Manpower Development Planning Theory And An African Case Study The Making Of Modern Africa:

Manpower Development Planning Berhanu Abegaz,1994 A study of the usefulness of cross country regressions for estimating the need for qualified manpower in development planning A Handbook in Business Management Jacob W. Chikuhwa,2013-05-01 Present day enterprises need insights into markets customers and their own internal processes faster than their competitors to capitalise on opportunities and to deliver sustainable business performance To do this businesses must learn to cope with the high volume and velocity of real time structured and unstructured data in different formats In covering the fields of manpower development accounting procedures and data processing a middle of the road analysis has been made to include those overlapping developments in business studies Disciplines like accountancy and electronic data processing frequently have unavoidable use in commerce and industry A Handbook in Business Management examines organisation and manpower management and reflects on their significant role in the arena of business management The objective with manpower management is to distribute personnel to activities where their talents are required and are best utilised In financial control the book examines both the technical and managerial approaches The technical approach is concerned with measurement where an analysis is made as to whether resources are being assigned to the right categories and whether generally accepted accounting principles are being followed And the managerial approach is to understand and interpret what the financial figures mean Critically all managers should take responsibility for financial management and should not assume that this falls within the remit of the accounts team alone Under data processing concepts the book takes an overview of the availability continuity and security of data in public and private concerns An efficient data processing system makes it possible to adjust the financial situation of a business before it gets out of hand by adjusting income distribution and combating organisation and manpower inefficiency This book offers to the professional student and corporate executive a preliminary survey of the fields of manpower development accountancy and electronic data processing while the start up entrepreneur may find in its pages something to stimulate reflection upon those larger issues in business management *Whitaker's Books in Print* ,1998 □□□□□□□□ ,1994 *The Golden Contradiction* Farouk Stemmet,1996 This is a work of political economy which explains how the traditional constancy of gold came to give way to a daily fluctuating gold price The fixed gold price is radically re examined while the reverence of the gold standard system is challenged The book looks at the gold producing labour including the Wild West gold digger and the origins of apartheid in South Africa **Beyond the New Orthodoxy** Nikoi Kote-Nikoi,1996 Focuses on economic conditions in Africa from the mid 1960s to 1990 **Religious Militancy and Self-assertion** Matthew Hassan Kukah,Toyin Falola,1996 This major work is about the political impact of Islam in modern Nigeria It argues that Islam is both a religious and political force in modern Nigeria and that there is a tiny Islamic elite who aims to impose a theocracy on the country The book traces the origin of the creation of an Islamic identity and how since the 1950s this identity has been further strengthened and manipulated to

control federal power So successful is the use of Islam for power that the Christians have been instigated to fight back thus unleashing a never ending religious rivalry For its insights on the emergence of identity the relationship between Islam and political power and the relevance of Islam in Nigeria there is no other book that can compare with this one The authors are famous and are widely regarded as among the best analysts on religion in Africa An Aristocracy in Political Crisis Alhaji Mahmood Yakubu, Mahmood Yakubu, 1996 An analysis of the impact of party politics and administrative changes both under colonial rule and early independence on the emirs of Northern Nigeria approached from the perspective of the emirs perception of these changes their consequences on their authority and their survival strategies **Forthcoming Books**
