Manchoukuo Child Of Conflict:

Manchoukuo: Child of Conflict Kiyoshi Karl Kawakami, 1933 **Manchoukuo : Child of Conflict** K K Kawakami, 1997
Book on the former State of Manchoukuo and the problems between China and Japan **Resisting Manchukuo** Norman Smith, 2011-11-01 Norman Smith reveals the literary world of Japanese occupied Manchuria Manchukuo 1932-45 and examines the lives careers and literary legacies of seven prolific Chinese women writers during the period Smith shows how a complex blend of fear and freedom produced an environment in which Chinese women writers could articulate dissatisfaction with the overtly patriarchal and imperialist nature of the Japanese cultural agenda while working in close association with colonial institutions The first book in English on women's history in twentieth century Manchuria Resisting Manchukuo adds to a growing literature that challenges traditional understandings of Japanese colonialism **K. K. Kawakami and U.S.-Japan Relations** William D. Hoover, 2023-09-19 K K Kawakami the most prolific journalist writing on U S Japan relations in the forty years before Pearl Harbor analyzed and described the interaction between the country of his birth and his adopted country His more than 2 000 publications show a gradual decline in US Japan relations from the early twentieth century to Japan's attack on the US K K Kawakami and U S Japan Relations The Forty Year Road to Pearl Harbor provides a careful reading of his analysis of U S Japan relations to show that both countries bear responsibility for the tragic clash in Hawaii From the Russo Japanese War 1904-05 until the Japanese attack on Manchuria 1931 the United States bore a major responsibility with its anti Japanese policies racial discrimination and failure to recognize Japan's role in the world but with Japan's aggression in Manchuria Japan became the primary actor Relations between Japan and the U S declined gradually over a long period with both sides bearing responsibility Remote Homeland, Recovered Borderland Shao Dan, 2011-08-31 Remote Homeland Recovered Borderland addresses a long ignored issue in the existing studies of community construction How does the past failure of an ethnic people to maintain sovereignty over their homeland influence their contemporary reconfigurations of ethnic and national identities To answer this question Shao Dan focuses on the Manzhus the second largest non Han group in contemporary China whose cultural and historical ancestors the Manchus ruled China from 1644 to 1912 Based on deep and rigorous empirical research Shao analyzes the major forces responsible for the transformation of Manchu identity from the ruling group of the Qing empire to the minority of minorities in China today the de territorialization and provincialization of Manchuria in the late Qing the remaking of national borders and ethnic boundaries during the Sino Japanese contestation over Manchuria and the power of the state to re categorize borderland populations and ascribe ethnic identity in post Qing republican states Within the first half of the twentieth century four regimes the Qing empire under the Manchu royal clan the Republic of China under the Nationalist Party Manchukuo under the Japanese Kanto Army and the People's Republic of China under the Communist Party each grouped the Manchus into different ethnic and national categories while re positioning Manchuria itself on their political maps in accordance with their

differing definitions of statehood During periods of state succession Manchuria was transformed from the Manchu homeland in the Qing dynasty to an East Asian borderland in the early twentieth century before becoming China's territory recovered from the Japanese empire As the transformation of territoriality took place the hard boundaries of the Manchu community were reconfigured its ways of self identification reformed and the space for its identity representations redefined Taking the borderland approach Remote Homeland goes beyond the single country focus and looks instead at regional and cross border perspectives It is a study of China but one that transcends traditional historiographies As such it will be of interest to scholars of modern China Japanese empire and Northeast Asian history as well as to those engaged in the study of borderlands ethnic identity nationalism and imperialism [The Statesman's Year-Book](#) M. The Japanese Informal Empire in China, 1895-1937 Peter Duus, Ramon H. Myers, Mark R. Peattie, 2025-03-11 Volume two of the acclaimed three volume series on modern Japanese colonialism and imperialism This book brings together essays by leading experts on the history of Japan to examine the period from 1895 to 1937 when Japan's economic social political and military influence in China expanded so rapidly that it supplanted the influence of competing Western powers They discuss how Japan's informal empire emerged in China after Japan entered the Treaty Port system in 1895 and how it shaped Japan's own internal development How did Japan's informal empire expand in size and importance so that Japanese economic and security interests became heavily dependent on China What influence did Japanese business groups China experts and military have on their government's China policy How did the Japanese in China deal with the threatening rise of Chinese nationalism Exploring these and other questions these essays show how the pursuit of an informal empire in China played a profound role in the emergence of modern Japan The contributors are Banno Junji Barbara J Brooks Alvin D Coox Peter Duus Albert Feuerwerker Kitaoka Shin ichi Sophia Lee Mizoguchi Toshiyuki Ramon H Myers Nakagane Katsuji Mark R Peattie Douglas R Reynolds and William D Wray This is the second volume of a series on modern Japanese colonialism and imperialism Volume one is *The Japanese Colonial Empire 1895-1945* Volume three is *The Japanese Wartime Empire 1931-1945* *Reconfiguring Chinese Nationalism* J. Japanese-Mongolian Relations, 1873-1945 James Boyd, 2010-12-17 This book offers the first in depth examination of Japanese Mongolian relations from the late nineteenth century through to the middle of the twentieth century and in the process repositions Mongolia in Sino Japanese and Russo Japanese relations Beginning in 1873 with the intrepid journey to Mongolia by a group of Buddhist monks from one of Kyoto's largest orders the relationship later included groups and individuals from across Japanese society with representatives from

the military academia business and the bureaucracy Throughout the book the interplay between these various groups is examined in depth arguing that to restrict Japan's relationship with Mongolia to merely the strategic and as an adjunct to Manchuria as has been done in other works neglects important facets of the relationship including the cultural religious and economic It does not however ignore the strategic importance of Mongolia to the Japanese military The author considers the cultural diplomacy of the Zenrin ky kai a Japanese quasi governmental humanitarian organization whose activities in inner Mongolia in the 1930s and 1940s have been almost completely ignored in earlier studies and whose operations suggest that Japanese Mongolian relations are quite distinct from other Asian peoples Accordingly the book makes a major contribution to our understanding of Japanese activities in a part of Asia that figured prominently in pre war and wartime Japanese strategic and cultural thinking

Japan's "New Deal" for China June Grasso,2018-12-07 In the decade leading up to the attack on Pearl Harbor at a time when Japan was expanding its influence in Asia several Japanese institutions set about trying to convince Americans to support Tokyo's plans and ambitions for China This book seeks to analyze the original publications produced by these organizations and explores the methods used by the Japanese to influence American attitudes and policy Four organizations active during the 1930s the South Manchuria Railway Company the America Japan Society the Foreign Affairs Association of Japan and the Japan Pacific Association were particularly instrumental in targeting the US This book argues that they routinely used specific terminology to appeal to Americans such as New Deal Manifest Destiny and Open Door Furthermore the Japanese claimed that only they could meet the challenge of the growing communist threat while their development programs would bring peace and prosperity to China Nevertheless American policy was not significantly altered by Japanese propaganda efforts as documents from the administration of Franklin D Roosevelt reveal that the president continued to prepare the U S for war with Japan long before Pearl Harbour Examining original Japanese English language propaganda sources from the 1920s and 1930s this book will be of huge interest to historians of Japan China the US and World War II more broadly

Nomonhan Alvin D. Coox,1985 From May to September 1939 Japan and the Soviet Union fought a fierce large scale undeclared war on the Mongolian plains that ended with a decisive Soviet victory with two important results Japan reoriented its strategic emphasis towards the south leading to war with the United States Britain and the Netherlands and Russia freed itself from the fear of fighting on two fronts thus vitally affecting the course of the war with Germany

The Wars for Asia, 1911-1949 S. C. M. Paine,2014-10-09 The Wars for Asia 1911 1949 shows that the Western treatment of World War II the Second Sino Japanese War and the Chinese Civil War as separate events misrepresents their overlapping connections and causes The Chinese Civil War precipitated a long regional war between China and Japan that went global in 1941 when the Chinese found themselves fighting a civil war within a regional war within an overarching global war The global war that consumed Western attentions resulted from Japan's peripheral strategy

to cut foreign aid to China by attacking Pearl Harbour and Western interests throughout the Pacific in 1941 S C M Paine emphasizes the fears and ambitions of Japan China and Russia and the pivotal decisions that set them on a collision course in the 1920s and 1930s The resulting wars together yielded a viscerally anti Japanese and unified Communist China the still angry rising power of the early twenty first century **Library Book Catalog** National Institute of Law Enforcement and Criminal Justice. Office of Technology Transfer,1972 *Origins of the Pacific War and the Importance of 'Magic'* Keiichiro Komatsu,2018-10-24 Magic was the name given to the American decoding of the secret Japanese codes used in diplomatic communications before and during the Pacific War of 1941 45 This important new work presenting a Japanese perspective argues for the first time that in the final phase of the eight months of US Japan talks leading to the attack on Pearl Harbor serious mistranslations in Magic were a significant factor in the cumulative effect of mutual misunderstandings which grew between the two sides over a longer period In spite of the number of historians who take the opposite point of view the author argues that the efforts made by the participants on both sides to achieve a successful outcome and avert military conflict or at least delay the outbreak of the war until the following March 1942 might have been much closer to achieving success than generally believed The mistranslations of Magic which led to the crisis in 1941 were influenced by misunderstanding and misperception and the persistence of stereotypes and images among the parties involved The study of these kinds of phenomena has been an important part of the growth of the discipline of international relations since the Second World War **Library Book Catalog** United States. Department of Justice,1972 **Library Lantern** University of New Hampshire. Library,1927 **The English-language Press Networks of East Asia, 1918-1945** Peter O'Connor,2010-09-01 This study is the first to assess the combined significance of the English language newspapers of China Japan and Korea in the period 1918 45 It not only frames the English language press networks in the international media history of East Asia but also relates them to media developments in the British world linking Fleet Street to the Empire and Dominions and to the rise of the United States as a broker of international opinion on and in the Asia Pacific The English language newspapers occupied a narrow but significant segment of the public sphere in East Asia in the inter war years As forums of opinion on Japanese Chinese and Western interests in East Asia they also served as vehicles of propaganda particularly during the crisis ridden 1930s and the Pacific War With this examination of the media affiliations editorial line and access to official bodies in East Asia and the West of most of the English language newspapers published in East Asia in the period under review the author demonstrates that these publications formed distinct networks in terms of the editorial positions they took vis a vis the key issues of the day especially Japan s imperial project in East Asia **Japan and the League of Nations** Thomas W. Burkman,2007-12-03 Japan joined the League of Nations in 1920 as a charter member and one of four permanent members of the League Council Until conflict arose between Japan and the organization over the 1931 Manchurian Incident the League was a centerpiece of Japan s policy to maintain accommodation with the Western powers

The picture of Japan as a positive contributor to international comity however is not the conventional view of the country in the early and mid twentieth century Rather this period is usually depicted in Japan and abroad as a history of incremental imperialism and intensifying militarism culminating in war in China and the Pacific Even the empire s interface with the League of Nations is typically addressed only at nodes of confrontation the 1919 debates over racial equality as the Covenant was drafted and the 1931 1933 League challenge to Japan s seizure of northeast China This volume fills in the space before between and after these nodes and gives the League relationship the legitimate place it deserves in Japanese international history of the 1920s and 1930s It also argues that the Japanese cooperative international stance in the decades since the Pacific War bears noteworthy continuity with the mainstream international accommodationism of the League years Thomas Burkman sheds new light on the meaning and content of internationalism in an era typically seen as a showcase for diplomatic autonomy and isolation Well into the 1930s the vestiges of international accommodationism among diplomats and intellectuals are clearly evident The League project ushered those it affected into world citizenship and inspired them to build bridges across boundaries and cultures Burkman s cogent analysis of Japan s international role is enhanced and enlivened by his descriptions of the personalities and initiatives of Makino Nobuaki Ishii Kikujir Nitobe Inaz Matsuoka Y suke and others in their Geneva roles
