

THE MERCENARIES

Mercenaries The

Gerhard Werle, Moritz Vormbaum

Mercenaries The:

Mercenaries Sarah Percy, 2007-10-11 The main aim of this book is to argue that the use of private force by states has been restricted by a norm against mercenary use The book traces the evolution of this norm from mercenaries in medieval Europe through to private security companies in modern day Iraq telling a story about how the mercenaries of yesterday have evolved into those of today in the process The norm against mercenaries has two components First mercenaries are considered to be immoral because they use force outside legitimate authoritative control Second mercenaries are considered to be morally problematic because they fight wars for selfish financial reasons as opposed to fighting for some kind of larger conception of the common good The book examines four puzzles about mercenary use and argues that they can only be explained by understanding the norm against mercenaries First the book argues that moral disapproval of mercenaries led to the disappearance of independent mercenaries from medieval Europe Second the transition from armies composed of mercenaries to citizen armies in the nineteenth century can only be understood with attention to the norm against mercenaries Third it is impossible to understand why international law regarding mercenaries created in the 1970s and 1980s is so ineffective without understanding the norm Finally the disappearance of companies like Executive Outcomes and Sandline and the development of today's private security industry cannot be understood without the norm This book is a project of the Oxford Leverhulme Programme on the Changing Character of War The Law of Armed Conflict and the Use of Force Frauke Lachenmann, Rüdiger Wolfrum, 2017 This volume collects articles on the law of armed conflict and the use of force from the Max Planck Encyclopedia of Public International Law to facilitate easy access to content from the leading reference work in international law The United Nations Security Council and War, 2010-04-15 This is the first major exploration of the United Nations Security Council's part in addressing the problem of war both civil and international since 1945 Both during and after the Cold War the Council has acted in a limited and selective manner and its work has sometimes resulted in failure It has not been and was never equipped to be the centre of a comprehensive system of collective security However it remains the body charged with primary responsibility for international peace and security It offers unique opportunities for international consultation and military collaboration and for developing legal and normative frameworks It has played a part in the reduction in the incidence of international war in the period since 1945 This study examines the extent to which the work of the UN Security Council as it has evolved has or has not replaced older systems of power politics and practices regarding the use of force Its starting point is the failure to implement the UN Charter scheme of having combat forces under direct UN command Instead the Council has advanced the use of international peacekeeping forces it has authorized coalitions of states to take military action and it has developed some unanticipated roles such as the establishment of post conflict transitional administrations international criminal tribunals and anti terrorism committees The book bringing together distinguished scholars and practitioners draws on the methods of the lawyer the historian the student

of international relations and the practitioner It begins with an introductory overview of the Council's evolving roles and responsibilities It then discusses specific thematic issues and through a wide range of case studies examines the scope and limitations of the Council's involvement in war It offers frank accounts of how belligerents viewed the UN and how the Council acted and sometimes failed to act The appendices provide comprehensive information much of it not previously brought together in this form of the extraordinary range of the Council's activities This book is a project of the Oxford Leverhulme Programme on the Changing Character of War

The Conduct of Hostilities under the Law of International Armed Conflict Yoram Dinstein, 2016-04-14 The definitive textbook on the law of international armed conflict

The African Criminal Court Gerhard Werle, Moritz Vormbaum, 2016-11-29 This book offers the first comprehensive and in depth analysis of the provisions of the Malabo Protocol the amendment protocol to the Statute of the African Court of Justice and Human and Peoples Rights adopted by the African Union at its 2014 Summit in Malabo Equatorial Guinea The Annex to the protocol once it has received the required number of ratifications will create a new Section in the African Court of Justice and Human and Peoples Rights with jurisdiction over international and transnational crimes hence an African Criminal Court In this book leading experts in the field of international criminal law analyze the main provisions of the Annex to the Malabo Protocol The book provides an essential and topical source of information for scholars practitioners and students in the field of international criminal law and for all readers with an interest in political science and African studies Gerhard Werle is Professor of German and International Criminal Law Criminal Procedure and Modern Legal History at Humboldt University zu Berlin and Director of the South African German Centre for Transnational Criminal Justice In addition he is an Extraordinary Professor at the University of the Western Cape and Honorary Professor at North West University of Political Science and Law Xi'an China Moritz Vormbaum received his doctoral degree in criminal law from the University of Münster Germany and his postdoctoral degree from Humboldt University zu Berlin He is a Senior Researcher at Humboldt University as well as a coordinator and lecturer at the South African German Centre for Transnational Criminal Justice

Genocide in the Modern Age Zachary A. Karazsia, 2025-01-30 This book explores why some episodes of mass political violence and genocide are so much deadlier than others and under what conditions perpetrators in government and society opt for brutality as a means of accomplishing their goals Introducing the new concept of mass political violence to explain genocide and other mass killings in the modern world the author investigates how perpetrators sustain the capacity to enact violence on a large scale irrespective of motives Cases including the Holocaust Soviet Union Rwanda Cambodia the Lord's Resistance Army the Islamic State the Ottoman Empire of the 1890s Mao Zedong's revolutionary violence the Congo Crisis and Darfur are used by the author to identify four types of mass political violence perpetrators state actors state society coalitions state sponsored groups and non state actors to explain historical trends and identify which perpetrators are most likely to emerge in a given socio political context and sustain violence over time Comparative and grounded in case

studies this book will interest policymakers diplomats governmental advisers practitioners and industry researchers It will also be invaluable to students and scholars of Political Science International Affairs Holocaust and Genocide Studies Human Rights Sociology Anthropology Geography Political Psychology Religious Studies Gender Studies Public Policy Media Studies and Criminology

Mercenary Companies and the Decline of Siena William Caferro,1998-05-29 The raids therefore were more than an exotic nuisance but a key factor in Siena's decision to abandon independence in 1399

The New Dogs of War Ward Thomas,2021-09-15 As Ward Thomas details in *The New Dogs of War* militias and paramilitary groups wield greater power than national governments in many countries while in some war zones private contractors perform missions previously reserved for uniformed troops Most ominously terrorist organizations with global reach have come to define the security landscape for even the most powerful nations Across the first decades of the twenty first century we have witnessed a dramatic rise in the use of military force by these nonstate actors in ways that have impacted the international system leading Thomas to undertake this valuable assessment of the state of play at this critical moment To understand the spread of nonstate violence Thomas focuses on the crucial role played by an epochal transformation in international norms Since the eighteenth century the Westphalian model of sovereignty has reserved the legitimate use of force to states Thomas argues that normative changes in the decades after World War II produced a crisis of coherence for formal and informal rules against nonstate violence In detailed case studies of nonstate militias transnational terrorist networks and private military contractors Thomas explains how forces contesting state prerogatives exploited this crisis which in turn reshaped international understandings of who could legitimately use force By considering for the first time all three purveyors of nonstate violence as aspects of the same phenomenon *The New Dogs of War* explains this fundamental shift in the norm that for centuries gave states the monopoly on military force

Resolutions and Statements of the United Nations Security Council Karel Wellens,1990-06-22

Armies of the Macedonian and Punic Wars Duncan Head,2016-02-10 *Armies of the Macedonian and Punic Wars* is an important member of the WRG Ltd *Armies and Enemies* series First published in 1983 it has long been out of print and we are delighted to make it available once more It includes details of Persian Greek Boiotian Spartan Athenian Phokian Aitolian Achaian Tarantine Syracusan Macedonian Thessalian Successor Antigonid Epeiroi Ptolemaic Kyrenean Seleucid Pergamene Bactrian and Indian Greek Maccabean Thracian Bithynian Illyrian Scythian Bosporan Sarmatian Saka Parthian Indian Carthaginian Numidian Spanish Celtic Galatian Roman Latin Samnite Campanian Lucanian Bruttian Apulian and Etruscan armies

Unveiling the Energy of Verbal Artistry: An Mental Sojourn through **Mercenaries The**

In a world inundated with screens and the cacophony of quick communication, the profound energy and mental resonance of verbal art usually fade into obscurity, eclipsed by the continuous onslaught of sound and distractions. Yet, situated within the musical pages of **Mercenaries The**, a interesting perform of fictional beauty that impulses with natural emotions, lies an memorable journey waiting to be embarked upon. Penned by a virtuoso wordsmith, that exciting opus guides readers on a mental odyssey, delicately revealing the latent potential and profound affect stuck within the elaborate web of language. Within the heart-wrenching expanse of this evocative analysis, we shall embark upon an introspective exploration of the book is main styles, dissect their interesting writing type, and immerse ourselves in the indelible impression it leaves upon the depths of readers souls.
