# Managing Welfare Reform In New York City

**Ali Farazmand**

## **Managing Welfare Reform In New York City:**

*Managing Welfare Reform in New York City* Emanuel S. Savas, 2005 Welfare reform was a spectacular success in New York under Mayor Giuliani despite the city's history of liberal social programs and its huge entrenched welfare system. The city reduced the numbers on welfare from 1 120 000 to 460 000 by changing the organizational culture: protecting against fraud, insisting on work first, adapting information technology and contracting for job placement. The organizational culture was transformed by bold leadership that changed the welfare agency's mission and goals, overcame internal resistance and prevailed over politicians who had a vested interest in the status quo and the media that were opposed to welfare reform. Welfare fraud was largely eliminated by dropping from the rolls those who were working and could not appear for in person interviews, by fingerprinting recipients to catch those enrolled under multiple identities and those receiving welfare checks from other jurisdictions, by uncovering hidden income by enrolling new applicants only after thorough investigation and by tightening controls to prevent fraud by corrupt employees. JobStat, a computer based system modeled after the Police Department's system used to track precinct activity, was developed to track the status of welfare recipients and to monitor the performance of the Job Centers which were formerly called welfare offices. JobStat focused the attention of department personnel on performance indicators rather than on minutely specified rules. The Giuliani administration's major contribution to national welfare reform was the creation of the only system in the country with large scale alternative work arrangements that was able to acculturate large numbers of the never employed to the world of work.

**Reforming Social Services in New York City** Thomas J. Main, 2025-09-15 Reforming Social Services in New York City examines efforts across six decades to respond to poverty, joblessness and homelessness through the establishment and periodic restructuring of the city's Human Resources Administration (HRA) and related social welfare agencies. As Thomas J. Main shows through archival research and interviews with key figures, the HRA has been the focus of several mayoralties. The John Lindsay administration's creation of the HRA in 1966 was a classic liberal effort to fight poverty. Rudy Giuliani brought dramatic change by implementing work oriented welfare reform and the Bill de Blasio administration attempted to install a progressive social welfare agenda within the city's social service agencies to reduce inequality. Reforming Social Services in New York City tells the story of these efforts, assessing the strategies employed and the success of their outcomes, concluding that major nonincremental change in urban welfare policy is not only possible but has been effective.

**The Oxford Handbook of New York State Government and Politics** Gerald Benjamin, 2012-09-03 New York remains the Empire State. Its trillion dollar economy makes the state a national and often world leader in banking, finance, publishing, soft services, law, accounting, insurance, consulting, higher education, culture and the arts. With more than one in five of its residents having immigrated from elsewhere, New York State is an ethnic and social harbinger for an increasingly diverse nation. Recent years have found it like many other big states challenged to achieve effective governance. How is, can or should such a state be governed? What

is its history What is its future The Oxford Handbook of New York State Government and Politics offers an unusually comprehensive detailed and systematic study of this unique and influential state The thirty one chapters in The Oxford Handbook of New York State Government and Politics assemble new scholarship in key areas of governance in New York document the state s record in comparison to other US states and identify directions for future research Following editor Gerald Benjamin s introduction the handbook chapters are organized in five sections that look at the state constitution state political processes state governmental institutions intergovernmental relations and management and policy areas Chapters address a wide array of topics including political parties campaign finance policy public opinion polling elections and election management lobbying and interest group systems the state legislature the governorship the judiciary the state s foreign policy education health care policy public safety economic development transportation policy energy policy and more A final chapter compiled by the state archivist consists of a most extensive annotated bibliography of resources on state history state political history the state constitution and state political processes Chapter authors include both scholars of New York State and current and former state officials

**Managing Welfare Reform in Five States** Sarah F. Liebschutz,2000-10-01 Analyzes the responses of five states Florida Mississippi New York Washington and Wisconsin to the challenges of implementing welfare reform

**Expanding Work Programs for Poor Men** Lawrence M. Mead,2011-05-16 Expanding Work Programs for Poor Men makes the case that poor fathers like poor mothers need both help and hassle That is poor men need more help from the government but they must also be expected and required to help themselves Drawing on welfare reform as a successful precedent Lawrence M Mead explores the psychology of male nonwork and evaluates the successes and failures of existing government programs for poor men including child support and conditions of parole These programs have succeeded in increasing work levels among poor men by requiring that they provide income to support their families or maintain a job to avoid returning to prison Although both programs rely on legal enforcement they are most effective when enforcement is coupled with incentives Mead suggests that child support and parole conditions offer a useful model for future men s work programs which should be mandatory and enforced but combined with rewards for steady work such as higher wage subsidies for low income workers

**New Black Renaissance** Manning Marable,Adina Popescu,Khary Jones,Patricia Lespinasse,2015-12-03 Against a backdrop of multiculturalism and Afrocentricity in the intellectual traditions of African American studies this book sets new standards and directions for the future It is the first book to systematically address the many themes that have changed the political and social landscape for African Americans Among these changes are new transnational processes of globalization the devastating impact of neoliberal public policies upon urban minority communities increasing imprisonment and attendant loss of voting rights especially among black males the surging of Hispanic population and widening class differences as deindustrialization crack cocaine and gentrification entered urban communities Marable and a cast of influential contributors suggest that a new beginning is needed for African American

scholarship They explain why Black Studies needs to break its conceptual and thematic limitations exploring blackness in new ways and in different geographic sites They outline the major intersectionalities that should shape a new Black Studies the complex relationships between race gender sexuality class and youth They argue that African American Studies scholarship must help shape and redirect public policies that affect black communities working with government foundations and other private institutions on such issues as housing health care and criminal justice

### **Improving Public Services**

Douglas J. Besharov, Karen J. Baehler, Jacob Alex Klerman, 2017 This volume spotlights recent advances in the worldwide use of quantitative performance measures in the public sector especially approaches that incorporate program evaluation techniques Chapters include single country case studies multi country comparisons and thoughtful essays on the challenges of making performance measurement and management work in diverse settings

*Intergovernmental Management for the 21st Century* Timothy J. Conlan, Paul L. Posner, 2009-11-01 A Brookings Institution Press and the National Academy of Public Administration publication America's complex system of multi layered government faces new challenges as a result of rapidly changing economic technological and demographic trends An aging population economic globalization and homeland security concerns are among the powerful factors testing the system's capacity and flexibility Major policy challenges and responses are now overwhelmingly intergovernmental in nature and as a result the fortunes of all levels of government are more intertwined and interdependent than ever before This volume cosponsored by the National Academy of Public Administration NAPA defines an agenda for improving the performance of America's intergovernmental system The early chapters present the current state of practice in intergovernmental relations including discussion of trends toward centralization devolution and other power sharing arrangements The fiscal underpinnings of the system are analyzed along with the long term implications of current trends in financing at all levels The authors identify the principal tools used to define intergovernmental management grants mandates preemptions in discussing emerging models and best practices in the design and management of those tools In *tergovernmental Management for the 21st Century* applies these crosscutting themes to critical policy areas where intergovernmental management and cooperation are essential such as homeland security education welfare health care and the environment It concludes with an authoritative assessment of the system's capacity to govern oversee and improve Contributors include Jocelyn Johnston American University Shelley Metzenbaum University of Maryland Richard Nathan SUNY at Albany Barry Rabe University of Michigan Beryl Radin American University Alice Rivlin Brookings Institution Ray Sheppach National Governors Association Frank Shafroth George Mason University Troy Smith BYU Hawaii Carl Stenberg University of Nor

### **Handbook of Crisis and Emergency Management**

Ali Farazmand, 2001-06-22 Including contributions from sixty international authors this book examines emergency responses to environmental dangers such as chemical fires hazardous material and oil spills nuclear reactor accidents and earthquakes and crises in the environment global public service and politics It covers a wide range of international issues and topics using

various analyses including critical descriptive empirical quantitative and normative methods The book discusses approaches to natural disasters resolutions to cultural religious and political tensions terrorism and the potential use of biological chemical and nuclear weapons the role of crisis public relations and more      *Public Housing That Worked* Nicholas Dagen Bloom,2014-08-04 When it comes to large scale public housing in the United States the consensus for the past decades has been to let the wrecking balls fly The demolition of infamous projects such as Pruitt Igoe in St Louis and the towers of Cabrini Green in Chicago represents to most Americans the fate of all public housing Yet one notable exception to this national tragedy remains The New York City Housing Authority America s largest public housing manager still maintains over 400 000 tenants in its vast and well run high rise projects While by no means utopian New York City s public housing remains an acceptable and affordable option The story of New York s success where so many other housing authorities faltered has been ignored for too long Public Housing That Worked shows how New York s administrators beginning in the 1930s developed a rigorous system of public housing management that weathered a variety of social and political challenges A key element in the long term viability of New York s public housing has been the constant search for better methods in fields such as tenant selection policing renovation community affairs and landscape design Nicholas Dagen Bloom presents the achievements that contradict the common wisdom that public housing projects are inherently unmanageable By focusing on what worked rather than on the conventional history of failure and blame Bloom provides useful models for addressing the current crisis in affordable urban housing Public Housing That Worked is essential reading for practitioners and scholars in the areas of public policy urban history planning criminal justice affordable housing management social work and urban affairs      *Oversight on the New York City Seasonal Financing Act* United States. Congress. Senate. Committee on Banking, Housing, and Urban Affairs,1977      *Policy & Practice* ,2003      Activation or Workfare? Governance and the Neo-Liberal Convergence Ivar Lodemel,Amilcar Moreira,2014-09-29 The last decade of the 20th century was marked by a shift in how welfare states deal with those at the bottom of the income ladder This shift involved the introduction strengthening of work obligations as a condition for receiving minimum income benefits which in some countries was complemented by efforts to help recipients return to the labour market namely through the investment in active labour market policies ALMP Based on case studies of developments in the US and eight European nations UK Norway Denmark Netherlands Germany France Portugal and the Czech Republic this book argues that this first set of reforms was followed by a second wave of reforms that whilst deepening the path towards the focus on work brings important innovations be it the tools used to help recipients back to the labour markets ex financial incentives and in how activation policies are delivered ex integration of benefit and employment services Looking at the array of developments introduced during this period we discern two key trends The first concerns the strengthening of the role of the market in the governance of activation which is visible in the strengthening of the focus on work or the marketisation of employment services The second concerns a move towards the individualisation of

service delivery visible in the expansion of the use of personal action plans or in efforts to streamline service delivery Finally we show that the onset of the sovereign debt crisis in Europe has triggered a new wave of reforms Whilst tentative only our analysis points to a worrying trend of the curtailment or benefits Portugal and activation services Netherlands Czech Republic to minimum income recipients and in parallel a further deepening of the focus on work conditionality UK and Norway

**Proceedings of the Federal Management Improvement Conference ,1972** **Monthly Catalog of United States Government Publications** United States. Superintendent of Documents,1978 February issue includes Appendix entitled Directory of United States Government periodicals and subscription publications September issue includes List of depository libraries June and December issues include semiannual index

**Challenging the Performance Movement** Beryl A. Radin,2006 Looks at the problems with performance management that are typically glossed over Government Budgeting and Financial Management in Practice Gerald J. Miller,2011-09-28 The right turn in U S politics has increased conflict over both ends and means in government budgeting and financial management Overlapping and competing views of the way the world works drive finance officials practice Taking a new look at public financial management that acknowledges the multiple competing realities Government Budgeting and Financial Management in Practice Logics to Make Sense of Ambiguity examines transaction cost economics and other small government managed by the market techniques as the latest reincarnation of public budgeting and financial management orthodoxy Gerald J Miller reviews new research on the continuing validity of the political dimension of government finance decisions and the multiple intensely argued constructions of reality the finance official must make sense of Miller discusses major advances in interpretive approaches to budgeting and finance and how they dominate writing in the broader field of public administration He also examines the effects of the explosion of information systems new budget techniques nonconventional ways of spending and new technologies The book uses a question as the motivating force to understand some facets of today s government budgeting finance and financial management where do the critical assumptions come from to drive financial management Miller takes the history of reform developments in the field and the logics finance officials say they use as sources for these assumptions and examines what they reveal about constructions of the government finance world Exploring new avenues of financial management thinking the book discusses ambiguity and interpretations that move the unclear preferences ends and goals toward consensus The author identifies an alternative approach to research that explains important facets of financial management This approach is drawn directly from practice events and problems in public organizations and from the creedal bent of many political actors in competition

*Social Experimentation, Program Evaluation, and Public Policy* Maureen A. Pirog,2009-04-27 This volume provides a single collection some of the best articles on social experimentation and program evaluation that have appeared in the Journal of Policy Analysis and Management JPAM Provides exposure to a variety of well executed social experiments and evaluations for evidence based public policy Examines the theory and conduct of evaluations and social experiments as they

relate to their practical implementation in evidence based policy making Provides exposure to the fundamental issues surrounding the conduct of evaluations as well as to the relative merits of social experiments and the ethics and use of evaluations Handbook of Research on Nonprofit Economics and Management Bruce A. Seaman,Dennis R.

Young,2018-06-29 Building on the success of the first edition this thoroughly revised and expanded edition explores 1 areas of general agreement from previous research 2 areas of conflicting results and unexplored questions 3 the relative roles of theory data availability and empirical analysis in explaining gaps in our knowledge and 4 what must be done to improve our knowledge and extend the literature Selected original chapters addressing especially challenging topics include the value of risk management to nonprofit decision making nonprofit wages theory and evidence the valuation of volunteer labor property tax exemption for nonprofits when is competition good for the third sector and product diversification and social enterprise international perspectives the application of experimental research and the macroeconomic effects of the nonprofit sector
