## **Mansfield And Vietnam A Study In Rhetorical Adaptation:**

**Mansfield and Vietnam** Gregory A. Olson, 2012-01-01 *Mansfield and Vietnam A Study in Rhetorical Adaptation* is the first major work to examine the role played by Senate Majority Leader Mike Mansfield Democrat from Montana in the formulation and execution of U S Vietnam policy Drawing upon material from the Mansfield Papers personal interviews public speeches and recently declassified documents Olson traces Mansfield s journey from ardent supporter of Diem in the late 1950s to quiet critic of LBJ in the mid 1960s and finally to outspoken opponent of the Vietnam War in the late 1960s and early 1970s Olson focuses his attention on Mansfield s speaking ability and his use of the written word analyzing the ways in which they proved crucial in shaping the policies of the Eisenhower Kennedy Johnson Nixon and Ford presidential administrations He also examines the way personal and political situations converged to force Mansfield into the center of the stormy Vietnam controversy and eventually into a position of leadership in the campaign to end America s military presence in Southeast Asia To date little has been done to evaluate the roles played by key congressional figures in the Vietnam War debate thus *Mansfield and Vietnam* is bound to become a significant contribution not only to rhetorical studies but also to twentieth century diplomatic history and to the study of congressional presidential relations

*Mansfield and Vietnam* Gregory Allen Olson, 1995 *Cauldron of Resistance* Jessica M. Chapman, 2013-02-19 In 1955 Ngo Dinh Diem organized an election to depose chief of state Bao Dai after which he proclaimed himself the first president of the newly created Republic of Vietnam The United States sanctioned the results of this election which was widely condemned as fraudulent and provided substantial economic aid and advice to the RVN Because of this Diem is often viewed as a mere puppet of the United States in service of its Cold War geopolitical strategy That narrative Jessica M Chapman contends in *Cauldron of Resistance* grossly oversimplifies the complexity of South Vietnam s domestic politics and indeed Diem s own political savvy Based on extensive work in Vietnamese French and American archives Chapman offers a detailed account of three crucial years 1953 1956 during which a new Vietnamese political order was established in the south It is in large part a history of Diem s political ascent as he managed to subdue the former Emperor Bao Dai the armed Hoa Hao and Cao Dai religious organizations and the Binh Xuyen crime organization It is also an unparalleled account of these same outcast political powers forces that would reemerge as destabilizing political and military actors in the late 1950s and early 1960s Chapman shows Diem to be an engaged leader whose personalist ideology influenced his vision for the new South Vietnamese state but also shaped the policies that would spell his demise Washington s support for Diem because of his staunch anticommunism encouraged him to employ oppressive measures to suppress dissent thereby contributing to the alienation of his constituency and helped inspire the organized opposition to his government that would emerge by the late 1950s and eventually lead to the Vietnam War

[Supplement to Vietnam 1964-1973](#) Elwood L. White, 2005 This bibliography is a supplement to the Special Bibliography Series Number 80 compiled in 1990 to support the 14th Military

History Symposium It is primarily intended as a listing of scholarly works completed since 1990 on the Vietnam War although some works prior to that date are included The bibliography is selected from the holdings on that war housed in the McDermott library United States Air Force Academy and includes books journal articles government publications and technical reports Newspaper articles works of fiction collections of poetry and most personal narratives are not included The Clark Special Collections Branch of the library has extensive primary source materials and artifacts focused on American POW experiences in Southeast Asia Those items are also excluded from this bibliography since they are limited to in house use only Individuals wanting information about that collection should contact the Special Collections Curator and Academy Archivist     Supplement to Vietnam 1964-1973 ,2005     The Good Neighbor Mary E. Stuckey,2013-11-01 No modern president has had as much influence on American national politics as Franklin D Roosevelt During FDR s administration power shifted from states and localities to the federal government within the federal government it shifted from Congress to the president and internationally it moved from Europe to the United States All of these changes required significant effort on the part of the president who triumphed over fierce opposition and succeeded in remaking the American political system in ways that continue to shape our politics today Using the metaphor of the good neighbor Mary E Stuckey examines the persuasive work that took place to authorize these changes Through the metaphor FDR s administration can be better understood his emphasis on communal values the importance of national mobilization in domestic as well as foreign affairs in defense of those values his use of what he considered a particularly democratic approach to public communication his treatment of friends and his delineation of enemies and finally the ways in which he used this rhetoric to broaden his neighborhood from the limits of the United States to encompass the entire world laying the groundwork for American ideological dominance in the post World War II era     **The Manufacture of Consent** Stephen M. Underhill,2020-02-01 The second Red Scare was a charade orchestrated by a tyrant with the express goal of undermining the New Deal so argues Stephen M Underhill in this hard hitting analysis of J Edgar Hoover s rhetorical agency Drawing on Classification 94 a vast trove of recently declassified records that documents the longtime FBI director s domestic propaganda campaigns in the mid twentieth century Underhill shows that Hoover used the growing power of his office to subvert the presidencies of Franklin D Roosevelt and Harry S Truman and redirect the trajectory of U S culture away from social democracy toward a toxic brand of neoliberalism He did so with help from Republicans who opposed organized labor and Southern Democrats who supported Jim Crow in what is arguably the most culturally significant documented political conspiracy in U S history a wholesale domestic propaganda program that brainwashed Americans and remade their politics Hoover also forged ties with the powerful fascist leaders of the period to promote his own political ambitions All the while as a love letter to Clyde Tolson still preserved in Hoover s papers attests he strove to pass for straight while promoting a culture that demonized same sex love The erosion of democratic traditions Hoover fostered continues to haunt Americans today     **Enemyship** Jeremy

Engels,2010-11-01 The Declaration of Independence is usually celebrated as a radical document that inspired revolution in the English colonies in France and elsewhere In *Enemyship* however Jeremy Engels views the Declaration as a rhetorical strategy that outlined wildly effective arguments justifying revolution against a colonial authority and then threatened political stability once independence was finally achieved *Enemyship* examines what happened during the latter years of the Revolutionary War and in the immediate post Revolutionary period when the rhetorics and energies of revolution began to seem problematic to many wealthy and powerful Americans To mitigate this threat says Engles the founders of the United States deployed the rhetorics of what he calls enemyship calling upon Americans to unite in opposition to their shared national enemies

**Strains of Dissent** Kelly Jakes,2019-01-01 During the German Occupation from 1940 to 1944 Resistance fighters Parisian youth and French prisoners of war mined a vast repertoire from a long national musical tradition and a burgeoning international entertainment industry embracing music as a rhetorical resource with which to destabilize Nazi ideology and contest collaborationist Vichy propaganda After the Liberation of 1944 popular music continued to mediate French political life helping citizens to challenge American hegemony and recuperate their nation s lost international standing Ultimately through song French dissidents rejected Nazi subordination the politics of collaboration and American intervention and insisted upon a return to that trinity of traditional French values *libert egalit fraternit* *Strains of Dissent* recovers the significance of music as a rhetorical means of survival subversion and national identity construction and illuminates the creative and cunning ways that individual citizens defied the Occupation outside of formal resistance networks and movements

John F. Kennedy and the Liberal Persuasion John M. Murphy,2019-01-01 The first serious study of his discourse in nearly a quarter century *John F Kennedy and the Liberal Persuasion* examines the major speeches of Kennedy s presidency from his famed but controversial inaugural address to his belated but powerful demand for civil rights It argues that his eloquence flowed from his capacity to imagine anew the American liberal tradition Kennedy insisted on the intrinsic moral worth of each person and his language sought to make that ideal real in public life This book focuses on that language and argues that presidential words matter Kennedy s legacy rests in no small part on his rhetoric and here Murphy maintains that Kennedy s words made him a most consequential president By grounding the study of these speeches both in the texts themselves and in their broader linguistic and historical contexts the book draws a new portrait of President Kennedy one that not only recognizes his rhetorical artistry but also places him in the midst of public debates with antagonists and allies including Dwight Eisenhower Barry Goldwater Richard Russell James Baldwin Martin Luther King Jr and Robert Kennedy Ultimately this book demonstrates how Kennedy s liberal persuasion defined the era in which he lived and offers a powerful model for Americans today

*Imagining China* Stephen J. Hartnett,Lisa B. Keränen,Donovan Conley,2017-10-01 Standing as the world s two largest economies marshaling the most imposing armies on earth holding enormous stockpiles of nuclear weapons consuming a majority share of the planet s natural resources and serving as the

media generators and health care providers for billions of consumers around the globe the United States and China are positioned to influence notions of democracy nationalism citizenship human rights environmental priorities and public health for the foreseeable future These broad issues are addressed as questions about communication about how our two nations envision each other and how our interlinked imaginaries create both opportunities and obstacles for greater understanding and strengthened relations Accordingly this book provides in depth communication based analyses of how U S and Chinese officials scholars and activists configure each other portray the relations between the two nations and depict their shared and competing interests As a first step toward building a new understanding between one another *Imagining China* tackles the complicated question of how Americans Chinese and their respective allies imagine themselves enmeshed in nations old rivalries and emerging partnerships while simultaneously meditating on the powers and limits of nationalism in our age of globalization

**Debating Women** Carly S. Woods, 2018-10-01 Spanning a historical period that begins with women's exclusion from university debates and continues through their participation in coeducational intercollegiate competitions *Debating Women* highlights the crucial role that debating organizations played as women sought to access the fruits of higher education in the United States and United Kingdom Despite various obstacles women transformed forests parlors dining rooms ocean liners classrooms auditoriums and prisons into vibrant spaces for ritual argument There they not only learned to speak eloquently and argue persuasively but also used debate to establish a legacy explore difference engage in intercultural encounter and articulate themselves as citizens These debaters engaged with the issues of the day often performing questioning and occasionally refining norms of gender race class and nation In tracing their involvement in an activity at the heart of civic culture Woods demonstrates that debating women have much to teach us about the ongoing potential for debate to move arguments ideas and people to new spaces

*Resowing the Seeds of War* Stephen J. Heidt, 2021-03-01 Ending a war as Fred Charles Ikl wrote poses a much greater challenge than beginning one In addition to issues related to battle tactics prisoners of war diplomatic relations and cease fire negotiations ending war involves domestic political calculations Balancing the tides of public opinion versus policy needs poses a deep and enduring problem for presidents In a first of its kind study *Resowing the Seeds of War* explains how Presidents Truman Eisenhower Nixon and Obama managed the political policy and bureaucratic challenges that arise at the end of war via a series of rhetorical choices that reframe modify or unravel depictions of national enemies the cause of the conflict and the stakes for the nation and world This end of war rhetoric justifies ending hostilities rationalizes postwar national policy argues for the construction of postwar security arrangements and often sustains public support for massive financial investment in reconstruction By tracking presidential manipulations of savage imagery from World War II to the War on Terror this book concludes that even as metaphoric reframing facilitates exit from conflict it incurs unexpected consequences that make national involvement in the next conflict more likely

**Michael Osborn on Metaphor and Style** Michael Osborn, 2018-07-01 This volume features

two dimensions of Michael Osborn's work with rhetorical metaphor. The first focuses on his early efforts to develop a conception of metaphor to advance the understanding of rhetoric while the second concerns more recent efforts to apply this enriched conception in the analysis and criticism of significant rhetorical practice. The older emphasis features four of Osborn's more prominent published essays revealing the personal context in which they were generated, their strengths and shortcomings, and how they may have inspired the work of others. His more recent unpublished work analyzes patterns of metaphor in the major speeches of Demosthenes, the evolution of metaphors of illness and cure in speeches across several millennia, the exploitation of the birth-death-rebirth metaphor in Riefenstahl's masterpiece of Nazi propaganda *Triumph of the Will*, and the contrasting forms of spatial imagery in the speeches of Edmund Burke and Barack Obama, and what these contrasts may portend.

National Rhetorics in the Syrian Immigration Crisis Clarke Rountree, Jouni Tili, 2019-10-01

The Syrian refugee crisis seriously challenged countries in the Middle East, Europe, the United States, and elsewhere in the world. It provoked reactions from humanitarian generosity to anti-immigrant warnings of the destruction of the West. It contributed to the United Kingdom's Brexit from the European Union and the election of Donald Trump as president of the United States. This book is a unique study of rhetorical responses to the crisis through a comparative approach that analyzes the discourses of leading political figures in ten countries, including gateway, destination, and tertiary countries for immigration such as Turkey, several European countries, and the United States. These national discourses constructed the crisis and its refugees so as to welcome or shun them in turn, shaping the character and identity of the receiving countries for both domestic and international audiences as more or less humanitarian, nationalist, Muslim-friendly, Christian, and so forth. This book is essential reading for scholars wishing to understand how European and other countries responded to this crisis discursively, constructing refugees themselves and an emerging world order.

Creating Conservatism Michael J. Lee, 2014-08-01

*Creating Conservatism* charts the vital role of canonical post-World War II (1945-1964) books in generating guiding and sustaining conservatism as a political force in the United States. Dedicated conservatives have argued for decades that the conservative movement was a product of print rather than a march, a protest, or a pivotal moment of persecution. *The Road to Serfdom*, *Ideas Have Consequences*, *Witness: The Conservative Mind*, *God and Man at Yale*, *The Conscience of a Conservative*, and other mid-century texts became influential not only among conservative office holders, office seekers, and well-heeled donors but also at dinner tables, school board meetings, and neighborhood reading groups. These books are remarkable both because they enumerated conservative political positions and because their memorable language demonstrated how to take those positions, functioning in essence as debate handbooks. Taking an expansive approach, the author documents the wide influence of the conservative canon on traditionalist and libertarian conservatives. By exploring the varied uses to which each founding text has been put from the Cold War to the culture wars, *Creating Conservatism* generates original insights about the struggle over what it means to think and speak conservatively in America.

*Intellectual Populism* Paul Stob, 2020-04-01

In response to denunciations of populism as undemocratic and anti intellectual Intellectual Populism argues that populism has contributed to a distinct and democratic intellectual tradition in which ordinary people assume leading roles in the pursuit of knowledge Focusing on the Gilded Age and Progressive Era the decades that saw the birth of populism in the United States this book uses case studies of certain intellectual figures to trace the key rhetorical appeals that proved capable of resisting the status quo and building alternative communities of inquiry As this book shows Robert Ingersoll 1833 1899 Mary Baker Eddy 1821 1910 Thomas Davidson 1840 1900 Booker T Washington 1856 1915 and Zitkala 1876 1938 deployed populist rhetoric to rally ordinary people as thinkers in new intellectual efforts Through these case studies Intellectual Populism demonstrates how orators and advocates can channel the frustrations and energies of the American people toward productive democratic intellectual ends
