Mans Subtle Bodies And Centres:

Man's Subtle Bodies and Centres Omraam Mikhaël Aïvanhov, 2013-09-16 Presentation A concise and practical topography Beyond the five senses adapted to the physical plane there are other components that constitute us and which allow us to come into contact with the subtle invisible planes thus participating in the expansion of our consciousness For thousands of years men have worked to multiply and amplify the sensations and perceptions entering their consciousness through their five senses and it is this play on the keyboard of the senses that they call civilization and culture Well is this not rather meagre However much we cultivate and refine our five senses they will always be severely limited in scope for they belong to the physical plane they will never be capable of exploring any reality above or beyond the physical Until human beings recognize that there are other areas that invite exploration other dimensions to see touch and breathe they will never experience new richer more far reaching or subtler sensations Each of our organs is specialized it has its own particular function to perform and it can convey only its own particular type of sensation In order to experience other new sensations we must call into play those other subtler organs and centres which we all possess Omraam Mikhaël Aïvanhov Table of contents 1 Human Evolution and the Development of the Spiritual Organs 2 The Aura 3 The Solar Plexus 4 The Hara Centre 5 Kundalini Force 6 The Chakras I The Chakra System 1 The Chakra System 2 II Ajna and Sahasrara Man's Subtle Bodies and Centres Omraam Mikhaël Aïvanhov, 1988

Radionics & The Subtle Anatomy Of Man David V Tansley, 2011-05-31 Radionics is defined as a method of diagnosis and therapy which is primarily concerned with the utilization of subtle force fields and energies for the purpose of investigating and combating the causes of disease which ravage humanity and the other kingdoms of nature But in examining the history and development of radionics from the pioneering work of Dr Albert Abrams and Ruth Drown to the latest experimental work at the de la Warr Laboratories David Tansley discovered a curious paradox In literature on the subject and in the rare books which provide the very core of radionic therapeutic measures there are plenty of references to man's physical organic systems but little regarding the probability of underlying force fields which might govern and determine the health of the physical form This book represents an informed endeavour to redress the balance by providing a simple yet practical outline of the subtle anatomy of man The theory is not new Abrams diagnosed at a distance and Drown treated absent patients David Tansley believes that the time is ripe for radionics to bear witness to an energy field of a more subtle nature that is in fact its innate purpose *Unfolding Consciousness* Edi Bilimoria, 2024-03-11 Exploring the Living Universe and Intelligent Powers in Nature and Humans author Edi Bilimoria heralds the new science of consciousness and offers the readers a roadmap and necessary tools to achieve future growth Presented in three volumes plus volume IV contains references resources further reading they reveal the unity of the Eastern and Western branches of our perineal wisdom Bilimoria shows how science seeks truth using a synthesis of both traditions Evidence from a wide range of sources scientific medical philosophical religious and cultural is put forward to argue the case that humans are spiritual
