Walpole, 1885 **A History of Human Rights in Canada** Janet Miron, 2009 Human rights equality and social justice are at the forefront of public concern and political debate in Canada. Global events especially the war on terrorism have fostered further interest in the abuse of human rights especially when sanctioned or perpetuated by democratic governments. This groundbreaking contributed volume seeks to shed light on this topic by uniting original essays that examine the history of human rights in Canada. Contributors explore a variety of themes integral to the post confederation period including immigration and ethnicity, gender, sexuality, class, disability, state formation and provincial/federal relations. Three key issues emerge throughout: incidents of discrimination in both government and society; the efforts of human rights and civil liberties activists to create a more open and tolerant society; and the implementation of state legislation designed to protect or enhance civil rights.

First Nations? Second Thoughts, Second Edition Thomas Flanagan, 2008 Over the last thirty years Canadian policy on aboriginal issues has come to be dominated by an ideology that sees aboriginal peoples as nations entitled to specific rights. Indians and Inuit now enjoy legal privileges that include the inherent right to self government, collective property rights, immunity from taxation, hunting and fishing rights without legal limits, and free housing, education and medical care. Underpinning these privileges is what Tom Flanagan describes as aboriginal orthodoxy: the belief that prior residence in North America is an entitlement to special treatment. Flanagan shows that this orthodoxy enriches a small elite of activists, politicians, administrators and well connected entrepreneurs while bringing further misery to the very people it is supposed to help. Controversial and thought provoking, *First Nations Second Thoughts* dissects the prevailing ideology that determines public policy towards Canada's aboriginal peoples. In this updated edition Flanagan analyzes the developments of the last ten years, showing how a conflict of visions has led to a stalemate in aboriginal policy making. He concludes that aboriginal success will be achieved not as the result of public policy changes in government but through the actions of the people themselves.
