Opening My Heart Tilda Shalof, 2012-05-01

Tilda Shalof had been taking care of critically ill patients in an intensive care unit for more than twenty five years but taking care of herself had never been a priority That is until she could no longer ignore her extreme fatigue shortness of breath and crushing chest pains When the results came in it was time to face the music Tilda required immediate open heart surgery to replace a defective valve and to repair damage done to this vital organ Tilda's story takes readers from the diagnosis through all her fears and concerns the or her stay in the ICU the cardiac ward recovery at home rehabilitation and ultimately her

return to work in the hospital armed with new insights on the patient's perspective. She learned more in her week-long stay as a patient than in all her years caring for the critically ill, especially about trust and working in partnership with her caregivers. In *Opening My Heart*, Shalof expertly weaves recollections from her career and accounts of other nurses' experiences into her own story, creating the perfect marriage between fascinating clinical detail and a personal journey of healing. Throughout it all is Shalof's warm, friendly voice and humorous outlook. Nurses everywhere and anyone who's ever been a hospital patient or who is currently hospitalized or who might be one day and those who love them will be empowered, enlightened, comforted, and entertained by this book. ***Hospital Land USA*** Wendy Simonds, 2016-11-03 In *Hospital Land USA*, Wendy Simonds analyzes the wide-reaching powers of medicalization, the dynamic processes by which medical authorities, institutions, and ideologies impact our everyday experiences, culture, and social life. Simonds documents her own *Hospital Land* adventures and draws on a wide range of U.S. cultural representations, from memoirs to medical mail, from hospital signs to disaster movies, in order to urge critical thinking about conventional notions of care, health, embodiment, identity, suffering, and mortality. This book is intended for general readers, medical practitioners, undergraduate and graduate students in courses on medical sociology, medicine, medical ethics, nursing, public health, carework, visual culture, cultural studies, and gerontology. ***Bringing It Home*** Tilda Shalof, 2014-04-29 ICU nurse and bestselling author Tilda Shalof learns what nursing beyond the hospital really means. For the 350,000 professional nurses in Canada and 3 million in the US, readers of Atul Gawande's award-winning books and *The American Nurse* by Carole Jones. In her latest book, ICU nurse Tilda Shalof leaves the hospital behind to accompany the nurses who work in homes, from mansions to shacks to the streets, all across the country. Working with the Victorian Order of Nurses, a Canadian not-for-profit organization that provides home and community care, Tilda meets a wide variety of nursing professionals who offer untraditional care, sometimes in unlikely settings. This book not only describes a personal journey but it also brings to light new health care issues. North America is on the cusp of change as the needs of our aging population put pressure on our health care system; more people need care in their homes and community supports to stay well. Yet this book is not just about caring for our elderly. Tilda also discovers how nurses care for people with a home, living on the street, for teen parents, returning soldiers with PTSD, those with physical disabilities, sex trade workers, and complex pediatrics. Shalof tells her story with her usual engaging conversational style, and with this book, she continues to enlighten, surprise, and entertain readers. A portion of the proceeds from this book benefit The Victorian Order of Nurses. ***The Sage Handbook of Social Constructionist Practice*** Sheila McNamee, Mary M.
