Manchester Fourteen Miles:

Manchester, Fourteen Miles Margaret Penn, 1981-03-05 The three volumes of Hilda Winstanley's childhood are now available for a new generation to enjoy **Manchester Fourteen Miles** Margaret Penn, 1981 *Summer Excursions* Concord and Montreal Railroad Company, 1892 **Manchester Fourteen Miles, Etc** Margaret Penn, 1950 **British Working Class women authors (born before 1962) a list** Stefan Szczelkun, 2025-06-07 A collection of Wikipedia articles edited reformatted and with additions In chronological order References and sections on non literary activity are sometimes omitted hopefully not to the point of misrepresenting the author which might include feminist or political activism To my surprise the biographical material on Wikipedia was sometimes mesmerising although it was uneven Where there were gaps I have tried to fill them from other sources Refer back to the wikipedia articles for more context and references in some cases and if you have a verified source of information please update the Wikipedia article Wikipedia is published under a creative commons licence So this compilation also carries a creative commons licence Introduction Looking through Sarah Richardson's *Writing on the Line* 1996 I was struck by how many of the working class women writers were from North America and how many more were poets Howard Slater had made a list of British working class male novelists and I selected British woman writers from *Writing on the Line* and found that most of them now have Wikipedia pages I first made a list of links Wanting to take this further I first looked to focus on novels and short story writers but this category started to break up as many writers wrote in many idioms producing fact fiction poetry plays screenwriting and journalism I decided on an arbitrary cut off point of writers born before 1962 When I first made the list I was thinking how few working class women novelists had been published in this period But then the lists of books by each author started to stack up and there's plenty to read and much that I missed even really hearing about Of course it focuses on the most successful others who produced a community published autobiography or self published novel did not get a Wikipedia page and they should really be included every life counts Others only published an autobiography perhaps in the last years of life but were extraordinary writers and people We could also discuss the genre snobbery in literary circles that puts crime young people's literature romantic and fantasy fiction and perhaps historical based narratives in a lower category than the novel **Summer Outings in the Old Granite State** Concord and Montreal Railroad Company, 1890 **A Topographical Survey of the Counties of Stafford, Chester and Lancaster, Containing a New-engraved Map of Each County ...** William Tunnicliff, 1787 **Railway Times**, 1846 **"The" Encyclopaedia Britannica, or, Dictionary of Arts, Sciences, and Miscellaneous Literature**, 1841 **The Encyclopaedia Britannica**, 1842 **The Encyclopaedia Britannica, Or Dictionary of Arts, Sciences, and General Literature**, 1842 Sharpe's road-book for the rail, eastern (western) division John Sharpe, 1855 *Herapath's Railway Magazine, Commercial Journal, and Scientific Review*, 1849 *Mechanics Magazine* John I Knight, 1835 **Mechanic's Magazine, Museum, Register, Journal & Gazette**, 1835 The Encyclopædia Britannica,

Or, Dictionary of Arts, Sciences, and General Literature ... with Preliminary Dissertations on the History of the Sciences, and Other Extensive Improvements and Additions; Including the Late Supplement, a General Index, and Numerous Engravings,1842 *The Mechanic's Magazine, Museum, Register, Journal and Gazette; Volume 31* Anonymous,1835 This book is a compilation of various issues of the Mechanics Magazine Museum Register Journal and Gazette It covers topics related to mechanics engineering and technology The magazine was aimed at craftsmen amateur inventors and engineers It contains detailed descriptions of various machines and mechanisms as well as articles discussing the latest advances in technology The book is a valuable resource for anyone interested in the history of industry and technology This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant The Mechanics' Magazine, Museum, Register, Journal, and Gazette ,1835 Iron Perry Fairfax Nursey,1835 *The Jurist* ,1852
