*Healing Spaces, Modern Architecture, and the Body* Sarah Schrank,Didem Ekici,2016-07-15 *Healing Spaces Modern*

Architecture and the Body brings together cutting edge scholarship examining the myriad ways that architects urban planners medical practitioners and everyday people have applied modern ideas about health and the body to the spaces in which they live work and heal The book s contributors explore North American and European understandings of the relationship between physical movement bodily health technological innovation medical concepts natural environments and architectural settings from the nineteenth century through the heyday of modernist architectural experimentation in the 1920s and 1930s and onward into the 1970s Not only does the book focus on how professionals have engaged with the architecture of healing and the body it also explores how urban dwellers have strategized and modified their living environments themselves to create a kind of vernacular modernist architecture of health in their homes gardens and backyards This new work builds upon a growing interdisciplinary field incorporating the urban humanities geography architectural history the history of medicine and critical visual studies that reflects our current preoccupation with the body and its corresponding therapeutic culture

Power and Politics at the Colonial Seaside Shuk-Wah Poon,2022-09-02 A study of the complex role of the seaside as a leisure space in colonial Hong Kong British sports were in many respects more meaningful in the empire than literature music art or religion They served as an instrument of cultural association and later of cultural change promoting imperial union and then postimperial goodwill Poon analyses the ways in which British colonists and Chinese leaders backed by the rhetoric of public health and nationalism respectively transformed the Hong Kong seaside into a leisure space She argues that the growing popularity of seaside resorts and sea bathing as a preferred form of leisure activity across the social and ethnic spectrums served an important role in shaping the racial relationship between Westerners and the Chinese population as well as the Chinese people s perception of the female body and the seaside during the colonial period The popularity of British leisure forms in colonial Hong Kong does not necessarily mean the triumph of Britishness This book will be of great interest to historians with an interest in leisure and in Empire and Colonialism as well as historians of Colonial Hong Kong and Modern China

Eric Gershwin, Bruce Merchant, 2012-12-06 Tiselius demonstrated that the immunologically active components of immune sera migrated electrophoretically in the gamma globulin region His findings illuminated the classic observations of Jenner regarding development of resistance to infection and those of von Pirquet Pasteur and Arthus regarding the transfer and specificity of resistance Conceptual integration of these observations provided the impetus for the present modern era of immunology Subsequent to Tiselius's work multiple rapid advances have occurred in the study of congenital and acquired immune deficiency states in mice chickens and humans These studies have readily demonstrated that the immunologic ability of an organism to protect itself from environmental influences is a prerequisite for survival Indeed this necessity for protection from microenvironmental influences has promoted the evolutionary development of immunologic diversification namely host dependence upon a sophisticated multifaceted network of cells and effector mechanisms responsible for the clearance and neutralization of toxins and potentially harmful pathogens The obligate dependence of animals upon the functional integrity of their immunologic systems is illustrated by the ready

invasion of ubiquitous organisms when the host is in a state of immune defense derangement Nevertheless derangements in immune function can range from partial to complete and can be compatible with survival The consequences of such derangements run the gamut from subclinical disease to inevitable mortality      **Weekly World News** ,1995-04-25 Rooted in the creative success of over 30 years of supermarket tabloid publishing the Weekly World News has been the world's only reliable news source since 1979 The online hub [www.weeklyworldnews.com](http://www.weeklyworldnews.com) is a leading entertainment news site      *Views on Nudes* Bill Jay,1971
