Contenidos en El Método Para Aprender A Leer, Escribir Y Hablar El Inglés Ramón Palenzuela, 1856 *Urbanism and Urbanity* Leigh Mercer, 2013 Through the study of more than twenty novels produced in Spain from the 1840s to the 1920s this book explores the literary means by which the social options available to modern Spanish bourgeois citizens were discursively constructed occasionally before and often concomitantly to their production in reality As a result this study is concerned with the interplay of realism and reality in modern Spain From the earliest folletines of the 1840s to the Modernist novels of the 1920s the majority of novels written in this eighty year period are what one might term *novelas de costumbres* contemporáneas or novels of contemporary customs and therefore primarily concerned with faithfully copying and moreover influencing real social norms in the public sphere In these pages I argue that the spatial and behavioral discourses in the novels of contemporary customs offer a telling history of the evolving formulation of the Spanish bourgeoisie The linking of novels and urbanism is hardly arbitrary in the context of nineteenth century Spain Urbanism particularly in the nineteenth century was as much a verbal construction as the novel as proven by the lengthy treatises of such prominent Spanish bureaucrats engineers architects and urban planners as Ramón de Mesonero Romanos Ildefonso Cerdá and Carlos María de Castro For Spanish intellectuals of this era city planning and the novel functioned as parallel enmeshed discourses in which to work out what it meant to be middle class and the roles this class ought to play in contemporary society In this way they can be considered associated fields of discourse in the sense described by Michel Foucault in *The Archaeology of Knowledge* Foucault's treatise was a call for scholars to reexamine historical fields and question the historical grouping of knowledge into certain discursive unities and consider whether these might be broken up and new ones conceived In this vein this book undertakes a broader and more integrative view of the Spanish nineteenth century calling into question the boundaries of fields such as etiquette and urban planning or literature and touristic discourse Media Travels Juan

Llamas-Rodriguez, 2025-03-04 *Media Travels Toward An Atlas of Global Media* fills a significant gap in global media scholarship by offering short readable articles covering different types of media from around the world Through careful and informed analysis these eleven accessibly written chapters illustrate the particularities of different media practices and situate them within social historical and geographical contexts Examples range from South African video games to Korean TV series popular in Latin America to Indigenous film and media from the US and Canada Media studies courses particularly introductory courses are often narrowly focused on US and Western European canons Instructors for introductory media studies courses wishing to expand the offerings in their curricula will find in these essays new ways of approaching

foundational concepts and issues in the field including globalization social difference and diverse media cultures Scholars wishing to expand their research into specific media forms or representational issues can also turn to these case studies for approaches from beyond the US By including a variety of media and several geographical areas the collection introduces readers to the formal technological and cultural diversity of global media studies Edited by Juan Llamas Rodriguez with contributions from Anthony Adah and A ulika Agina Maria Corrigan Benjamin Han Anna Shah Hoque Meryem Kamil Angelica Marie Lawson Lilia Adriana Perez Limon Sonia Robles Kuhu Tanvir David Tenorio and Rachel van der Merwe *El Techo de la Ballena* María C. Gaztambide, 2018-12-19 The work of the 1960s Caracas based art collective El Techo de la Ballena The Roof of the Whale was called subversive and art terrorism and seen as a threat to Venezuela s national image as an emerging industrial power This volume details the historical and social contexts that shaped the collective exploring how its anti art aesthetic highlighted the shortcomings of the country s newfound oil wealth and transition to democracy Every element used by these radicalized artists in their avant garde exhibitions from Informalist canvases to torn book pages and kitsch objects to cattle carcasses and scatological content issued a critique of Venezuela s petroleum driven capitalism and the profound inequality left in its wake Embracing chaos the artists contradicted the country s politically sanctioned view of modernity which championed constant progress in the visual arts and favored geometric abstraction and kinetic art El Techo s was a backward a retrograde modernity argues Mar a Gaztambide discussing how its artists turned against the norm by incorporating anachronistic postures primeval symbols colonial Latin American print culture and guerilla art tactics Artists in this group tested limits to provoke what they saw as a numbed local public through shocking displays of criticism and frustration Today as Venezuela undergoes another dramatic series of sociopolitical changes El Techo de la Ballena serves as a reminder of the power of art in resisting the status quo and effecting change in society

Historical Dictionary of Venezuela Tomás Straka, Guillermo Guzmán Mirabal, Alejandro E. Cáceres, 2017-12-06 Venezuela is the seventh largest oil producer and holder of the largest proven reserves in the world It s also a country full of problems as evidenced by having the biggest inflation rates and by some estimates the highest crime rates worldwide Despite having an oil boom between 2004 through 2008 with income of around two billion dollars in 2016 it suffered an immense economic contraction and probably the largest supply shortcut crisis in its history This third edition of Historical Dictionary of Venezuela contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has over 700 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about Venezuela

Nineteenth-Century Spanish America Christopher Conway, 2015-07-14 Nineteenth Century Spanish America A Cultural History provides a panoramic and accessible introduction to the era in which Latin America took its first steps into the Modern Age Including colorful characters like circus clowns prostitutes bullfighters street puppeteers and bestselling authors this book maps vivid and

often surprising combinations of the new and the old the high and the low and the political and the cultural Christopher Conway shows that beneath the diversity of the New World there was a deeper structure of shared patterns of cultural creation and meaning Whether it be the ways that people of refinement from different countries used the same rules of etiquette or how commoners shared their stories through the same types of songs Conway creates a multidisciplinary framework for understanding the culture of an entire hemisphere The book opens with key themes that will help students and scholars understand the century such as the civilization and barbarism binary urbanism the divide between conservatives and liberals and transculturation In the chapters that follow Conway weaves transnational trends together with brief case studies and compelling snapshots that help us understand the period How much did books and photographs cost in the nineteenth century What was the dominant style in painting What kinds of ballroom dancing were popular Richly illustrated with striking photographs and lithographs this is a book that invites the reader to rediscover a past age that is not quite past still resonating into the present
