Manual De Derecho Penal Internacional:

Manual de derecho penal Torres Vásquez, Filemón, 2011-05-16 En este Manual se presenta en forma sintetizada la parte general del Derecho penal que se dicta en los programas académicos de Derecho. Se tiene la pretensión de desarrollar en su totalidad todas las materias que lo integran haciendo el esfuerzo por aprovechar las escasas horas que se dictan en un semestre académico las cuales por regla general resultan insuficientes. Su exposición resumida empero no sacrifica el rigor con el que se deben abordar los temas constitutivos de esta disciplina jurídica se ha tenido especial cuidado en evitar que las inclinaciones teóricas que por su formación pudiera tener el autor resulten afectando la presentación esencial de los conceptos.

Manual de Derecho Penal. Parte General Mila, Frank, 2023-07-01 El Manual de Derecho Penal Parte General Fundamentos dogmáticos de la teoría del delito desde el funcionalismo constitucional autor a del profesor Frank Mila que hoy presenta esta casa editorial es una obra diseñada para los estudiantes y profesionales del derecho que requieren contar con un libro que albergue las bases del derecho penal iberoamericano en un único tomo que resuma de manera didáctica completa y comprensible los principales tópicos actuales del derecho penal desde una perspectiva teórica y práctica. En ese sentido se trabaja con una estructura que se escinde en primer lugar en los fundamentos del derecho penal en el cual se abordan conceptos elementales de esta ciencia así como el estudio de los principios limitadores del ius puniendi y la norma jurídica penal en relación a su aplicación temporal espacial y personal. La segunda parte contempla el estudio de la teoría del delito partiendo de la evolución de la dogmática alemana a través de sus distintos sistemas el análisis de manera detallada cada uno de los elementos del delito conforme a los criterios dogmáticos actuales de las teorías dominantes así como los casos paradigmáticos. En la tercera parte se analizan las consecuencias jurídicas del delito relativas al estudio de la pena las medidas de seguridad y la responsabilidad civil derivada del delito. Por último en esta obra se desarrolla un innovador constructo teórico que propone un nuevo enfoque del sistema funcionalista en el marco de la constitucionalización del derecho intitulado funcionalismo constitucional que implica estudiar y aplicar el derecho penal desde la perspectiva transversal del derecho constitucional de manera tal que se limite el ejercicio desmedido selectivo y arbitrario del ius puniendi. triggering and preventing these tragic crimes often amounts to the choice between national potential preserved or destroyed. It is also important to recognise that they are not inevitable: the commission of these crimes requires a collective effort, an organisational context and long planning and preparation. Thus the idea of strengthening preventative action has taken on greater relevance and is now encompassed in the emerging notion of responsibility to prevent. International courts and tribunals contribute to this effort by ending impunity for past crimes. Focusing investigations and prosecution on the highest leadership maximises the impact of this contribution. The ICC has an additional preventative mandate which is fulfilled by its timely intervention in the form of preliminary examinations. Moreover, when situations of atrocity crimes are triggered, its complementarity regime incentivises states to stop violence and comply with their duties to investigate and prosecute, thus strengthening the rule of law at the national level. The new role granted to victims by the Rome Statute is key to the ICC's successful fulfilment of these functions. This new book of essays, which includes the author's unpublished inaugural lecture at Utrecht University, examines these issues and places particular emphasis on the additional preventative mandate of the ICC, the ICC complementarity regime, the new role granted to victims and the prosecution of the highest leadership through the notion of indirect perpetration. The work of Professor Olasolo breaks new ground in the academic field of international criminal law as an analysis of the system as a whole. I therefore wish to express my congratulations for this work.

Foreword by Luis Moreno Ocampo, Prosecutor International Criminal Court, The Hague, 27 April 2011. Professor Hector Olasolo's compilation provides an enormous source of easy reference to students, academia and legal actors in the field of international law. A look at the titles compiled in this volume demonstrates the present challenges to international criminal justice. From the Preliminary Reflections by Elizabeth Odio Benito, Judge and Former Vice President International Criminal Court, The Hague, May 2011. This collection, written by a brilliant and prolific scholar and practitioner of international criminal justice, is an insightful and important contribution to the existing literature. Each chapter in this collection is copiously footnoted and thoroughly researched, making it an important reference tool for scholars and practitioners in the field. Additionally and importantly, the chapters explore without polemic areas of controversy and dissent and thoughtfully and scrupulously set forth arguments for and against particular doctrinal choices.
