William Thomas Allison

Nuremberg And Vietnam An American Tragedy:

Nuremberg and Vietnam Telford Taylor,1970 **Legacy of a War** Ellen Frey-Wouters,2020-10-28 A survey examines American attitudes toward the Vietnam War and the experiences and ideas that turned most people against the war *The Vietnam War and International Law, Volume 4* Richard A. Falk,2015-03-08 This concluding volume of *The Vietnam War and International Law* focuses on the last stages of America's combat role in Indochina. The articles in the first section deal with general aspects of the relationship of international law to the Indochina War. Sections II and III are concerned with the adequacy of the laws of war under modern conditions of combat and with related questions of individual responsibility for the violation of such laws. Section IV deals with some of the procedural issues related to the negotiated settlement of the war. The materials in Section V seek to reappraise the relationship between the constitutional structure of the United States and the way in which the war was conducted while the final section presents the major documents pertaining to the end of American combat involvement in Indochina. A supplement takes account of the surrender of South Vietnam in spring 1975. Contributors to the volume: lawyers, scholars, and government officials include Dean Rusk, Eugene V. Rostow, Richard A. Falk, John Norton Moore, and Richard Wasserstrom. Originally published in 1976, *The Princeton Legacy Library* uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905. **Vietnam** John Prados,2009 The first major synthesis of the war since 2001, drawing upon a host of newly declassified documents, presidential tapes, and overlooked foreign sources to give the most comprehensive look to date of the war that still haunts America.

Conversations with Directors Elsie M. Walker, David T. Johnson,2008 Ultimately *Conversations with Directors* will prove to be an invaluable resource to both scholars and film fans who are eager to gain further insight into these directors and their work. **BOOK JACKET** *Essential Chomsky* Noam Chomsky, Anthony Arnone,2010-01-11 In a single volume the seminal writings of the world's leading philosopher, linguist, and critic published to coincide with his eightieth birthday. For the past forty years, Noam Chomsky's writings on politics and language have established him as a preeminent public intellectual and as one of the most original and wide-ranging political and social critics of our time. Among the seminal figures in linguistic theory over the past century, since the 1960s Chomsky has also secured a place as perhaps the leading dissident voice in the United States. Chomsky's many bestselling works, including *Manufacturing Consent*, *Hegemony or Survival*, *Understanding Power*, and *Failed States*, have served as essential touchstones for dissidents, activists, scholars, and concerned citizens on subjects ranging from the media to human rights to intellectual freedom. In particular, Chomsky's scathing critiques of the U.S. wars in Vietnam, Central America, and the Middle East have furnished a widely accepted intellectual inspiration for antiwar

movements over nearly four decades The Essential Chomsky assembles the core of his most important writings including excerpts from his most influential texts over the past forty years Here is an unprecedented comprehensive overview of Chomsky s thought

Why Vietnam Margaret Colbert Brown,2025-03-30 Explores the complex reasons behind the USA s involvement in Vietnam analyzing political social and military factors The reasons behind the USA s involvement in Vietnam remain a subject of extensive debate Initially America supported the French until their defeat at Dien Bien Phu which then shifted to backing the South Vietnamese government due to fears of communism spreading throughout Southeast Asia Why Vietnam delves into the myriad reasons for US involvement examining theories that date back to 1918 when Woodrow Wilson ignored Ho Chi Minh s plea for independence at the Treaty of Versailles through to Johnson s full commitment to the undeclared war which restrained the military to a defensive role in protecting South Vietnam instead of an offensive one that would send troops across the DMZ into Laos and Cambodia The questions of why the USA became involved whether their involvement was justified and if the war was ever winnable have been fiercely debated for over 50 years This book seeks to address these whys by providing a thorough examination of all contributing factors from presidential actions to foreign policy and the social and political climates of the war era

Homeland Fascism Herman Schwendinger,Julia Schwendinger,2016-06-23 It can t happen here This has been the prevailing sentiment about the possible emergence of fascism in the United States since the rise of international fascism in the 1930s Yet there are signs that it may already be happening and at the highest levels of government In their copiously researched and documented work the Schwendingers outline the structural transformations policies and practices that raise the prospect of fascist governance in the 21st Century United States They show that a homeland fascism has significant supports within the framework of American liberal democracy This is an important analysis in a context in which concerns about fascist demagoguery and far right mobilization appear to be growing in the US and beyond

Tale of Two Quagmires Kenneth J. Campbell,Richard A. Falk,2015-12-03 Is Iraq becoming another Vietnam Author Kenneth Campbell received a Purple Heart after serving 13 months in Vietnam He then spent years campaigning to get the US out of the war Here Campbell lays out the political similarities of both wars He traces the chief lessons of Vietnam which helped America successfully avoid quagmires for thirty years and explains how neoconservatives within the Bush administration cynically used the tragedy of 9 11 to override the Vietnam syndrome and drag America into a new quagmire in Iraq In view of where the U S finds itself today unable to stay but unable to leave Campbell recommends that America re dedicate itself to the essential lessons of Vietnam the danger of imperial arrogance the limits of military force the importance of international and constitutional law and the power of morality

Vietnam Awakening Michael Uhl,2014-11-29 In this vividly honest memoir author Michael Uhl details his experiences in Vietnam as first lieutenant of a counterintelligence team attached to the 11th Infantry Referencing his personal journal and wartime correspondence with friends and family the author relives the most shocking events that he witnessed during his military

service including the abuse and torture of several Vietnamese civilians In Part Two the author outlines his years as an activist with the veterans movement against the Vietnam War *Tours of Vietnam* Scott Laderman,2009-01-16 An argument that tourist literature and U S military guides have shaped Americans understanding of Vietnam and projections of U S power since the mid twentieth century **A Violent Peace** Christine Hong,2020-08-11 A Violent Peace offers a radical account of the United States transformation into a total war state As the Cold War turned hot in the Pacific antifascist critique disclosed a continuity between U S police actions in Asia and a rising police state at home Writers including James Baldwin Ralph Ellison and W E B Du Bois discerned in domestic strategies to quell racial protests the same counterintelligence logic structuring America s devastating wars in Asia Examining U S militarism s centrality to the Cold War cultural imagination Christine Hong assembles a transpacific archive placing war writings visual renderings of the American concentration camp Japanese accounts of the atomic bombing of Hiroshima black radical human rights petitions Korean War era G I photographs Filipino novels on guerrilla resistance and Marshalllese critiques of U S human radiation experiments alongside government documents By making visible the way the U S war machine waged informal wars abroad and at home this archive reveals how the so called Pax Americana laid the grounds for solidarity imagining collective futures beyond the stranglehold of U S militarism **Vietnam** George Donelson Moss,2016-07-01 This book provides a comprehensive narrative history of U S involvement in Southeast Asia from 1942 to 1975 with a concluding section that traces U S Vietnam relations from the end of the war in 1975 to the present Unlike most general histories of U S involvement in Vietnam which are either conventional diplomatic or military histories this volume synthesizes the perspectives to explore both dimensions of the struggle in greater depth elucidating more of the complexities of the U S Vietnam entanglement It explains why Americans tried so hard for so long to stop the spread of Communism into Indochina and why they failed Key topics The Fall of Saigon The End as Prelude Vietnam A Place and A People The Elephant and the Tiger An Experiment in Nation Building Raising the Stakes Going to War The Chain of Thunders The Year of the Monkey A War to End a War The End of the Tunnel Market For anyone curious to know about the long American involvement in Southeast Asia 1942 1975 Victimhood Nationalism Jie-Hyun Lim,2025-04-01 Nationalism today depends on the perception of victimhood The historical memory of past suffering endows nationalist movements with political legitimacy and a sense of moral superiority Koreans recall Japanese colonial atrocities while Japan commemorates the atomic bombings of Hiroshima and Nagasaki Israel sanctifies the Holocaust and Poland trumpets the Nazi and Soviet occupations Even Germany and Russia perpetrators of historical crimes today cast themselves as victims by pointing to national suffering In this theoretically sophisticated and empirically rich book Jie Hyun Lim offers a new way to understand nationalism and its political instrumentalization of suffering developing the concept of victimhood nationalism and exploring it in a range of global settings He examines relations among Poland Germany Israel Korea and Japan focusing on how memories of colonialism the Holocaust and Stalinist terror have converged and intertwined in

transnational spaces With an emphasis on memory formation Lim scrutinizes how perpetrators in Germany and Japan transformed themselves into victims as well as how nationalists in Poland Korea and Israel portray themselves as hereditary victims in order to rebut external criticism He considers the construction of nations as victims and perpetrators tracing the interaction of history and memory Ultimately the book contends challenging victimhood nationalism is necessary to overcome the endless competition over national suffering and instead promote reconciliation mutual understanding and transnational solidarity *Memory in a Global Age* A. Assmann, S. Conrad, 2010-07-21 A significant contribution to memory studies and part of an emergent strand of work on global memory This book offers important insights on topics relating to memory globalization international politics international relations Holocaust studies and media and communication studies

Military Justice in Vietnam William Thomas Allison, 2007 A concise look at how military justice during the Vietnam War served the dual purpose of punishing U S soldiers crimes and infractions while also serving the important role of promoting core American values democracy and rule of law to the Vietnamese **Humane** Samuel Moyn, 2021-09-07 A brilliant new book Humane provides a powerful intellectual history of the American way of war It is a bold departure from decades of historiography dominated by interventionist bromides Jackson Lears The New York Review of Books A prominent historian exposes the dark side of making war more humane In the years since 9 11 we have entered an age of endless war With little debate or discussion the United States carries out military operations around the globe It hardly matters who's president or whether liberals or conservatives operate the levers of power The United States exercises dominion everywhere In Humane How the United States Abandoned Peace and Reinvented War Samuel Moyn asks a troubling but urgent question What if efforts to make war more ethical to ban torture and limit civilian casualties have only shored up the military enterprise and made it sturdier To advance this case Moyn looks back at a century and a half of passionate arguments about the ethics of using force In the nineteenth century the founders of the Red Cross struggled mightily to make war less lethal even as they acknowledged its inevitability Leo Tolstoy prominently opposed their efforts reasoning that war needed to be abolished not reformed and over the subsequent century a popular movement to abolish war flourished on both sides of the Atlantic Eventually however reformers shifted their attention from opposing the crime of war to opposing war crimes with fateful consequences The ramifications of this shift became apparent in the post 9 11 era By that time the US military had embraced the agenda of humane war driven both by the availability of precision weaponry and the need to protect its image The battle shifted from the streets to the courtroom where the tactics of the war on terror were litigated but its foundational assumptions went without serious challenge These trends only accelerated during the Obama and Trump presidencies Even as the two administrations spoke of American power and morality in radically different tones they ushered in the second decade of the forever war Humane is the story of how America went off to fight and never came back and how armed combat was transformed from an imperfect tool for resolving disputes into an integral component of the modern condition As

American wars have become more humane they have also become endless This provocative book argues that this development might not represent progress at all

Not a Gentleman's War Ron Milam, 2009-10-15 Wars are not fought by politicians and generals they are fought by soldiers Written by a combat veteran of the Vietnam War Not a Gentleman's War is about such soldiers a gritty against the grain defense of the much maligned junior officer Conventional wisdom holds that the junior officer in Vietnam was a no talent poorly trained unmotivated soldier typified by Lt William Calley of My Lai infamy Drawing on oral histories after action reports diaries letters and other archival sources Ron Milam debunks this view demonstrating that most of the lieutenants who served in combat performed their duties well and effectively serving with great skill dedication and commitment to the men they led Milam's narrative provides a vivid on the ground portrait of what the platoon leader faced training his men keeping racial tensions at bay and preventing alcohol and drug abuse all in a war without fronts Yet despite these obstacles junior officers performed admirably as documented by field reports and evaluations of their superior officers More than 5 000 junior officers died in Vietnam all of them had volunteered to lead men in battle Based on meticulous and wide ranging research this book provides a much needed serious treatment of these men the only such study in print shedding new light on the longest war in American history

Shaping US Military Law Joshua E. Kastenberg, 2016-04-01 Since the United States entry into World War II the federal judiciary has taken a prominent role in the shaping of the nation's military laws Yet a majority of the academic legal community studying the relationship between the Court and the military establishment argues otherwise providing the basis for a further argument that the legal construct of the military establishment is constitutionally questionable Centering on the Cold War era from 1968 onward this book weaves judicial biography and a historic methodology based on primary source materials into its analysis and reviews several military law judicial decisions ignored by other studies This book is not designed only for legal scholars Its intended audience consists of Cold War military and political historians as well as political scientists and military and national security policy makers Although the book's conclusions are likely to be favored by the military establishment the purpose of this book is to accurately analyze the intersection of the later twentieth century's American military political social and cultural history and the operation of the nation's armed forces from a judicial vantage

Prosecuting International Crimes Robert Cryer, 2005-06-30 This 2005 book discusses the legitimacy of the international criminal law regime It explains the development of the system of international criminal law enforcement in historical context from antiquity through the Nuremberg and Tokyo Trials to modern day prosecutions of atrocities in the former Yugoslavia Rwanda and Sierra Leone The modern regime of prosecution of international crimes is evaluated with regard to international relations theory The book then subjects that regime to critique on the basis of legitimacy and the rule of law in particular selective enforcement not only in relation to who is prosecuted but also the definitions of crimes and principles of liability used when people are prosecuted It concludes that although selective enforcement is not as powerful as a critique of international criminal law as it

was previously the creation of the International Criminal Court may also have narrowed the substantive rules of international criminal law

This is likewise one of the factors by obtaining the soft documents of this **Nuremberg And Vietnam An American Tragedy** by online. You might not require more epoch to spend to go to the books foundation as well as search for them. In some cases, you likewise attain not discover the revelation Nuremberg And Vietnam An American Tragedy that you are looking for. It will very squander the time.

However below, considering you visit this web page, it will be consequently completely simple to acquire as without difficulty as download lead Nuremberg And Vietnam An American Tragedy

It will not assume many get older as we tell before. You can reach it even though act out something else at home and even in your workplace. in view of that easy! So, are you question? Just exercise just what we find the money for under as skillfully as review **Nuremberg And Vietnam An American Tragedy** what you when to read!
