The Art of the Haunted W.F. James, 2014-10-30 A Thriller with a Heart A group of inner city delinquent boys is engaging in a horrible crime of violence when suddenly a strange man appears He is immediately attacked but he defeats their aggression He subdues them and makes them listen to scary ghost stories throughout the night until help arrives The unwilling audience becomes enthralled by the excitement and thrills and the

mystery as slowly the stranger captures their hearts and minds Finally a tale of Islamic Jihad in 12th Century Spain directly relates back to their own conflicts in the modern urban so called ghetto The tales all touch on art and the stranger is an artist a tortured soul whose gifts and skills transform their lives but at a terrible cost The characters are very real and believable as is the harshness of their reality that is motivating their behavior As the plot builds from crisis to crisis the changes that occur become clear and understandable as logical results of the driving action The ghost stories embedded in the plot can stand on their own and are exciting and entertaining in their own right but their significance is slowly revealed as the book nears its conclusion when the meaning of all the action begins to dawn on the boys and the reader Readers say my book makes them cry a lot quite unusual for a violent thriller which this book certainly is It does show some insight into the mentoring process taking boys from violent macho 15 year olds to civilized adult men Author The author had formal training in the Fine Arts had been a painter and had mentored inner city delinquent boys The author also amassed a vast collection of antiquities from the world s ancient cultures each piece having its own story These factors in the author s life were the direct inspiration for this fearful tale of mystery and harsh reality yet touches the heart with love *Religious Education in the Secondary School*

Barnes,Inés M.

Talamantez,2006-10-19 The study of medicine and healing traditions is well developed in the discipline of anthropology Most religious studies scholars however continue to assume that medicine and biomedicine are one and the same and that when religion and medicine are mentioned together the reference is necessarily either to faith healing or bioethics Scholars of religion also have tended to assume that religious healing refers to the practices of only a few groups such as Christian

Scientists and pentecostals Most are now aware of the work of physicians who attempt to demonstrate positive health outcomes in relation to religious practice but few seem to realize the myriad ways in which healing pervades virtually all religious systems This volume is designed to help instructors incorporate discussion of healing into their courses and to encourage the development of courses focused on religion and healing It brings together essays by leading experts in a range of disciplines and addresses the role of healing in many different religious traditions and cultural communities An invaluable resource for faculty in anthropology religious studies American studies sociology and ethnic studies it also addresses the needs of educators training physicians health care professionals and chaplains particularly in relation to what is referred to as cultural competence the ability to work with multicultural and religiously diverse patient populations
