Mendola Report New Look At Gay:

The Mendola Report Mary Mendola,1980 **Gay Relationships** John P. De Cecco,1988 A book certain to appeal to many readers Experts discuss the intricacies of maintaining a positive affirming relationship Entire sections of this large and impressive 300 page anthology cover the gamut of gay relationships including what can go right or what can go wrong where to look for lovers what it takes to maintain a gay relationship how to solve problems in a relationship difficulties in role expectations depression excessive drinking and much more *Sex, Gay Men and AIDS* Peter Davies,2020-09-29 This book reports on the largest empirical study of male homosexual behaviour in the UK for thirty years Important new theories about sexuality are developed which expose unhelpful stereotypes and challenge outdated assumptions about AIDS [Lesbians, Gays, and the Empowerment Perspective](#) Carol T. Tully,2000-07-03 The most comprehensive resource to date on the methods of empowerment with lesbian and gay clients this book explores the history and politics of gay identity and explains the basis and development of the empowerment approach in social work practice in the United States After analyzing the different types of homophobia individual institutional and internalized and how these are manifested in real life situations Tully addresses the special needs and issues particular to three age groups gay and lesbian youth adults and older clients The author offers practical applications for the social worker and client at the micro mezzo and macro levels from helping a teenage client to discover a personal sexual orientation micro to organizing a social event for lesbians and gays mezzo to building a community coalition macro Eye opening case studies are provided for each age group and cover everything from defining problems identifying the underlying issues causing them understanding the role of homophobia and the application of the empowerment perspective **Lesbians Over 60 Speak for Themselves** Monika Kehoe,1989 This pioneering effort is the first attempt to reach a nationwide representation of lesbian elders in order to understand this deeply hidden segment of our population The women in *Lesbians Over 60 Speak for Themselves* candidly describe their necessarily secret lives in a hostile society how they feel about being different how they cope with the homophobia that surrounds them their most pressing problems how aging has affected them as well as the most intriguing topic their sexual behavior as it was in their youth and as it is now This powerful book provides fascinating demographics about this previously neglected group of women and thoroughly explores their intimate thoughts and feelings about aging and lesbianism [Same Sex Intimacies](#) Catherine Donovan,Brian Heaphy,Jeffrey Weeks,2003-09-02 Our families are increasingly a matter of choice and the choices are widening all the time This is particularly true of the non heterosexual world where the last ten years have seen a popular acceptance of same sex partnerships and to a lesser extent of same sex parenting Based on extensive interviews with people in a variety of non traditional relationships this fascinating new book argues that these developments in the non heterosexual world are closely linked to wider changes in the meaning of family in society at large and that each can cast light on the other *Same Sex Intimacies* gives vivid accounts of the different ways non heterosexual people have been able to create

meaningful intimate relationships for themselves and highlights the role of individual agency and collective endeavour in forging these roles as friends partners parents and as members of communities This topical book will provide compelling reading for students of the family sexuality and lesbian and gay studies **The Course of Gay and Lesbian Lives** Bertram J. Cohler,Robert M. Galatzer-Levy,2000-08 The authors argue that there is little support for assuming that homosexuality has a biological basis Recognizing the many pathways that lead to same gender sexual orientation the authors conclude that the cause is much less important than understanding the meaning of being homosexual *Straight Jobs Gay Lives* Sharon Silverstein,Annette Friskopp,2010-05-11 The workplace has become the next frontier for gay rights stated a Fortune magazine cover story and this book based on a series of groundbreaking interviews with more than 100 gay and lesbian alumni of the Harvard Business School is the most complete and most in depth study ever made of gay and lesbian managers executives and employees in this country *Straight Jobs Gay Lives* frankly examines issues such as coming out versus being closeted in the workplace harassment discrimination health and insurance benefits resources and support groups and the differences between the experiences of gay men and lesbians With hundreds of personal stories from men and women of all ages and races *Straight Jobs Gay Lives* provides readers with the encouragement information and support that they need to navigate today s fast changing business world *Infidelity* Paul R. Peluso,2007-06-15 When one partner in a relationship is unfaithful to the other it takes a lot of work by both parties involved to salvage the relationship In today s therapy friendly climate marriage couples counseling is often a part of that rebuilding process Many couples seek out professional therapy after an affair is out in the open but often the act of infidelity is revealed while uncovering and discussing unrelated issues for which the couple is in counseling And yet amazingly as common as this complex and difficult topic arises in therapy there is relatively little professional literature devoted to understanding and treating infidelity In this volume Paul Peluso has assembled a truly impressive list of contributors from a range of disciplines and backgrounds including marital therapy family therapy evolutionary psychology marriage research and cyberstudies with the aim of filling this void *Families We Choose* Kath Weston,1997 This study brings together two areas of investigation relationships of gay and lesbian individuals with their biological families and lesbian and gay relationships in the context of research on alternative forms of family
