May, 2009-02-18 Analyzes life as we are living it and the analysis is truthful and profound New York Times Loneliness boredom emptiness These are the complaints that Rollo May encountered over and over from his patients In response he probes the hidden layers of personality to reveal the core of man s integration a basic and inborn sense of value Man s Search for Himself is an illuminating view of our predicament in an age of overwhelming anxieties and gives guidance on how to choose judge and act during such times *Dilemmas of the New World : Man's Search For Himself In The New World* Serol Aksel, 2024-09-15 The term New world carries multiple connotations While it traditionally denotes newly discovered territories such as the American continent in this context it signifies the profound and transformative shift that the world has undergone over the past three centuries This shift which finds its roots in the Enlightenment and modernity began to manifest itself more prominently after the First World War While this transformation is often equated with globalization its origins can be traced back to the era of industrialization and the rise of nation states which set the stage for subsequent global shifts Dilemma is a subject of logic but it is also used in daily life In daily use it often evokes contradictory situations It is expected to correspond to inextricable knotted cyclical situations What I mean by the dilemmas of the new world is the social order and view of the universe that humanity has lived in since the age of curiosity that is from the middle of the 18th century to the present day at least ten thousand years since the world transitioned to agricultural society the fact that the understanding of morality and most importantly the meaning it attributes to its existence have brought with them insurmountable problems despite the changes in direction While this new era was a game changer on the one hand on the other hand the meaning that man attributed to himself in every new thing he discovered with the development of science and technology was shaken Existentialism emerged as a result of this new state of thinking While the new attribution of meaning isolated man on the one hand on the other hand nation states consisting of human communities gathered around a common ideal were established Individual freedoms and gathering around a common goal became in conflict at some points While humanism the most crucial emphasis of the Enlightenment glorified human beings on the one hand on the other hand there were significant obstacles to free thought On the other hand while the religious sentiments to which human beings were attached to give meaning to their existence were shaken new meanings could not be found to replace them While observations and findings show that the earth is far beyond the centre of the universe the discovery that man is descended

from animals has deeply affected religious beliefs at least by the world of science and people who believe in the guidance of science For man who had to somehow hold on to life these new teachings could not offer him any In this state the world needed new motives and new beliefs At this very stage capitalism came to the rescue of humanity The new system which pushed man to become a commodity owner did not give him time to question himself [Summary of Rollo May's Man's Search for Himself](#) Everest Media,2022-05-13T22:59:00Z Please note This is a companion version not the original book

Sample Book Insights 1 The major inner problems of people in our day are unhappiness inability to decide about marriage or vocations general despair and meaninglessness in their lives and so on But what underlies these symptoms 2 The chief problem of people in the middle decade of the twentieth century is emptiness They do not know what they want and they do not have any clear idea of what they feel They feel empty because they do not have any definite experience of their own desires or wants 3 The problem with not knowing what you want is that it is often due to the fact that we live in a time of uncertainty with a future of insecurity facing us no matter how we look at it 4 The modern man is also hollow and this can be seen in the patients that come to psychologists and psychoanalysts for help The typical American character was previously inner directed but is now outer directed He seeks to fit in rather than stand out [Journeys of Faith](#) Mike Brock,2023-06-20

[Journeys of Faith](#) examines the contributions of the leading figures of the humanistic psychology movement with particular attention to their spiritual journeys Rising to prominence in America during the post World War II years humanistic psychology is experiencing a resurgence in the present day in response to the need for a psychological approach that addresses meaning and purpose in life The key players Abraham Maslow Carl Rogers Erich Fromm and Rollo May all rejected the orthodoxy of their religious inheritance in favor of a more humanistic approach and in the process discovered a renewed spirituality that they hoped would address the concerns of a world yearning for something to believe in While the humanistic psychologists confronted the world's problems through the lens of psychology other thinkers such as the evolutionary biologist Julian Huxley approached them through different though equally humanistic perspectives Others still such as Paul Tillich Martin Buber and Pierre Teilhard de Chardin confronted the times through a religious lens The influence of the centuries long Jewish tradition of scholarship and social justice and the frequent examples of friendship and professional cooperation between the secular and the religious worlds provide critical subthemes for the lasting appeal of humanistic psychology [The Faith](#) Louis A. Marini,2022-04-25 Faith is a word frequently used these days as we continue to struggle through a pandemic that took the lives of over eight hundred thousand Americans and rising Amid unsolved questions posed to the world of medicine in the throes of political and social unrest the darkness of this nightmare has left many with a growing skepticism in the leadership of many traditional institutions of Church and State Why are people so concerned over the existential issues of life and faith during these unprecedented times where the world seems to have gone topsy turvy Louis Marini suggests that faith has always been a multidimensional reality inherent in people's lives People have always

aspired to faith to unite a nation in times of distress and social unrest The human act of believing is the first step to walking in faith Believing is always believing in another human being Faith always necessitates and is sustained only in relationships whether faith is solely based upon human interaction or seeking communion with the Divine These reflections open the possibility for discussions that faith is not just a human phenomenon but a natural gift that may transition into a relationship with the Divine Faith which is fundamentally a human reality can become a divine mystery This realization hopefully can console and heal us from the scars left from the angst of these uncertain times

**A Young Man's Search of the Reality of a God** Kingsley B. Garrison Ph.D.,2023-03-15 So God showed up in my life in a mighty way just when I needed Him most I had no money but I had a need He met my need and provided more The Lord had already put in place a plan to deliver me to bless me before I even felt the first clue of a problem Occasionally when I forget the Spirit reminds me what He said I will never leave you or forsake you That s what this book is about my search for God and the truth not my parents truth not my church s truth but the truth according to the Bible

*Uprooting the Root of all Evil* John W. Casperson,2015-12-08 One of the greatest individuals of the twentieth century was the founding father of India Mohandas K Gandhi His vision determination and courage of heart mind and soul were the rocks on which the modern country of India was founded Though he never held political office his moral authority formed the vanguard that would lead the populace of the Indian sub continent to pursue and obtain home rule from the British Crown Mr Gandhi had this to say while still under the yoke of British rule An armed conflict between nations horrifies us But the economic war is no better than an armed conflict This is like a surgical operation An economic war is prolonged torture And its ravages are no less terrible than those depicted in the literature on

war properly so called We think nothing of the other because we are used to its deadly effects The movement against war is sound I pray for its success But I cannot help the gnawing fear that the movement will fail if it does not touch the root of all evil greed M K Gandhi Non Violence The Greatest Force I Timothy 9 10 But those who desire to be rich fall into temptation into a snare into many senseless and harmful desires that plunge people into ruin and destruction For the love of money is a root of all kinds of evils Greed comes in two forms greed of power and greed of money Greed for power comes in two forms power over body and power over soul This work will confront the powerbrokers of religion and finance and lay bare their lies and deceit in the realm of both body and soul Each person is a sovereign being After uprooting the root of all evil may each person be able more fully to reclaim their sovereignty over their bodies and souls
