Number Keystage Two Photocopiables:

Maths Mastery Reasoning: Photocopiable Resources KS2 John Bee, 2020-07-23 Maths Mastery Reasoning Teacher Resources KS2 contains a wealth of practical ideas and photocopiable resources to promote reasoning using precise mathematical vocabulary and stem sentences. It will enable teachers to explicitly teach children how to reason so they can answer questions such as Which skills do I need to complete the task? How can I explain my thinking? What vocabulary do I need to use? Covering all areas of the primary maths curriculum including decimals and percentages, algebra, geometry and statistics, each photocopiable activity enables pupils to practise key skills and make links to the maths they are using. Many of the activities can be completed using a concrete, pictorial and abstract CPA approach to teaching maths. Written by experienced teacher John Bee, this must-have resource is ideal for teachers just starting on the maths mastery journey or for more experienced teachers who need some fresh input and ideas. This unique book will engage pupils in lively debate when they hypothesise, agree, criticise and prove their learning around key mathematical concepts. A companion book for Key Stage 1 is also available. Please note that the PDF eBook version of this book cannot be printed or saved in any other format. It is intended for use on interactive whiteboards and projectors only.

Science Assessment Key Stage 2 Ron Adams, 1997 A practical teacher's resource providing a bank of photocopiable sheets covering the complete programme of study, allowing for retesting or for children to work alongside each other with different sheets. It is also intended as a diagnostic aid to help shape future teaching plans.

Coordinating English at Key Stage 2 Tony Martin, Mick Waters, 2003-09-02 Specifically designed for busy teachers who have responsibility for co-ordinating English within their primary school, this concise and practical volume provides a wealth of tips, case studies and photocopiable materials.

Errors and Misconceptions in Maths at Key Stage 2 Mike Spooner, 2012-07-26 The activities in this book are designed both to help children to learn and to understand math concepts and also to prepare them for taking SATS papers at KS2. There is plenty of research evidence to suggest that children are helped in their understanding of math problems if teachers focus on common misconceptions and if children are given opportunities for discussion and explanation of their own understanding. Children can also feel stigmatized by being made to focus on their own errors. Mike Spooner has developed activities that present already completed work which children then assess, correct and discuss. In this way, they can analyze mistakes without damage to their own self-esteem. The activities are presented in the same format as the SATS papers to give children practice in coping with that format. The book also contains writing frames that children can use to structure their discussions of math problems.

Supporting Key Stage 2 and 3 Dyslexic Pupils, their Teachers and Support Staff Sally Raymond, 2014-09-15 I have found Sally Raymond's worksheets ideally suited for use with pupils in need of focussed literacy development materials. They find them varied and accessible with opportunities to include personal interests and topics.
