Medieval Leper and His Northern Heirs:

The Medieval Leper and His Northern Heirs Peter Richards, 2000 Medieval history is rich in rules and regulations for lepers but reveals little of who they were or what became of them This book searches for the reality of the individuals themselves people who through their disease or suspicion of it contributed a unique chapter to social and medical history Their hopes fears frustrations and sufferings are explored partly through English medieval sources but mainly through the record of the remarkable survival of both leprosy and many medieval attitudes to it in the Åland islands between Sweden and Finland in the seventeenth century where the struggle of a poor community both to contain the disease and to provide for those suffering from it were recorded for over a quarter of a century by the rural dean The medical identity of medieval leprosy is confirmed from descriptions from portraits many previously unpublished or forgotten and from the characteristic mutilations of bones an appendix of original documents forms a unique collection of source material for social and medical historians The late PETER RICHARDS was a former Professor of Medicine and Dean of St Mary's Hospital Medical School in London and President of Hughes Hall Cambridge

The Abbot and the Rule Michelle Still, 2017-03-02 St Albans was one of the greatest Benedictine abbeys of medieval England and the early 14th century was a period during which the concerns of the community and the role of the abbot emerge particularly clearly Yet the history of the abbey during this period has received little attention since general surveys undertaken over eighty years ago and the manorial history by Levett in 1938 Basing herself on the unique and relatively unexploited *Gesta Abbatum Monasterii Sancti Albani* Michelle Still examines the position of St Albans in both the secular and monastic worlds with a focus on the period 1290-1349 The study includes discussion of the role of the abbot as a feudal landlord a provider of education at the abbey's grammar school and a dispenser of charity In conclusion she notes the pivotal importance of the personality and influence of the abbot of St Albans in ensuring the strict observance of the Rule of St Benedict in an age when traditional monasticism was increasingly challenged Through the detailed study of this one abbey this book makes an important contribution to the overall picture of monastic life in medieval England

The Canons of the Third Lateran Council of 1179 Danica Summerlin, 2019-11-28 Investigates papal government in the later twelfth century focusing on the decrees issued at papal councils and their reception

Growing Old in the Middle Ages Shulamith Shahar, 2004 This study draws a comprehensive picture of medieval old age in western Europe combining primary sources and secondary literature to produce a broad cultural history

Images of Leprosy Christine M. Boeckl, 2011-03-01 From biblical times to the onset of the Black Death in the fourteenth century leprosy was considered the worst human affliction both medically and socially Only fifty years ago leprosy or Hansen's disease was an incurable infectious illness and it still remains a grave global concern Recently leprosy has generated attention in scholarly fields from medical science to the visual arts This interdisciplinary art historical survey on leprosy and its visualization in sculpture murals stained glass and other media

provides new information on the history of art medicine religion and European society Christine M Boeckl maintains that the various terrifying aspects of the disease dominated the visual narratives of historic and legendary figures stricken with leprosy For rulers beggars saints and sinners the metaphor of leprosy becomes the background against which their captivating stories are projected **Media Spectacles** Marjorie Garber,Jann Matlock,Rebecca L. Walkowitz,2018-05-04 Coverage of such major news events as the Gulf War the AIDS epidemic and the William Kennedy Smith rape trial is analysed by contributors who explore the languages of word and image that produce current events as spectacle **Authority and the Female Body in the Writings of Julian of Norwich and Margery Kempe** Liz Herbert McAvoy,2004 The three archetypal representations of woman in the middle ages as mother as whore and as wise woman are all clearly present in the writings of Julian of Norwich and Margery Kempe in examining the ways in which both writers make use of these female categories Dr McAvoy establishes the extent of their success in resolving the tension between society s expectations of them and their own lived experiences as women and writers Jacket **Medicine in the English Middle Ages** Faye Getz,1998-11-02 This book presents an engaging detailed portrait of the people ideas and beliefs that made up the world of English medieval medicine between 750 and 1450 a time when medical practice extended far beyond modern definitions The institutions of court church university and hospital which would eventually work to separate medical practice from other duties had barely begun to exert an influence in medieval England writes Faye Getz Sufferers could seek healing from men and women of all social ranks and the healing could encompass spiritual legal and philosophical as well as bodily concerns Here the author presents an account of practitioners English Christians Jews and foreigners of medical works written by the English of the emerging legal and institutional world of medicine and of the medical ideals present among the educated and social elite How medical learning gained for itself an audience is the central argument of this book but the journey as Getz shows was an intricate one Along the way the reader encounters the magistrates of London who confiscate a bag said by its owner to contain a human head capable of learning to speak and learned clerical practitioners who advise people on how best to remain healthy or die a good death Islamic medical ideas as well as the poetry of Chaucer come under scrutiny Among the remnants of this far distant medical past anyone may find something to amuse and something to admire
