Medieval Welsh Erotic Poetry:

Canu Maswedd Yr Oesoedd Canol Dafydd Johnston, 1991 **Obscenity** Jan M. Ziolkowski, 2023-11-27 This volume makes most wide ranging attempt ever to probe the nature's origins and consequences of obscenity in medieval literature art theater and law One large section examines obscenity in medieval French literature especially fabliaux but the rest of the book explores obscenity in cultures and languages of other regions in Europe *Feminine Sanctity and Spirituality in Medieval Wales* Jane Cartwright, 2008 Cartwright sheds light on the religious women of medieval Wales Drawing on a wide range of sources from saints' lives and native poetry to holy wells and visual evidence she explores feminine sanctity its meanings manifestations and related iconography in a specifically Welsh context **Medieval Virginities** Ruth Evans, Sarah Salih, Anke Bernau, 2003-01-01 The variety of subjects and disciplines represented here testify both to the elusiveness of virginity and to its lasting appeal and importance *Medieval Virginities* shows how virginity's inherent ambiguity highlights the problems contradictions and discontinuities lurking within medieval ideologies *The Erotic in the Literature of Medieval Britain* Amanda Hopkins, Cory Rushton, 2007 An examination of the erotic in medieval literature which includes articles on the role of clothing and nudity the tension between eroticism and transgression and religion and the erotic This volume examines the erotic in the literature of medieval Britain primarily in Middle English but also in Latin Welsh and Old French Seeking to discover the nature of the erotic and how it differs from modern erotics the contributors address topics such as the Wife of Bath's opinions on marital eroticism the role of clothing and nudity the tension between eroticism and transgression the interplay between religion and the erotic and the hedonistic horrors of the cannibalistic Giant of Mont St Michel Contributors ALEX DAVIS SIMON MEECHAM JONES JANE BLISS SUE NIEBRZYDOWSKI KRISTINA HILDEBRAND ANTHONY BALE CORY JAMES RUSHTON CORINNE SAUNDERS AMANDA HOPKINS ROBERT ROUSE MARGARET ROBSON THOMAS H CROFTS III MICHAEL CICHON AMANDA HOPKINS teaches in the department of English and Comparative Literary Studies and the department of French at the University of Warwick CORY RUSHTON is in the Department of English at St Francis Xavier University Nova Scotia Canada **Women's Literary Cultures in the Global Middle Ages** Kathryn Loveridge, Liz Herbert McAvoy, Sue Niebrzydowski, Vicki Kay Price, 2023 Initiates a wider development of inquiries into women's literary cultures to move the reader beyond single geographical linguistic cultural and period boundaries Since the closing decades of the twentieth century medieval women's writing has been the subject of energetic conversation and debate This interest however has focused predominantly on western European writers working within the Christian tradition the Saxon visionaries Mechthild of Hackeborn Mechthild of Magdeburg Gertrude the Great for example and in England Julian of Norwich and Margery Kempe are cases in point While this present book acknowledges the huge importance of such writers to women's literary history it also argues that they should no longer be read solely within a local context Instead by putting them into conversation with other literary women and their cultures from wider geographical

regions and global cultures women from eastern Europe and their books dramas and music the Welsh gwraig llwyn a pherth woman of bush and brake the Indian mystic Mirabai Japanese women writers from the Heian period women saints from across Christian Europe and those of eleventh century Islam or late medieval Ethiopia for instance much more is to be gained in terms of our understanding of the drivers behind and expressions of medieval women's literary activities in far broader contexts This volume considers the dialogue synergies contracts and resonances emerging from such new alignments and to help a wider multidirectional development of this enquiry into women's literary cultures

A Cultural History of Sexuality in the Middle Ages Ruth Evans, 2012-03-01 Historians of sexuality have often assumed that medieval people were less interested in sex than we are But people in the Middle Ages wrote a great deal about sex in confessors manuals in virginity treatises and in literary texts This volume looks afresh at the cultural meanings that sex had throughout the period presenting new evidence and offering new interpretations of known material Acknowledging that many of the categories that we use today to talk about sexuality are inadequate for understanding sex in premodern times the volume draws on important recent work in the historiography of medieval sexuality to address the conceptual and methodological challenges the period presents A Cultural History of Sexuality in the Middle Ages presents an overview of the period with essays on heterosexuality homosexuality sexual variations religious and legal issues health concerns popular beliefs about sexuality prostitution and erotica

The spoken word Adam Fox, Daniel Woolf, 2018-07-30 This electronic version has been made available under a Creative Commons BY NC ND open access license Discusses the transition from a largely oral to a fundamentally literate society in the early modern period During this period the spoken word remained of the utmost importance but development of printing and the spread of popular literacy combined to transform the nature of communication Examines English Scottish and Welsh Oral culture to provide the first pan British study of the subject Covers several aspects of oral culture ranging from tradition to memories of the civil war to changing mechanics for the settling of debts The time span concentrates on the period 1500 1800 but includes material from outside this time frame covering a longer chronological span than most other studies to show the link between early modern and modern oral and literate cultures

The Gentry of North Wales in the Later Middle Ages Antony D Carr, 2017-10-12 This is a study of the landed gentry of north Wales from the Edwardian conquest in the thirteenth century to the incorporation of Wales in the Tudor state in the sixteenth The limitation of the discussion to north Wales is deliberate there has often been a tendency to treat Wales as a single region but it is important to stress that like any other country it is itself made up of regions and that a uniformity based on generalisation cannot be imposed This book describes the development of the gentry in one part of Wales from an earlier social structure and an earlier pattern of land tenure and how the gentry came to rule their localities There have been a number of studies of the medieval English gentry usually based on individual counties but the emphasis in a Welsh study is not necessarily the same as that in one relating to England The rich corpus of medieval poetry addressed to the leaders of

native society and the wealth of genealogical material and its potential are two examples of this difference in emphasis

The History of British Women's Writing, 700-1500 Liz Herbert McAvoy, Diane Watt, 2015-12-26 This volume focuses on women's literary history in Britain between 700 and 1500. It brings to the fore a wide range of women's literary activity undertaken in Latin, Welsh and Anglo-Norman alongside that of the English vernacular, demanding a rethinking of the traditions of literary history and ultimately the concept of writing itself.
