Nurses In Nazi Germany:

Nurses and Midwives in Nazi Germany Susan Benedict, Linda Shields, 2014-04-24 This book is about the ethics of nursing and midwifery and how these were abrogated during the Nazi era Nurses and midwives actively killed their patients many of whom were disabled children and infants and patients with mental and other illnesses or intellectual disabilities The book gives the facts as well as theoretical perspectives as a lens through which these crimes can be viewed It also provides a way to teach this history to nursing and midwifery students and for the first time explains the role of one of the world's most historically prominent midwifery leaders in the Nazi crimes *Nurses in Nazi Germany* Bronwyn Rebekah

McFarland-Icke, 2020-11-10 This book tells the story of German nurses who directly or indirectly participated in the Nazis euthanasia measures against patients with mental and physical disabilities measures that claimed well over 100 000 victims from 1939 to 1945 How could men and women who were trained to care for their patients come to kill or assist in murder or mistreatment This is the central question pursued by Bronwyn McFarland Icke as she details the lives of nurses from the beginning of the Weimar Republic through the years of National Socialist rule Rather than examine what the Party did or did not order she looks into the hearts and minds of people whose complicity in murder is not easily explained with reference to ideological enthusiasm Her book is a micro history in which many of the most important ethical social and cultural issues at the core of Nazi genocide can be addressed from a fresh perspective McFarland Icke offers gripping descriptions of the conditions and practices associated with psychiatric nursing during these years by mining such sources as nursing guides personnel records and postwar trial testimony Nurses were expected to be conscientious and friendly caretakers despite job stress low morale and Nazi propaganda about patients having lives unworthy of living While some managed to cope with this situation others became abusive Asylum administrators meanwhile encouraged nurses to perform with as little disruption and personal commentary as possible So how did nurses react when ordered to participate in or tolerate the murder of their patients Records suggest that some had no conflicts of conscience others did as they were told with regret and a few refused The remarkable accounts of these nurses enable the author to re create the drama taking place while sharpening her argument concerning the ability and the willingness to choose **Nurses and Midwives in Nazi Germany** Susan

Sarnecky, 1999-11 Traces the history of the corps since its founding in 1901 A work essential to any study of the corps or military medicine Choice German Women's Life Writing

and the Holocaust Elisabeth Krimmer, 2018-09-20 This important study examines women's life writing about the Second World War and the Holocaust such as memoirs, diaries, docunovels and autobiographically inspired fiction. Through a historical and literary study of the complex relationship between gender, genocide and female agency, the analysis corrects androcentric views of the Second World War and seeks to further our understanding of a group that although crucial to the functioning of the National Socialist regime has often been overlooked: that of the complicit bystander. Chapters on army auxiliaries, nurses, female refugees, rape victims and Holocaust survivors analyze women's motivations for enlisting in the National Socialist cause as well as for their continuing support for the regime and in some cases their growing estrangement from it. The readings allow insights into the nature of complicity itself, the emergence of violence in civil society and the possibility of social justice.

Women as Wartime Rapists Laura Sjoberg, 2016-11-22 *Women as Wartime Rapists* reveals the stories of female perpetrators of sexual violence and their place in wartime conflict, legal policy and the punishment of sexual violence. Very few women are wartime rapists. Very few women issue commands to commit sexual violence. Very few women play a role in making war plans that feature the intentional sexual violation of other women. This book is about those very few women. More broadly, Laura Sjoberg asks what the actions and perceptions of female perpetrators of sexual violence reveal about our broader conceptions of war, violence, sexual assault and gender. This book explores specific historical case studies such as Nazi Germany, Serbia, the contemporary case of ISIS and others to understand how and why women participate in rape during war and conflict. Sjoberg examines the contrast between the visibility of female victims and the invisibility of female perpetrators as well as the distinction between rape and genocidal rape, which is used as a weapon against a particular ethnic or national group. Further, she explores women's engagement with genocidal rape and how some orchestrated the ethnic cleansing of entire regions. A provocative approach to a sensationalized topic, *Women as Wartime Rapists* offers important insights into not only the topic of female perpetrators of wartime sexual violence but to larger notions of gender and violence with crucial cultural, legal and political implications.

Experience and Expression Elizabeth Roberts Baer, Myrna Goldenberg, 2003 Publisher's description: The many powerful accounts of the Holocaust have given rise to women's voices and yet few researchers have analyzed these perspectives to learn what the horrifying events meant for women in particular and how they related to them. In *Experience and Expression* the authors take on this challenge, providing the first book-length gendered analysis of women and the Holocaust, a topic that is emerging as a new field of inquiry in its own right. The collection explores an array of fascinating topics: rescue and resistance, the treatment of Roma and Sinti women, the fate of female forced laborers, Holocaust politics, nurses at so-called euthanasia centers, women's experiences of food and hunger in the camps, the uses and abuses of Anne Frank and the representations of the Holocaust in art, film and literature in the postwar era.

Caring and Killing Thomas Foth, 2013-02-19 Under the Nazi regime in Germany a calculated killing of chronic mentally ill patients took place Nurses executed this program in their everyday practice However suspicions have been raised that psychiatric patients were also assassinated before and after the Nazi regime suggesting that the motives for these killings must be investigated within psychiatric practice itself This book highlights the mechanisms and scientific discourses in place that allowed nurses to perceive patients as unworthy of life This study analyzes patient records as inscriptions that actively intervene in interactions in institutions and that create a specific reality on their own accord The question is not whether the reality represented within the documents is true but rather how documents worked in institutions

and what their effects were It is shown how nurses were actively involved in the construction of patients identities and how these documentary identities led to the death of thousands of humans Russian and Soviet Health Care from an International Perspective Susan Grant,2017-02-20 This collection compares Russian and Soviet medical workers physicians psychiatrists and nurses and examines them within an international framework that challenges traditional Western conceptions of professionalism and professionalization through exploring how these ideas developed amongst medical workers in Russia and the Soviet Union Ideology and everyday life are examined through analyses of medical practice while gender is assessed through the experience of women medical professionals and patients Cross national and entangled history is explored through the prism of health care with medical professionals crossing borders for a number of reasons to promote the principles and advancements of science and medicine internationally to serve altruistic purposes and support international health care initiatives and to escape persecution Chapters in this volume highlight the diversity of experiences of health care but also draw attention to the shared concerns and issues that make science and medicine the subject of international discussion **Nursing History Review, Volume 14, 2006** Patricia D'Antonio, RN, PhD, FAAN,2005-11-21 Nursing History Review an annual peer reviewed publication of the American Association for the History of Nursing is a showcase for the most significant current research on nursing history Regular sections include scholarly articles over a dozen book reviews of the best publications on nursing and health care history that have appeared in the past year and a section abstracting new doctoral dissertations on nursing history Historians researchers and individuals fascinated with the rich field of nursing will find this an important resource The Good Samaritan Nurse in a Secular Age Teresa Lynch,2023-08-24 Christian and other nurses in the hostile modern and increasingly secular age may feel helpless in an environment that created the Liverpool Care Pathway LCP and continues to foster end of life care through sedation and dehydration The book aims to enlighten both health professionals and the public alike to their rights of conscience and knowledge of the needs of vulnerable patients whether related to ethical care or guidance and the law which can affect them Indifference to patients needs and suffering may be injurious to nurses health all of whom have a conscience This must be respected protected and used as a guide to truly care for the patient s benefit regardless of laws and professional pathways which may prove harmful to many vulnerable patients The questioning nurse on ethical issues and dilemmas needs consideration respect and support when attempting to act as the patient advocate Managers at all levels need to be aware of the concerns of front line nurses and to be mindful that recruitment and retention are both equally important factors for the quality of patient care and nurse morale and work satisfaction The NHS was a wonderful creation which is only as good as its staff at all levels Its managers and government ministers must remember that the more authority invested in them the more the accountability and transparency expected by both health professionals their patients and the public The Nazi Doctors and the Nuremberg Code : Human Rights in Human Experimentation George J. Mothers, Midwives, and Reproductive Labor in Interwar and Wartime Britain , Sandra Trudgen Dawson, 2024-01-26 Mothers Midwives and Reproductive Labor in Interwar and Wartime Britain is about the experiences of mothers and midwives as they navigated the changing political and social issues surrounding childbirth and motherhood during interwar and wartime Britain The needs and agency of women as mothers and midwives often conflicted with the ideals of the state While government officials understood the importance of safe childbirth to the nation they also chose to allow economic crises and war preparation to take precedence The interwar plans for a national maternal healthcare system met financial constraints and a lack of political will As the outbreak of the Second World War appeared imminent politicians planned for pregnant women and those with small children to evacuate from cities The reception areas were less well planned and pregnant women returned to their homes rather than deliver among strangers Wartime maternity provision didn't take into account the needs and desires of mothers and midwives Reproductive laborers mothers and midwives demonstrated agency throughout the period Pregnant women chose to deliver at home with untrained or trained birth attendants midwives entered and left the profession on their own terms offering or withholding their skills when it suited individual need rather than at the behest of government
