Memory Of The Body Photographs:

Body Image Marlene V. Kindes, 2006 Western culture has increasingly valued physical appearance and in particular slenderness in the last 20 years Unrealistic targets of thinness and excessive weight loss have led to eating disorders the idea of obligatory exercise and other mental health problems The concept of dissatisfaction with one's body image is driven home by images of ultra thin models appearing in newspapers magazines and television This book brings together leading international research in this alarming and growing field *Handbook of Research on the Relationship Between Autobiographical Memory and Photography* Ingham, Mark Bruce Nigel, Milic, Nela, Kantas, Vasileios, Andersdotter, Sara, Lowe, Paul, 2023-02-17 Autobiographical memory and photography have been inextricably linked since the first photographs appeared during the 19th century These links have often been described from each other's discipline in ways that often have led to misunderstandings about the complex relationships between them The Handbook of Research on the Relationship Between Autobiographical Memory and Photography covers many aspects of the multiple relationships between autobiographical memory and photography such as the idea that memory and photography can be seen as forms of mental time and the effect photography has on autobiographical memory Covering key topics such as identity trauma and remembrance this major reference work is ideal for industry professionals sociologists psychologists artists researchers scholars academicians practitioners educators and students *Photography, Memory, and Refugee Identity* Lynda Mannik, 2013-04-20 In 1948 a small ship carrying Estonian refugees arrived at Pier 21 in Halifax In this absorbing work anthropologist Lynda Mannik analyzes the refugee experience through the photographic record of those who made that harrowing voyage Drawing on a collection of photographs taken during the voyage and at Pier 21 Mannik asks surviving passengers to describe their journey their reception in Canada and to what extent the photos reflect their experiences as they remember them The photographs in the SS Walnut collection she argues bear witness to the refugee experience even as the meanings attached to them have changed over time and in shifting contexts *Death, Memory and Material Culture* Elizabeth Hallam, Jenny Hockey, 2020-05-26 How do the living maintain ongoing relationships with the dead in Western societies How have the residual belongings of the dead been used to evoke memories Why has the body and its material environment remained so important in memory making Objects images practices and places remind us of the deaths of others and of our own mortality At the time of death embodied persons disappear from view their relationships with others come under threat and their influence may cease Emotionally socially politically much is at stake at the time of death In this context memories and memory making can be highly charged and often provide the dead with a social presence amongst the living Memories of the dead are a bulwark against the terror of forgetting as well as an inescapable outcome of a life's ending Objects in attics gardens museums streets and cemeteries can tell us much about the processes of remembering This unusual and absorbing book develops perspectives in anthropology and cultural history to reveal the importance of material

objects in experiences of grief mourning and memorializing Far from being invisible the authors show how past generations dead friends and lovers remain manifest through well worn garments letters photographs flowers residual drops of perfume funerary sculpture Tracing the rituals gestures and materials that have been used to shape and preserve memories of personal loss Hallam and Hockey show how material culture provides the deceased with a powerful presence within the here and now
