RN FAAN is a leader in nursing education and nursing administration. She is widely sought as a consultant for academic administration in universities and for nursing education programs. Prior to her graduate education, Dr. Chaska held numerous clinical and administrative positions in every specialized area of nursing for a total of 15 years of experience in nursing practice. She has had 22 years of experience in nursing education and academic administration. Throughout her academic career, Dr. Chaska has drawn extensively from her clinical background and experience in services and research settings. A major concern in all of her work is the evolution of nursing as a profession. The purpose of this new volume is to provide an in-depth global scope and study of nursing as a profession. Specifically, its aim is to project patterns of thought and considerations about the current state of nursing into the future of the 21st Century. The content should cause the reader to reflect, consider, and dialogue regarding the various paths presented to articulate his or her goals for the profession to go forward.

Pharmacology for the Primary Care Provider - E-Book Marilyn Winterton Edmunds, Maren Stewart

Mayhew, 2013-07-01. Written by and for nurse practitioners and also suitable for physician assistants. *Pharmacology for the Primary Care Provider*, 4th Edition, focuses on what you need to know to safely and effectively prescribe drugs for primary care. An emphasis on patient teaching helps you gain patient adherence to prescribed drug regimens and guidelines for health promotion help in maintaining and improving your patients' health. Now in full color, this edition expands the book's emphasis on the QSEN priorities of safety and evidence-based practice and adds coverage of new drugs, new drug classes, and new therapeutic drug uses. Written by leading nurse practitioner authorities, Marilyn Winterton Edmunds and Maren Stewart Mayhew, *Pharmacology for the Primary Care Provider* teaches principles of pharmacotherapeutics using today's most commonly used drugs. A Key Drugs focus highlights the most commonly used and most representative drugs of each major drug class, with particular emphasis on the top 100 most commonly prescribed drugs. Emphasis on patient teaching helps you communicate with patients and family caregivers to promote adherence to the drug regimen. Emphasis on health promotion describes how to help patients stay well and improve their health, including coverage of immunizations and biologicals, vitamins, weight management, and smoking cessation. Evidence-Based Decision Making and Treatment Guidelines, chapter 11, provides practical guidelines for using the best current research evidence to make decisions about the care of individual patients. Extensive coverage of drug therapy for special populations, such as geriatric and pediatric patients, includes considerations related to age, pregnancy, race, and other factors. UNIQUE Coverage of prescriptive practice includes topics such as prescriptive authority, role implementation, and the role of nurses, NPs, CNMs, CRNAs, and CNSs and physician assistants in writing prescriptions. NEW Full color design and illustrations highlight the most important content. DRUG UPDATES reflect the latest FDA-approved drugs, drug classes, and therapeutic uses. Expanded emphasis on the QSEN priorities of safety and evidence-based practice helps you eliminate drug prescribing errors with color-highlighted Safety Alerts and NEW Clinical Practice Alerts. NEW section on male hormone replacement therapies adds coverage of men to that

for women Updated evidence based prescribing information reflects the latest national clinical practice guidelines and evidence based treatment guidelines including the latest clinical treatment guidelines for diabetes NEW Complementary and Alternative Products tables highlight interactions with drugs and are emphasized with a distinctive icon Updated Drug Overview tables are enhanced with color as well as Top 100 icons that highlight the most commonly prescribed drugs

Nurse-midwifery Laura Elizabeth Ettinger,2006 In a unique and detailed historical study Nurse Midwifery The Birth of a New American Profession Laura E Ettinger fills a void with the first book length documentation of the emergence of American nurse midwifery This occupation developed in the 1920s involving nurses who took advanced training in midwifery In Nurse Midwifery Ettinger shows how nurse midwives in New York City eastern Kentucky Santa Fe New Mexico and other places both rebelled against and served as agents of a nationwide professionalization of doctors and medicalization of childbirth Nurse Midwifery reveals the limitations that nurses physicians and nurse midwives placed on the profession of nurse midwifery from the outset because of the professional interests of nursing and medicine The book argues that nurse midwives challenged what scholars have called the male medical model of childbirth but the cost of the compromises they made to survive was that nurse midwifery did not become the kind of independent autonomous profession it might have been
