Poetic Castles in Spain Diego Saglia, 2021-12-28 British culture of the Romantic period is distinguished by a protracted and varied interest in things Spanish The climax in the publication of fictional and especially poetical narratives on Spain corresponds with the intense phase of Anglo-Iberian exchanges delimited by the Peninsular War 1808-14 on the one hand and the Spanish experiment of a constitutional monarchy that lasted from 1820 until 1823 on the other Although current scholarship has uncovered and reconstructed several foreign maps of British Romanticism from the Orient to the South Seas exotic European geographies have not received much attention Spain in particular is one of the most neglected of these imaginary Romantic geographies even if between the 1800s and the 1820s and beyond it was a site of wars and invasions the object of foreign economic interests relating to its American colonies and a geopolitical area crucial to the European balance designed by the post-Waterloo Vienna settlement This study considers the various ways in which Spain figured in Romantic narrative verse recovering the discursive materials employed in fictional

representation and assessing the relevance of this activity in the context of the dominant themes and preoccupations in contemporary British culture The texts examined here include medievalizing and chivalric fictions Orientalist adventures set in Islamic Granada and modern day tales of the anti Napoleonic campaign in the Peninsula Recovering some of the outstanding works and issues elaborated by British Romanticism through the cultural geography of Spain this study shows that the Iberian country was an inexhaustible source of imaginative materials for British culture at a time when its imperial boundaries were expanding and its geopolitical influence was increasing in Europe and overseas Mansfield Park Jane Austen,2016-02-12 El personaje principal Fanny Price es una joven de una familia relativamente pobre criada por sus t os ricos Sir Thomas y Lady Bertram hermana de su madre en la mansi n de Mansfield Park Fanny crece con sus cuatro primos Tom Edmund Mar a y Julia pero siempre la consideran como inferior a ellos s lo Edmund se muestra verdaderamente bondadoso con ella *The Cambridge History of English Literature* Sir Adolphus William Ward,Alfred Rayney Waller,1916 ... English Prose Fiction, Including Translations ... San Francisco Public Library,1897 Masculinity and the English Working Class Ying Lee,2016-05-06 This book examines representations of working class masculine subjectivity in Victorian autobiography and fiction In it Ying focuses on ideas of domesticity and the male body and demonstrates that working class masculinities differ substantially from those of the widely studied upper classes The book also maps the relationship between two trends the early nineteenth century efflorescence of published working class autobiographies in which working men construct their identities for a broad readership and a contemporaneous surge of public interest in the lower orders that finds reflection in the depiction of working class characters in popular novels by middle class authors The book mimics this point of convergence by pairing three working class autobiographies with three middle class novels Each chapter focuses on a particular type of work domestic service manual not artisanal labour and literary labour and the opportunities it offers for social advancement Ying considers the specific ways in which classed and gendered consciousness emerges autobiographically and its significance in the writing of working class subjectivity for public consumption Then mainstream novels by Charles Dickens Elizabeth Gaskell and Charles Kingsley are re read from the perspective of these autobiographical pressure points **Catalogue of English Prose Fiction, Including Juveniles and Translations** Brooklyn Public Library,1894 The History of the English Novel Ernest Albert Baker,1934 Catalogue of the English Prose Fiction Anonymous,2023-04-17 Reprint of the original first published in 1874 *The Evolution of the English Novel* Francis Hovey Stoddard,1906 **Catalogue of the English Prose Fiction** Mercantile Library Association (Baltimore),1874 *Trees in Nineteenth-Century English Fiction* Anna Burton,2021-03-29 This is a book about a longstanding network of writers and writings that celebrate the aesthetic socio political scientific ecological geographical and historical value of trees and tree spaces in the landscape and it is a study of the effect of this tree writing upon the novel form in the long nineteenth century *Trees in Nineteenth Century English Fiction* The Silvicultural Novel identifies the picturesque thinker William Gilpin as a

significant influence in this literary and environmental tradition Remarks on Forest Scenery 1791 is formed by Gilpin's own observations of trees forests and his New Forest home specifically but it is also the product of tree stories collected from travellers and historians that came before him This study tracks the impact of this accumulating arboreal discourse upon nineteenth century environmental writers such as John Claudius Loudon Jacob George Strutt William Howitt and Mary Roberts and its influence on varied dialogues surrounding natural history agriculture landscaping deforestation and public health Building upon this concept of an ongoing silvicultural discussion the monograph examines how novelists in the realist mode engage with this discourse and use their understanding of arboreal space and its cultural worth in order to transform their own fictional environments Through their novelistic framing of single trees clumps forests ancient woodlands and man made plantations Jane Austen Elizabeth Gaskell and Thomas Hardy feature as authors of particular interest Collectively in their environmental representations these novelists engage with a broad range of silvicultural conversation in their writing of space at the beginning middle and end of the nineteenth century This book will be of great interest to students researchers and academics working in the environmental humanities long nineteenth century literature nature writing and environmental literature environmental history ecocriticism and literature and science scholarship

An Historical Syntax of the English Language F.Th. Visser, 2023-05-08

Frederik Theodor Visser's *An Historical Syntax of the English Language* published in four massive volumes between 1963 and 1973 is certainly one of the cornerstones of research in English linguistics Visser's achievements can hardly be overestimated Before the advent of modern corpus linguistics he compiled a remarkable wealth of detailed philological data from all periods of English and combined this with current grammatical analyses of his time This has made this publication an indispensable resource for anyone investigating the history of English syntax This reproduction of Visser's volumes is more than welcome and timely as the volumes have been out of print for quite some time and were sometimes a little bit difficult to navigate Having a searchable and easy to use online version although maybe not perfect available now means a revival for scholarship that celebrates its fiftieth birthday without losing any of its relevance
