Nuevas Fronteras:

Nuevas fronteras del objeto de la Propiedad Intelectual Luis Antonio Anguita Villanueva, Héctor Sergio Ayllón Santiago, 2008-01-01 Este trabajo Premio ASEDA 2008 trata de plantear interrogantes sobre el objeto de la propiedad intelectual que es protegible como el arte quiere acercarse al Derecho para obtener el cobijo del monopolio normativo y finalmente como dichas cuestiones tienen reflejo en la esfera judicial española y de los países de nuestro entorno **Las nuevas fronteras de la desigualdad** Margaret Maruani, 2000 Se recogen trabajos de diferentes especialistas que exploran las nuevas fronteras de la desigualdad entre hombres y mujeres que todavía siguen existiendo en el mundo laboral

Inteligencia Evolutiva: Una Jornada Hacia Nuevas Fronteras Rubén G. Martínez, 2012-11-29 Este libro contiene cinco partes principales que tratan temas desde nuestro origen como especie humana hasta nuestro sistema político y económico actual en América usando principios científicos éticos lógicos y de sentido común práctico *Del CAD al metaverso: nuevas fronteras de la ingeniería civil* Eugenio Tamez González, 2025-09-12 Eugenio Tamez González En un contexto donde la ingeniería civil se enfrenta a retos innovadores este libro aborda cómo el sector puede evolucionar para satisfacer las demandas del futuro Del CAD al metaverso se erige como una guía esencial para ingenieros arquitectos y diseñadores que buscan entender el impacto de las tecnologías emergentes en su profesión A través de un análisis crítico se examina la transición del diseño asistido por computadora CAD hacia entornos virtuales inmersivos como el metaverso y su influencia en nuestra concepción y construcción del entorno El texto profundiza en aspectos clave de la transformación digital dentro de la ingeniería civil evaluando herramientas tecnológicas contemporáneas y su aplicación en proyectos reales Con un enfoque interdisciplinario se entrelazan conceptos de arquitectura urbanismo y sostenibilidad para ofrecer una perspectiva integral sobre cómo estas innovaciones pueden facilitar un desarrollo más eficiente y responsable Además incluye estudios de caso que demuestran cómo empresas líderes están implementando estas herramientas para optimizar sus procesos creativos y constructivos *Chicano Nations* Marissa K. López, 2011 Chicano Nations argues that the transnationalism that is central to Chicano identity originated in the global postcolonial moment at the turn of the nineteenth century rather than as an effect of contemporary economic conditions which began in the mid nineteenth century and primarily affected the labouring classes The Spanish empire then began to implode and colonists in the new world debated the national contours of the viceroyalties This is where Marissa K Lopez locates the origins of Chicano literature which is now and always has been post national encompassing the wealthy the poor the white and the mestizo Tracing the long history of Chicano literature and the diversity of subject positions it encompasses Chicano Nations explores the shifting literary forms authors have used to write the nation from the nineteenth to the twenty first centuries Lopez argues that while national and global tensions lie at the historical heart of Chicano narratives of the nation there should be alternative ways to imagine the significance of Chicano literature other than as a reflection of national identity In a nuanced analysis the book provides a way to think of early writers as a

meaningful part of Chicano literary history and in looking at the nation rather than the particularities of identity as that which connects Chicano literature over time it engages the emerging hemispheric scholarship on U S literature

CINE Y FRONTERA Graciela Martínez-Zalce, Juan Carlos Vargas, 2014-05-13 Los estudios sobre la frontera en sus acepciones geográfica y simbólica se han renovado a partir de los años noventa en parte debido a los cambios sociales generados por la circulación transnacional de productos culturales y la globalización Desde el ámbito de los estudios culturales por ejemplo se exploran con nuevos ojos temas como el espacio la migración el exilio la diáspora la hibridación cultural o las nuevas geografías y nos llevan a cuestionar los conceptos tradicionales de Estado y nación En el campo de la investigación cinematográfica el concepto de frontera cobra en nuestros días una importancia considerable Desde las perspectivas más amplias hasta los estudios de caso en este libro se ofrecen diversas visiones frías y heterogéneas de su objeto y abren senderos para posteriores incursiones en el tema

A propósito del turismo Salvador Anton Clavé, Francesc González Reverté, 2008 Este libro ofrece una lectura en clave positiva del papel del turismo en la sociedad contemporánea El guiño expositivo de la obra gira acerca de dos elementos clave la figura del turista auténtico protagonista de la práctica turística pero un desconocido para la ciencia social más allá de los análisis de mercado y los lugares turísticos espacios donde se desarrolla esta práctica y que se construyen y reconstruyen bajo su influencia

Fronteras en movimiento María del Rosío Barajas Escamilla, Sergio Alonso Snadoval Godoy, 2024-12-16 Las reconfiguraciones y funciones de las fronteras en las últimas décadas no pueden entenderse al margen de la globalización Este fenómeno macrosocial cobró fuerza después de la primera mitad del siglo XX y ha mostrado limitaciones analíticas desde el inicio del siglo XXI en parte por los esfuerzos de las regiones fronterizas por desarrollar sus propios modelos de desarrollo Para gestionar la importancia de estas reconfiguraciones surge el concepto de gobernanza transfronteriza que también ha revelado limitaciones analíticas debido a la complejidad de la negociación entre actores en la interacción multinivel Este libro recoge el esfuerzo de investigadores e investigadoras de diversas instituciones nacionales y extranjeras ofreciendo un análisis comprensivo de las transformaciones del siglo XXI en las fronteras para lo cual se utilizan categorías binarias como integración desintegración fronterización desfronterización y cooperación conflicto para explicar procesos y dinámicas socioterritoriales Los enfoques presentados constituyen una herramienta práctica para estudiosos e interesados en las regiones fronterizas lo que permite observar las características y orientación de los cambios recientes y ofrecer una perspectiva analítica teórica conceptual novedosa

Estudios (nuevos y viejos) sobre la frontera Salvador Bernabéu Albert, Francisco de Solano, 1991

Nuevas perspectivas desde, sobre América Latina Mabel Moraña, 2000 El tema de la violencia es connatural a la historia de América Latina y por lo mismo resulta inagotable en cualquiera de sus múltiples manifestaciones materiales y simbólicas desde los orígenes coloniales hasta la actualidad A nivel continental la praxis y el discurso de la violencia pueden perseguirse desde la penetración de la depredación colonizadora con que América Latina es inscrita en el desarrollo cultural de Occidente hasta llegar a las más recientes y sutiles formas asumidas por la violencia de

Estado pasando por las instancias de imposición de modelos culturales y económicos que en las distintas épocas impactaron radicalmente las culturas criollas y vernáculas. América Latina ha sufrido históricamente las consecuencias de una violencia fundacional que la condenó a una posición periférica con respecto a sistemas globales cuyos centros han difundido en sus correspondientes áreas de influencia la racionalidad de su propia reproducción cultural política y económica. De esta manera la trama social que resultó de la matriz colonialista registró desde el comienzo las huellas imborrables de la violencia que se manifestó tanto a nivel racial como económico tanto en lo referido a las políticas de género como en lo relacionado con la distribución geocultural del poder en todos sus niveles. Las dolorosas repúblicas hispanoamericanas de que hablaba Martí se han debatido desde entonces contra las formas naturalizadas de la violencia de la exclusión y el autoritarismo, la miseria interna y la depredación imperialista, la penetración cultural, las intervenciones políticas siempre amparadas en la retórica legitimadora que las clases dominantes esgrimieron en cada caso para perpetuar su poder. El presente volumen que compila trabajos que fueron presentados y discutidos en la Segunda Conferencia Internacional de Estudios Culturales Latinoamericanos que se llevó a cabo en la Universidad de Pittsburgh en marzo del año 2000 tiene como foco principal una articulación específica en torno al tema de la violencia contemporánea, la que analiza los cruces y formas específicas en que la violencia se manifiesta teniendo como escenario principal los centros urbanos de América Latina y las modalidades a partir de las cuales el fenómeno de la violencia es recogido y re-presentado por los medios de comunicación de masas tanto como por la cultura popular, el arte, la literatura y otras formas de discurso, letras y la alta cultura. The theme of violence is natural to the history of Latin America and therefore it is endless in any of its multiple material and symbolic manifestations from its colonial origins to the present. At a continental level the praxis and discourse of violence can be traced back to the spread of the colonising voracity that conditioned Latin America within the cultural development of the West followed by the most recent and subtle forms assumed by state violence including the instances of imposition of cultural and economic models that at the different times radically impacted the Creole and vernacular cultures. Thus Latin America has historically suffered the consequences of a founding violence which condemned it to a peripheral position in relation to global systems which centres have spread in their corresponding areas of influence the rationality of their own cultural, political and economic replication. In this way the social fabric resulting from the colonialist matrix has recorded from the beginning the indelible traces of violence that are displayed both at racial and economic levels both in terms of gender policies and in terms of the geocultural distribution of power at all levels. The painful Spanish American republics of which Martí spoke have since fought against the normalisation of the violence of exclusion and authoritarianism, the internal misery and imperialistic greed, the cultural colonisation and political actions always condoned by a legitimising rhetoric that the ruling classes wielded in every instance to perpetuate their power. This volume which compiles papers that were presented and discussed at the Second International Conference on Latin American Cultural Studies to be held at the University of Pittsburgh in March 2000 has as its main focus

a specific articulation around the topic of contemporary violence it analyses the intersections and specific ways in which violence presents itself in the urban centres of Latin America as its main scenario and the modalities from which the phenomenon of violence is recorded and represented by the mass media as well as popular culture art literature and other forms of literary discourse and high culture

Hispanic Balladry Today Ruth H. Webber, 2020-03-09 First published in 1989 The ballad or romance as it is commonly called has played a vital role over the centuries in Hispanic culture as an orally transmitted narrative song It is characteristically the product of people who have had to look to themselves for entertainment From the end of the fifteenth to the early seventeenth century the romancero balladry enjoyed a great vogue among learned poets and their audiences especially in the Spanish and Portuguese courts The authors intent in this book is to survey and to assess the state of the romancero not only in Spain and Portugal but also in peripheral areas where it has migrated and taken root

Anatomía de la frontera Juan Carlos Velasco Arroyo, 2025-02-27 En la época de la globalización del triunfo de Internet y de las redes sociales las fronteras se presentan a veces como secuelas de tiempos pretéritos a las que habrá que jubilar de manera definitiva Otras veces en cambio emergen más inhiestas que nunca sobre la corteza terrestre Estas dos

percepciones conviven simultáneamente aunque con vigor mutante a veces sus atributos aparecen como obsoletos y al poco dan muestra de un esplendor inusitado. El espíritu de los tiempos se ha vuelto ambivalente y sopla en direcciones decididamente contrapuestas en lo concerniente a las fronteras territoriales que son objeto de elogios y diatribas expresiones de dos hemisferios equivalentes.

Revisiting Education in the New Latino Diaspora Edmund Hamann, Stanton Wortham, Enrique G. Murillo, 2015-04-01

For most of US history most of America's Latino population has lived in nine states California Arizona New Mexico Colorado Texas Illinois Florida New Jersey and New York. It follows that most education research that considered the experiences of Latino families with US schools came from these same states. But in the last 30 years Latinos have been resettling across the US attending schools and creating new patterns of inter ethnic interaction in educational settings. Much of this interaction with this New Latino Diaspora has been initially tentative and improvisational but too often it has left intact the patterns of lower educational success that have prevailed in the traditional Latino diaspora.

Revisiting Education in the New Latino Diaspora is an extensive update with all new material of the groundbreaking volume Education in the New Latino Diaspora Ablex Publishing that these same editors produced in 2002. This volume consciously includes a number of junior scholars e.g. C. Allen Lynn Soria Colomer Amanda Morales Rebecca Lowenhaupt Adam Sawyer and more established ones Frances Contreras Jason Irizarry Socorro Herrera Linda Harklau as it considers empirical cases from Washington State to Georgia from the Mid Atlantic to the Great Plains where rural suburban and urban communities start their second or third decades of responding to a previously unprecedented growth in newcomer Latino populations. With excuses of surprise and improvisational strategies less persuasive as Latino newcomer populations become less new this volume considers the persistence the anomie and pragmatism of Latino newcomers on the one hand with the variously enlightened paternalistic dismissive and xenophobic responses of educators and education systems on the other. With foci as personal as accounts of growing up as an adoptee in a mixed race family and the testimonio of a successful undocumented college graduate to the macro scale of examining state level education policies and with an age range from early childhood education to the university level this volume insists that the worlds of education research and migration studies can both gain from considering the educational responses in the last two decades to the newish Latino presence in the 41 US states that have not long been the home to large well established Latino populations but that now enroll 2.5 million Latino students in K-12 alone. Timely and compelling Revisiting Education in the NLD offers new insight into the Latino Diaspora in the US just as the discussions regarding immigration policy bilingual education and immigrant rights are gaining steam. Drawing from a variety of perspectives contributing authors interrogate the very concept of the diaspora. The wide range of research in this volume thoughtfully illustrates the nuanced phenomena and provides rich descriptions of complex situations. No longer a simple question of immigration the book considers language and legal status in schools international adoption teacher preparation and the relationships between established and relatively new Latino communities in a variety of contexts.

Comprised of rich thoughtful research *Revisiting Education* provides a fascinating window into the context of Latino reception nationwide Rebecca M Callahan Associate Professor University of Texas Austin As the leader of a 10 years and counting research study in Mexico that has identified and interviewed transnationally mobile students with prior experience in U S schools I can affirm that in addition to students with backgrounds in California Arizona Texas and Colorado migration links now join schools in Georgia Minnesota Oklahoma Alabama etc to schools in Mexico For that reason and many others I am excited to see this far ranging interdisciplinary new text that considers policy implementation through lenses as different as teacher preparation Latino adoption into culturally mixed families the fate of Latino newcomers in low density districts where there are few like them and the misuse of Spanish teachers as interpreters This is an relevant book for American educators and scholars but also for readers beyond U S borders Hamann Wortham Murillo and their contributors should be celebrated for this fine new collection Dr V ctor Z iga Dean of Research and Extension Universidad de Monterrey New Generic Technologies in Developing Countries M.R.
