describe tangible aspects of China's environmental degradation this book concentrates its attention on management of China's environment within various contexts and represents the state of thinking on the subject by some of the world's key social scientists in this field It contains an international perspective of environmental problems in China often lacking in books about the Chinese environment Chapters discuss environmental degradation in Chinese history organisation of China's environmental protection network the legal framework for environmental protection agricultural land issues water issues biodiversity energy pollution public health and business opportunities for foreign firms While this book shows that there is lots of room for optimism it also indicates that many environmental problems remain intractable and some are worsening **China's Environment and the Challenge of Sustainable Development** Kristen A.

Day, 2016-07-22 China has been experiencing extraordinary economic growth for over two decades Behind the remarkable statistics however it is facing a pressing issue balancing its economic development needs with protecting its environmental resources The environmental issue in China has a profound impact on the rest of the world as well in such concerns as global warming and ethical and legal considerations about environmental enforcement This book covers a broad range of topics from specific environmental assessments in key sectors i.e. desertification to the policy implications of China's entry into the WTO The contributors include scholars government officials business consultants environmental science and technology experts and others based in China and the United States Sharing perspectives that reflect their diverse backgrounds these experts offer valuable insights for handling the emerging opportunities and challenges of doing business in China

Environmental Management in China Jing Wu, I-Shin Chang, 2020-05-22 This book details various stages in the introduction establishment and evolution of China's environmental management system By combining a literature review comparative analysis and case study it investigates the environmental management system in several key periods in order to systematically assess the necessary measures and appropriate adjustments the Chinese Government implemented to reconcile the growing conflicts between economic development and resources conservation in the context of rapid economic growth and economic transformation Given its scope the book offers a valuable resource for experts scholars and government officials in related fields [Managing International Business in China](#) Xiaowen Tian, 2016-10-06 Extensively revised throughout the second edition of this textbook provides a comprehensive account of how transnational corporations manage business in China

Legal Methods of Mainstreaming Climate Change Adaptation in Chinese Water Management Xiangbai He, 2016-01-29 This book addresses why whether and how the existing legal framework on water

management in China could make climate change adaptation a mainstream issue The book uses a table to illustrate the distinctions and similarities between IWRM and water centered adaptation to analyze the possibilities of mainstreaming adaptation The new water planning processes and EIA are also illustrated in the form of figures showing the differences after factoring in adaptation considerations Interviews with water managers to obtain their perception and attitudes towards climate change adaptation offer new perspectives for readers The adaptation mainstreaming approach which finds a way to balance various interests and tasks will arouse the interests of those readers who argue that climate change is only one of the issues challenging water management and that poverty reduction environmental protection and living standard improvement are even more important Readers will also be interested to discover that the adaptation mainstreaming approach could be applied in water management institutions such as water planning and EIA In addition the book offers a clear explanation of the challenges of adaptation to the existing water related legal framework from a theoretical perspective and provides theoretical and practical recommendations

Institutions in Environmental Management Janne Hukkinen, 2006-09-27 This work explores the difficulties of solving contemporary environmental problems within existing global institutions It questions guidelines set out in recent influential policy reports and suggests new agendas for sustainability industrial ecology and institutional reform Including case studies from the USA Europe and China this book investigates a wide range of environmental problems presently confronting experts worldwide

The Politics of Waste Management in Greater China Natalie Wai Man Wong, 2021-04-20 The growth of municipal waste is a common challenge found in the urbanised cities of Greater China but the question of how to manage municipal waste is controversial Wong examines the politics of managing municipal waste in three cities of Greater China Guangzhou Taipei and Hong Kong She looks at the controversies that arise from the issue and the consequent politicisation of the various solutions that are adopted Focusing particularly on the dynamics of policy actors in the three cities she compares the different political situations in each with the others This provides a valuable lens through which to explore the larger issue of the political transformation of Environmental Management in the Greater China region A compelling insight into environmental policymaking in Greater China for scholars studying the dynamics of Chinese politics

International Aid and China's Environment Katherine Morton, 2006-05-17 Rapid economic growth in the world's most populous nation is leading to widespread soil erosion desertification deforestation and the depletion of vital natural resources The scale and severity of environmental problems in China now threaten the economic and social foundations of its modernization Using case studies Morton analyzes the relationship between international and local responses to environmental problems in China challenging the prevailing wisdom that weak compliance is the only constraint upon local environmental management in China It advances two interrelated discussions first it constructs a conceptual framework for understanding the key dimensions of environmental capacity This is broadly defined to encompass the financial institutional technological and social aspects of environmental

management Second the book presents the results of an empirical inquiry into the implementation of donor funded environmental projects in both China s poorer and relatively developed regions By drawing upon extensive fieldwork it seeks to explain how and under what conditions international donors can strengthen China s environmental capacity especially at the local level It will be of interest to those studying Chinese politics environmental studies and international relations
