doing on issues surrounding the Women's Movement as it relates to patients and the changing roles of the early 1970s. She was struck by the fact that although some women had been very active in this endeavor, nobody in American psychiatry was addressing issues which are arising in men as a result of the changing roles of women in society. Dick and Norm were moved by what she said and decided that they would make an effort to gather together people interested in the issue of the changing roles of males in society at the oncoming meeting of the American Psychiatric Association. *Personality Variables in Social Behavior* Thomas Blass, 2015-06-19. Eminent researchers at the time contributed original chapters that provided an up-to-date perspective on theory and research on important and widely used personality constructs.
