Manipulating Soviet Population Resources:

Manipulating Soviet Population Resources Jeff Chinn, 1977 **Manipulating Soviet Population Resources** Jeff Chinn, 1977 *Soviet Population Policy* Helen Desfosses, 2013-10-22 Soviet Population Policy Conflicts and Constraints focuses on the study of population policy in the USSR The text looks at the problems identified with population including migration depopulation of rural areas and rapid urbanization The book starts by outlining the development of Soviet census considering its purposes and methods involved The text then proceeds by giving information on population dynamics in which the issue of population is seen as inseparable from political economic and social concerns One of the issues discussed is how military manpower can be affected by the problem on population Another feature of the book is the sector of aging citizens in which it is identified that the country has experienced an increase in the number of pensioners In this context a comparison of the retirement systems of the United States and Russia is presented The book also looks at the relationship of fertility and female work status in the country The text goes further by discussing the pro natalist policies of the country in which the reduction in the psychological and material costs of having children is noted A discussion on the four models used by demographers to emphasize the issues affecting the population is also presented The book notes that the country's position on population is rooted in Marxism Readers who are interested in establishing the relationship of population with other social concerns of a country can find this book worth considering The Contemporary Soviet City Henry W. Morton, Robert C. Stuart, 2017-07-05 This anthology of short stories reflects the writers shared core experience of Korea's trajectory from an inward looking feudal state through Japanese colony and battle ground for the Korean War to a modernizing society Three stories have been added to the original edition Socialism, Social Welfare and the Soviet Union Vic George, Nicholas Manning, 2021-12-24 First published in 1980 Socialism Social Welfare and the Soviet Union examines the views of Marx Engels and Lenin on what constitutes a socialist form of provision of social security income education health and housing The authors discuss the implementation of these ideas in the Soviet Union since the 1917 Revolution in the context of economic and political development and describe the social services in the Soviet Union assessing the extent to which the original ideas have been matched by reality They also briefly survey the views of several East European academic writers on social policy outlining some distinctive features of social policy in the Eastern bloc The authors general conclusion is that the Soviet Union has made great progress in social policy provision from their research and from their visits in the course of writing this book they show that the social services of the Soviet Union are as good as and in some ways more comprehensive than those of Western Europe Equally important is their conclusion that a society in which the means of production and distribution are nationalised and which makes a full provision of social services is not necessarily a socialist society This book will appeal to students of sociology political science and area studies **Marxist Governments** Bogdan Szajkowski, 1981-06-18 *Russia and Eastern Europe, 1789-1985* Raymond Pearson, 1989 **The Soviet Union** United States. Air Force, 1985 **Studies in**

Development in the USSR Gregory D. Andrusz,1985-06-30 This study of housing and the urban environment in a socialist society sheds light on the discrepancy between plan and reality It investigates the sources and consequences of the problem and shows how the U S S R has attempted to find solutions Following a general background and overview section the book deals with the construction control and use of buildings in Soviet cities It then investigates the types of housing considered to be most appropriate for today s Russian urbanite Focusing on housing sites it shows the reality of the housing situation in the U S S R and uncovers spatial patterns of social segregation in Soviet urban development The question of high and low rise housing for workers is also discussed Andrusz shows how today s Soviet society has evolved away from certain patterns created by the architects of the Revolution New norms values and demands particularly in the visible form of a more privatized lifestyle the consumer oriented car ownership seeking nuclear family with segregated role playing have resulted in new dwelling needs The book is enriched with tables notes and references and a useful bibliography **USSR, Trends and Prospects in Educational Attainment, 1959-85** ,1979 *Planning in the Soviet Union* Judith Pallot,Denis J. Shaw,2021-12-24 Originally published in 1981 and based on the authors own research this book provides a comprehensive review of planning in the Soviet Union up until the early 1980s for both geographers and Soviet specialists Planning was particularly important in the Soviet Union since not only most spatial change but all economic planning was the product of a systematic socio political ideology Planning was therefore the key to understanding the Soviet economy society and spatial change When it was first published this was the first study in which the focus had been directed specifically at spatial planning in the Soviet Union in any systematic way **USSR, Trends and Prospects in Educational Attainment, 1959-85**

National Foreign Assessment Center (U.S.),1979 **The Mating Trade** Robert Mullan,2022-02-23 Are marriages made in heaven In reality many people need a little help in the arrangement of such matters whether from Jewish shadkhans matchmakers go between computer or video dating agencies marriage bureaux Asian arranged marriages gay dating agencies or personal ads Originally published in 1984 the author s clear sighted look at the mating trade takes some of the

mystique away from the subject and is the first serious and detailed account of the third party in marriage Dr Mullan looks at the singles scene and the arranged marriage historically and cross culturally and makes it clear that there is nothing necessarily odd or deviant about the mating trade It is a business like any other and as long as people continue to want perfect partners marriage permanent relationships dates and sex and while evolving social structures make such demands ever more difficult to meet the business will thrive It could even expand and grow but the author believes that first it will have to clean up its act
