What's Wrong with the Poor? Mical Raz, 2013-11-11. In her insightful interdisciplinary history, physician and historian Mical Raz examines the interplay between psychiatric theory and social policy throughout the 1960s, ending with President Richard Nixon's 1971 veto of a bill that would have provided universal day care. She shows that this cooperation between mental health professionals and policymakers was based on an understanding of what poor men, women and children lacked. This perception was rooted in psychiatric theories of deprivation focused on two overlapping sections of American society: the poor and African Americans. Disproportionately represented among America's poor were seen as having practically nothing.
