Race and Police Ben Brucato, 2023-09-15 In the United States race and police were founded along with a capitalist economy dependent on the enslavement of workers of African descent Race and Police builds a critical theory of American policing by analyzing a heterodox history of policing drawn from the historiography of slavery and slave patrols Beginning by tracing the historical origins of the police mandate in British colonial America the book shows that the peculiar institution of racialized chattel slavery originated along with a novel binary conception of race On one side for the first time Europeans from various nationalities were united in a single racial category Inclusion in this category was necessary for citizenship On the other Blacks were branded as slaves cast as social enemies and assumed to be threats to the social order The state determined not only that it would administer slavery but that it would regulate slaves authorizing the use of violence by agents of the state and white citizens to secure the social order In doing so slavery citizenship and police mutually informed one another and together they produced racial capitalism a working class defined and separated by the color line and a racial social order Race and Police corrects the Eurocentrism in the orthodox history of American police and in predominating critical theories of police That orthodoxy rests on an origin story that begins with Sir Robert Peel and the London Metropolitan Police Service Predating the Met by more than a century America's first

police often called slave patrols did more than maintain order it fabricated a racial order Prior to their creation all white citizens were conscripted to police all Blacks Their participation in the coercive control of Blacks gave definition to their whiteness Targeted as threats to the security of the economy and white society being policed defined Blacks who for the first time were treated as a single racial group The boundaries of whiteness were first established on the basis of who was required to regulate slaves given a specific mandate to prevent Black insurrection a mandate that remains core to the police role to this day
