**Health and Exclusion** David Banks, Michael Purdy, 2005-08-08. Health and Exclusion is a pioneering examination of those policies and practices of exclusion currently experienced by health customers in the UK. Chapters document examples of exclusion in a number of controversial areas including the impact of poverty on the health of children, exclusion in maternity care, exclusion of those with mental health problems, exclusion of the elderly in health care, the silenced voice of the patient, barriers to recruitment and advancement within the health professions. The authors challenge whether New Labour policies sufficiently address the inequalities in health experienced by some sectors of society. Moreover, they suggest that health professionals at times actively contribute to exclusion and suggest strategies and practices to combat marginalisation and resist exclusion.

The Social Context of Health and Health Work Linda J. Jones, 1994-07-19. The Social Context of Health and Health Work breaks new ground by linking together sociology of health and social policy perspectives. Linda Jones argues that health and health work cannot be understood in isolation. Patterns of disease, illness, treatment and provision are crucially influenced by class, race, gender, age and disability. Conflicts over health policies reflect fundamental debates about the purpose of welfare. The writer draws on her specialist knowledge of developing and teaching nursing and health studies courses and on her recent experience of writing distance learning materials to create a book which encourages critical thinking and supports study.
