Anthony DiMaggio

Media Wars And Nicaragua:

The Politics of Propaganda Judith Alexandra Klass, 1998 **Media, War and Terrorism** Shoma Munshi, Peter van der Veer, 2004-07-31 This collection of essays covers the media and public debate dimension of the events of 9 11 and beyond from the point of view of Middle Eastern and Asian countries The first part of the book deals with the use of the media as an instrument of warfare the growing significance of religion the emergence of transnational media and a transnational public sphere and the relationship between the West and the rest of the world The second part of the book contains nine case studies relating to different parts of the Middle East and Asian world all with a strong empirical focus while at the same time elaborating the book's theoretical concerns **Routledge Handbook of Media, Conflict and Security** Piers

Robinson, Philip Seib, Romy Frohlich, 2016-11-10 This Handbook links the growing body of media and conflict research with the field of security studies The academic sub field of media and conflict has developed and expanded greatly over the past two decades Operating across a diverse range of academic disciplines academics are studying the impact the media has on governments pursuing war responses to humanitarian crises and violent political struggles and the role of the media as a facilitator of and a threat to both peace building and conflict prevention This handbook seeks to consolidate existing knowledge by linking the body of conflict and media studies with work in security studies The handbook is arranged into five parts Theory and Principles Media the State and War Media and Human Security Media and Policymaking within the Security State New Issues in Security and Conflict and Future Directions For scholars of security studies this handbook will provide a key point of reference for state of the art scholarship concerning the media security nexus for scholars of communication and media studies the handbook will provide a comprehensive mapping of the media conflict field

Trump's Media War Catherine Happer, Andrew Hoskins, William Merrin, 2018-10-17 The election of Donald Trump as US President in 2016 seemed to catch the world napping Like the vote for Brexit in the UK there seemed to be a new de synchronicity a huge reality gap between the unfolding of history and the mainstream news media's interpretations of and reporting of contemporary events Through a series of short sharp interventions from academics and journalists this book interrogates the emergent media war around Donald Trump A series of interconnected themes are used to set an agenda for exploration of Trump as the lynch pin in the fall of the liberal mainstream and the rise of the right media mainstream in the USA By exploring topics such as Trump's television celebrity his presidential candidacy and data driven election campaign his use of social media his press conferences and combative relationship with the mainstream media and the question of fake news and his administration's defence of alternative facts the contributors rally together to map the parallels of the seemingly momentous and continuing shifts in the wider relationship between media and politics **Media and the Cold War in the 1980s** Henrik G. Bastiansen, Martin Klimke, Rolf Werenskjold, 2018-11-08 The Cold War was a media phenomenon It was a daily cultural political struggle for the hearts and minds of ordinary people and for government leaders

a struggle to undermine their enemies ability to control the domestic public sphere This collection examines how this struggle played out on screen radio and in print from the late 1970s through the early 1990s a time when breaking news stories such as Ronald Reagan s Star Wars program and Mikhail Gorbachev s policy of glasnost captured the world s attention Ranging from the United States to the Soviet Union and China these essays cover photojournalism on both sides of the Iron Curtain Polish punk Norwegian film Soviet magazines and more concluding with a contribution from Stuart Franklin one of the creators of the iconic Tank Man image during the Tiananmen Square protests By investigating an array of media actors and networks as well as narrative and visual frames on a local and transnational level this volume lays the groundwork for writing media into the history of the late Cold War American War Cinema and Media since Vietnam Patricia

Keeton, Peter Scheckner, 2013-08-28 No other cinematic genre more sharply illustrates the contradictions of American society notions about social class politics and socio economic ideology than the war film This book examines the latest cycle of war films to reveal how they mediate and negotiate the complexities of war class and a military political mission largely gone bad

War and the Media Paul M. Haridakis, Barbara S. Hugenberg, Stanley T. Wearden, 2014-01-10 Mass communication is used by governments to support their war efforts while media images are created or manipulated to inform persuade or guide the consumers of those images But this book looks beyond the obvious The contributors examine historical and contemporary examples that reflect the role of the media or mass communication or both during wartime The essays highlight the centrality of communication to the perpetuation and to the resolution of war suggesting that the symbiotic relationship between communication and war is as important to understand as war itself **Media Relations of the**

Anti-War Movement Ian Taylor, 2017-01-06 In this book Ian Taylor examines how a social movement the anti Iraq War movement in the UK engaged with the media as a part of their campaigning against the invasion and occupation of Iraq Moving beyond content analysis to draw upon interviews with locally based journalists and activists Taylor examines how locally based anti war groups engaged with their local press as well as how those groups were reported on by the local press in their respective areas In the process of exploring these ideas the book takes on questions like How did local journalists assess the legitimacy of the anti war movement How why and to what extent did opponents of the war pursue local press coverage What bearing did the social composition of the movement have on the way they set about engaging with the media How did the local press handle the controversy surrounding opposition to military action against Iraq Media Relations of the Anti War Movement makes a unique contribution to research on the interactions between social movements and the media and plugs a major gap in the literature on the Iraq War and the media When Media Goes to War Anthony

DiMaggio, 2010-02-01 In this fresh and provocative book Anthony DiMaggio uses the war in Iraq and the United States confrontations with Iran as his touchstones to probe the sometimes fine line between news and propaganda Using Antonio Gramsci s concept of hegemony and drawing upon the seminal works of Noam Chomsky Edward Herman and Robert

McChesney DiMaggio combines a rigorous empirical analysis and clear lucid prose to enlighten readers about issues essential to the struggle for a critical media and a functioning democracy. If as DiMaggio shows our newspapers and television news programs play a decisive role in determining what we think and if as he demonstrates convincingly what the media give us is largely propaganda that supports an oppressive and undemocratic status quo then it is incumbent upon us to make sure that they are responsive to the majority and not just the powerful and privileged few.

Media, Conflict and Peacebuilding in Africa Jacinta Maweu, Admire Mare, 2021-03-29

This book explores the role and place of popular traditional and digital media platforms in the mediatization, representation and performance of various conflicts and peacebuilding interventions in the African context. The role of the media in conflict is often depicted as either good as symbolized by peace journalism or bad as exemplified by war journalism but this book moves beyond this binary to highlight the in-between role that the media often plays in times of conflict. The volume does not only focus on the relationship between mass media conflict and peacebuilding processes but it broadens its scope by critically analysing the dynamic and emergent roles of popular and digital media platforms in a continent where the semi-literate and oral communities still rely heavily on popular communication platforms to get news and information. Whilst social media platforms have been hailed for their assumed democratic and digital dividends this book does not only focus on these positive aspects but also shines a light on dark forms of participation which are fuelling racial, gender, ethnic, political and religious conflicts in highly polarized and stratified societies. Highlighting the many ways in which traditional, digital and popular media can be used to both escalate conflicts and promote peacebuilding, this volume will be a useful resource for students, researchers and civil society groups interested in peace and conflict studies, journalism and media studies in different contexts within Africa.
