Luke Howie

Manhattan Terror:

Jihadist Psychopath Jamie Glazov, 2018-12-18 Every element of the formula by which the psychopath subjugates his victim the Islamic Supremacist likewise uses to ensnare and subjugate non Muslims And in the same way that the victim of the psychopath is complicit in his own destruction Western civilization is now embracing and enabling its own conquest and consumption

Cinematic Terror Tony Shaw, 2014-11-20 The first history of cinema s treatment of terrorism from the birth of film to today

Cities in a Time of Terror: Space, Territory, and Local Resilience H.V. Savitch, 2014-12-18 This book is about urban terror its meaning its ramifications and its impact on city life Written by a well known expert in the field Cities in a Time of Terror draws on data from more than a thousand cities across the globe and traces the evolution of urban terrorism between 1968 and 2006 It explains what kinds of cities have become prime targets why terrorism has become increasingly lethal and how its inspiration has changed from secular to religious The author describes urban terrorism as an attempt to use the city s own strength against itself forcing it to implode and delineates three basic logics of terrorist choices for targeting cities The book also includes a discussion of local resilience the city s capacity to bounce back from attack and suggests how that can be sustained Examples from New York London Jerusalem Istanbul Moscow Paris and Madrid illustrate the book s central themes

Witnesses to Terror L. Howie, 2012-08-29 This book argues that it is witnesses who are the targets of terrorism and that the question of whose witnessing counts and which stories are the most legitimate is of vital importance for understanding the meanings and consequences of contemporary terrorism

Homegrown Alexander Meleagrou-Hitchens, Seamus Hughes, Bennett Clifford, 2020-11-12 How big is the threat posed by American ISIS supporters How many Americans have joined ISIS and how many want to return to the United States Compared to participation by Americans in other jihadist groups the scale of American involvement in jihadist activity today is unprecedented This book from one of the leading counter terror centres draws on first hand interviews with former American Islamic State members and law enforcement officials who tracked them and includes detailed analysis of the court cases against them and their social media presence Homegrown reveals how and why ISIS was able to radicalize and recruit a new generation of jihadist sympathizers in America

Terrorism, Risk and the Global City Jon Coaffee, 2016-03-16 First published in 2003 this account of the anti terrorist measures of London s financial district and the changes in urban security after 9 11 has been revised to take into account developments in counter terrorist security and management particularly after the terrorist attack in London on July 7th 2005 It makes a valuable addition to the current debate on terrorism and the new security challenges facing Western nations Drawing on the post 9 11 academic and policy literature on how terrorism is reshaping the contemporary city this book explores the changing nature of the terrorist threat against global cities in terms of tactics and targeting and the challenge of developing city wide managerial measures and strategies Also addressed is the way in which London is leading the way in developing best practice in counter terrorist design and

management and how such practice is being internationalized

Terror on the Screen Luke Howie, 2011 Through dazzling close readings of a wide variety of cultural texts from the Battlestar Galactica reboot to post 9 11 pornography Howie is able to demonstrate how the politics and poetics of witnessing have come to structure the experience of American popular culture in the past decade Jeff Melnick University of Massachusetts Boston

The War on Terror and the Normalisation of Urban Security Jon Coaffee, 2021-11-07 This book explores the processes by which in the 20 years after 9 11 the practices of urban security and counter terrorism have impacted the everyday experiences of the Western city Highlighting the localised urban responses to new security challenges it reflects critically upon the historical trajectory of techniques of territorialisation and physical protection urban surveillance and the increasing need for cities to enhance resilience and prepare for anticipated future attacks and unpacks the practices and impacts of the intensification of recent urban security practices in the name of countering terrorism Drawing on over 25 years of research and practical experience the author utilises a range of international case studies framed by conceptual ideas drawn from critical security political and geographical theory The book will be of interest to students and scholars of politics war studies urban studies geography sociology criminology and the growing market of security and resilience professionals as well as non academic audiences seeking to understand responses to terrorist risk

The Signal and the Noise Nate Silver, 2015-02-03 One of the more momentous books of the decade The New York Times Book Review Nate Silver built an innovative system for predicting baseball performance predicted the 2008 election within a hair's breadth and became a national sensation as a blogger all by the time he was thirty He solidified his standing as the nation's foremost political forecaster with his near perfect prediction of the 2012 election Silver is the founder and editor in chief of the website FiveThirtyEight Drawing on his own groundbreaking work Silver examines the world of prediction investigating how we can distinguish a true signal from a universe of noisy data Most predictions fail often at great cost to society because most of us have a poor understanding of probability and uncertainty Both experts and laypeople mistake more confident predictions for more accurate ones But overconfidence is often the reason for failure If our appreciation of uncertainty improves our predictions can get better too This is the prediction paradox The more humility we have about our ability to make predictions the more successful we can be in planning for the future In keeping with his own aim to seek truth from data Silver visits the most successful forecasters in a range of areas from hurricanes to baseball to global pandemics from the poker table to the stock market from Capitol Hill to the NBA He explains and evaluates how these forecasters think and what bonds they share What lies behind their success Are they good or just lucky What patterns have they unraveled And are their forecasts really right He explores unanticipated commonalities and exposes unexpected juxtapositions And sometimes it is not so much how good a prediction is in an absolute sense that matters but how good it is relative to the competition In other cases prediction is still a very rudimentary and dangerous science Silver observes that the most accurate forecasters tend to have a superior command of probability and they tend to be both humble and

hardworking They distinguish the predictable from the unpredictable and they notice a thousand little details that lead them closer to the truth Because of their appreciation of probability they can distinguish the signal from the noise With everything from the health of the global economy to our ability to fight terrorism dependent on the quality of our predictions Nate Silver's insights are an essential read

The Psychology of Terrorism Fears Samuel Justin Sinclair, Daniel Antonius, 2012-06-13 The psychology of terrorism in its most basic form is about fear Although academics continue to debate the meaning of terrorism the end result for victims of terrorism is very often fear and terror Many studying the effects of terrorism have focused more exclusively on discrete psychopathological constructs most of which are clinically based Ironically these paradigms fail to acknowledge the primacy of basic fear in the context of terrorism as well as how fear affects people in both positive and negative ways above and beyond whether one meets criteria for a clinical disorder The purposes of this book are to unpack the complexity of terrorism fears and to present a new paradigm for understanding the psychology of terrorism As such this book presents empirical and theoretical frameworks for understanding fear as a dynamic process that motivates and affects people on a myriad of levels from the individual to society at large The book also highlights the paradox of how fear can negatively impact people and societies but also be a central force underlying resilience and post traumatic growth Finally The Psychology of Terrorism Fears discusses how society has changed as a result of terrorism and specifically how our own systems for managing terrorism may in fact contribute to fear

Montana Murders Brian D'Ambrosio, 2023-08-03 Award winning Montana author Brian D Ambrosio examines the most notorious murders in the state's history Some are historical accounts from Montana's early Wild West history but most are contemporary cases that shocked communities investigators and families Many remain bafflingly unsolved Some cases have been featured in national media such as the famous and inexplicable murders of the parents of television's Patrick Duffy Dallas and the serial murders by the hermitic Unabomber But D Ambrosio also unearths gruesome little known cold cases that haunt surviving families and friends to this day Drawing on official investigative reports and numerous personal interviews with law enforcement officials witnesses and survivors D Ambrosio describes each murder like a good detective story Readers will find riveting details about the murderers their motives and methods and their unfortunate victims Includes 20 black and white photos

The Longest War Peter L. Bergen, 2011-06-28 New York Times bestselling author Peter Bergen's definitive account of al Qaeda's evolution since 9/11 and the U.S. government's responses

Creating the Hudson River Park Tom Fox, 2024-04-12 The 4 mile long 550 acre Hudson River Park is nearing completion and is the largest park built in Manhattan since Central Park opened more than 150 years ago It has transformed a derelict waterfront protected the Hudson River estuary preserved commercial maritime activities created new recreational opportunities for millions of New Yorkers enhanced tourism stimulated redevelopment in adjacent neighborhoods and set a precedent for waterfront redevelopment The Park attracts seventeen million visitors annually Creating the Hudson River Park is a first person story of how this park came to be Working together

over three decades community groups civic and environmental organizations labor the real estate and business community government agencies and elected officials won a historic victory for environmental preservation the use and enjoyment of the Hudson River and urban redevelopment However the park is also the embodiment of a troubling trend toward the commercialization of America s public parks After the defeat of the 2.4 billion Westway plan to fill 234 acres of the Hudson in 1985 the stage was set for the revitalization of Manhattan s West Side waterfront Between 1986 and 1998 the process focused on the basics like designing an appropriate roadway removing noncompliant municipal and commercial activities from the waterfront implementing temporary improvements developing the Park s first revenue producing commercial area at Chelsea Piers completing the public planning and environmental review processes and negotiating the 1998 Hudson River Park Act that officially created the Park From 1999 to 2009 planning and construction were funded with public money and focused on creating active and passive recreation opportunities on the Tribeca Greenwich Village Chelsea and Hell s Kitchen waterfronts However initial recommendations to secure long term financial support for the Park from the increase in adjacent real estate values that resulted from the Park s creation were ignored City and state politicians had other priorities and public funding for the Park dwindled The recent phase of the project from 2010 to 2021 focused on development both in and adjacent to the Park Changes in leadership and new challenges provide an opportunity to return to a transparent public planning process and complete the redevelopment of the waterfront for the remainder of the 21st century Fox s first person perspective helps to document the history of the Hudson River Park recognizes those who made it happen and those who made it difficult and provides lessons that may help private citizens and public servants expand and protect the public parks and natural systems that are so critical to urban well being

September 11 Alan Wachtel, 2009 Examines the terrorist attacks on the United States on September 11 2001 by providing firsthand accounts from witnesses first responders and victims

Law's Trials Richard L. Abel, 2018-08-09 Law s Trials analyzes the performance of US courts in upholding the rule of law during the war on terror

Manhunt Peter L. Bergen, 2012-05-01 The gripping account of the decade long hunt for the world s most wanted man It was only a week before 9 11 that Peter Bergen turned in the manuscript of *Holy War* Inc the story of Osama bin Laden whom Bergen had once interviewed in a mud hut in Afghanistan and his declaration of war on America The book became a New York Times bestseller and the essential portrait of the most formidable terrorist enterprise of our time Now in *Manhunt* Bergen picks up the thread with this taut yet panoramic account of the pursuit and killing of bin Laden Here are riveting new details of bin Laden s flight after the crushing defeat of the Taliban to Tora Bora where American forces came startlingly close to capturing him and of the fugitive leader s attempts to find a secure hiding place As the only journalist to gain access to bin Laden s Abbottabad compound before the Pakistani government demolished it Bergen paints a vivid picture of bin Laden s grim Spartan life in hiding and his struggle to maintain control of al Qaeda even as American drones systematically picked off his key lieutenants Half a world away CIA analysts haunted by the intelligence

failures that led to 9 11 and the WMD fiasco pored over the tiniest of clues before homing in on the man they called the Kuwaiti who led them to a peculiar building with twelve foot high walls and security cameras less than a mile from a Pakistani military academy This was the courier who would unwittingly steer them to bin Laden now a prisoner of his own making but still plotting to devastate the United States Bergen takes us inside the Situation Room where President Obama considers the COAs courses of action presented by his war council and receives conflicting advice from his top advisors before deciding to risk the raid that would change history and then inside the Joint Special Operations Command whose secret warriors the SEALs would execute Operation Neptune Spear From the moment two Black Hawks take off from Afghanistan until bin Laden utters his last words Manhunt reads like a thriller Based on exhaustive research and unprecedented access to White House officials CIA analysts Pakistani intelligence and the military this is the definitive account of ten years in pursuit of bin Laden and of the twilight of al Qaeda

Technologies, Artificial Intelligence and the Future of Learning Post-COVID-19 Allam Hamdan, Aboul Ella Hassanien, Timothy Mescon, Bahaaeddin Alareeni, 2022-02-17 This book aims to assess the experience of education during COVID 19 pandemic and explore the future of application of technologies and artificial intelligence in education Education delivery requires the support of new technologies such as artificial intelligence AI the Internet of Things IoT big data and machine learning to fight and aspire to new diseases The academic community and those interested in education agree that education after the corona pandemic will not be the same as before The book also questions the role of accreditation bodies e g AACSB etc to ensure the effectiveness and efficiency of technology tools in achieving distinguished education in times of crisis

No Justice in the Shadows Alina Das, 2020-04-14 This provocative account of our immigration system s long racist history reveals how it has become the brutal machine that upends the lives of millions of immigrants today Each year in the United States hundreds of thousands of people are arrested imprisoned and deported trapped in what leading immigrant rights activist and lawyer Alina Das calls the deportation machine The bulk of the arrests target people who have a criminal record so called criminal aliens the majority of whose offenses are immigration drug or traffic related These individuals are uprooted and banished from their homes their families and their communities Through the stories of those caught in the system Das traces the ugly history of immigration policy to explain how the U S constructed the idea of the criminal alien effectively dividing immigrants into the categories good and bad deserving and undeserving As Das argues we need to confront the cruelty of the machine so that we can build an inclusive immigration policy premised on human dignity and break the cycle once and for all

There Are No Accidents Jessie Singer, 2023-02-28 A journalist recounts the surprising history of accidents and reveals how they ve come to define all that s wrong with America We hear it all the time Sorry it was just an accident And we ve been deeply conditioned to just accept that explanation and move on But as Jessie Singer argues convincingly There are no such things as accidents The vast

majority of mishaps are not random but predictable and preventable Singer uncovers just how the term accident itself protects those in power and leaves the most vulnerable in harm's way preventing investigations pushing off debts blaming the victims diluting anger and even sparking empathy for the perpetrators As the rate of accidental death skyrockets in America the poor and people of color end up bearing the brunt of the violence and blame while the powerful use the excuse of the accident to avoid consequences for their actions Born of the death of her best friend and the killer who insisted it was an accident this book is a moving investigation of the sort of tragedies that are all too common and all too commonly ignored In this revelatory book Singer tracks accidental death in America from turn of the century factories and coal mines to today's urban highways rural hospitals and Superfund sites The automobile industry popularized the idea of jaywalking to redirect blame away from cars and their drivers Racist planning policies built hazardous highway conditions straight through Black neighborhoods and then blamed Black and Latino victims Drawing connections between traffic accidents accidental opioid overdoses and accidental oil spills Singer proves that what we call accidents are hardly random Rather who lives and dies by an accident in America is defined by money and power She also presents a variety of actions we can take as individuals and as a society to stem the tide of accidents saving lives and holding the guilty to account
