La Grafología es una forma de conocer a la gente tanto a nivel intelectual como laboral social y de personalidad Si hacemos una definición académica podemos decir que la Grafología es aquella técnica con la que a través de la escritura se estudia la personalidad del individuo en todas sus facetas Es decir se analiza la personalidad del que escribe a través de lo que este proyecta en el papel de manera inconsciente ya que nuestro inconsciente nos guía a realizar ciertos trazos sobre los que mayoritariamente nuestra mente consciente no ejerce ningún control Aunque no está reconocida como una ciencia en el sentido estricto no significa que no posea un importante carácter científico y es siempre una herramienta valiosísima para la Psicología Podemos asegurar por tanto que la Grafología es una excelente manera de conocer a las personas lo que la convierte en un arma de importante aplicación en nuestra sociedad tanto a niveles personales como laborales y sociales Mediante el estudio grafológico de la letra pueden elaborarse por tanto informes psicológicos de personalidad muy precisos y completos Este libro pretende ser una guía amena y didáctica para cualquier persona que desee iniciarse en el apasionante mundo del análisis grafológico así como del entendimiento profundo del carácter que se esconde tras un texto manuscrito Cualquiera sea cual sea tu formación estudios o edad puede aprender estas sencillas técnicas y aprovecharlas tanto para su desarrollo personal como profesional ya que en ambos casos sirven como herramienta útil de crecimiento Un libro que te ayudará a descubrirte y a adivinar la verdadera personalidad de la personas que te rodean

TESTIMONIO Nunca fue tan fácil aprender a leer a una persona Con la ayuda de este libro cualquier escritura manuscrita te revelará hasta los detalles más íntimos y escondidos de esa persona
