President's Committee on Employment of the Physically Handicapped, 1955 **Periphery** Lynne Jamneck, 2012-05 Periphery is as much about the female perspective of the future as it is an exploration of individual identity in a world increasingly dominated by technology How do we define our humanity if not by the way we connect to others Yet even in the realm of the physical and the sensual technology continues to change perspectives on what it means to be human Through the stories collected in Periphery we experience the intersection between a number of possible futures and how we will continue to discover through our fallible emotions what it means to be human *The Last of the Angels* Fadhil al-Azzawi, 2008-07-22 From a legendary writer both beloved and banished by Iraq a fine work of Arabic literature in the vein of Naguib Mahfouz and Elias Khoury and a magical and moving comic novel about the birth of modern Iraq Kirkuk Iraq the 1950s The day Hameed Nylon loses his job and gains an unfortunate nickname is the day that his life begins dismissed as a chauffeur when rumors surface that he propositioned his British boss s posh tart wife Hameed finds his true calling as a revolutionary in an Iraq that is destined for a sea change Also bent on bucking the system is Hameed s brother in law the money scheming butcher Khidir Musa who runs off suddenly to Russia to find two brothers

who have been missing since World War I And the key to their fate is held by a seven year old boy Burhan Abdallah who stumbles upon an old chest in his attic that allows him to speak with three white robed old men beings who inform him that they are in fact angels

**Margaret Atwood's Aesthetics** Dunja M. Mohr, Kirsten Sandrock, 2025-03-31 Perhaps more timely than ever Margaret Atwood's Aesthetics offers novel perspectives on both contemporary and canonical topics in Margaret Atwood's work with a special focus on the intersections of literature and politics Arguably one of the most political writers of our times Atwood's oeuvre subtly and overtly entangles readers in the dialectics of personal and political power asymmetries intrinsic to her aesthetic practices The collection takes its cue from the concept of the artpolitical as coined by Crispin Sartwell whose afterword addresses Atwood's aesthetic and imaginative material world construction and explores the interrelationship between literatures and aesthetic as well as political systems in Atwood's works Individual chapters of Margaret Atwood's Aesthetics contribute to increasingly burning questions concerning the relevance of literature today by drawing on a variety of critical perspectives including Anthropocene studies gender intersectionality the nonhuman and the posthuman Mikhail Bakhtin's carnivalesque risk studies nationhood intermediality and teaching Chapters offer fresh views on some of Atwood's most prominent works such as The Handmaid's Tale and The Testaments and their transmedial adaptations while other chapters focus on Atwood's latest publications as well as on under researched works including her graphic novels and her web serialized publications Margaret Atwood's Aesthetics provides unique insights into the aesthetic and political power of Atwood's oeuvre arguing that literary and media representations and cultural adaptation practices contain a significant transformative potential that reaches beyond the page

*Peacemaker* Marianne De Pierres, 2014-04-29 When an imaginary animal from her troubled teenage years reappears Virgin takes it to mean one of two things a breakdown hers or a warning When the dead bodies start piling up around her and Nate she decides on the latter Something terrible is about to happen in the park and Virgin and her new partner are standing in its path Virgin Jackson is the senior ranger in Birrimun Park the world's last natural landscape overshadowed though it is by a sprawling coastal megacity She maintains public safety and order in the park but her bosses have brought out a hotshot cowboy to help her catch some drug runners who are affecting tourism She senses the company is holding something back from her and she's not keen on working with an outsider like Nate Sixkiller

**2204 00495 physics informed shallow machine learning for wind** - Apr 23 2022

web apr 1 2022 we train supervised learning algorithms using the past history of wind to predict its value at a future time horizon using data from a single location and time horizon we compare systematically several algorithms where we vary the input output variables the memory of the input and the linear vs non linear learning model

**frontiers applications of machine learning to wind engineering** - Jul 27 2022

web mar 16 2022 to reduce the demand for labelled data in ml applications to wind engineering both unsupervised learning and semi supervised learning including physics informed machine learning are promising alternatives to

**two supervised machine learning approaches for wind velocity** - Jun 25 2022

web sep 1 2020 of the two approaches we found that lstm proved to be the most capable supervised learning model during more capricious wind conditions and made competent windspeed predictions with an average root mean square error of 0.61 m/s averaged across two drones when trained on at least 20 min of flight data

**physics informed machine learning for wind speed prediction** - Sep 28 2022

web jan 7 2023 here we take an alternative data driven approach based on supervised learning we analyze massive datasets of wind measured from anemometers located at 10 m height in 32 locations in central and north west italy we train supervised learning algorithms using the past history of wind to predict its value at future horizons

an interdisciplinary machine learning approach for wind speed - Feb 19 2022

web wind speed forecasting for the specified heights using rnn lstm and gru ii the proposed computational models based on ai by supervised machine learning elucidate the wind speed behavior and allow accurate wind speed prediction at different anemometric heights e.g. 10, 0, 25, 70, 81, 80, 101, 80 m

learning based short term wind speed forecasting models for - Aug 28 2022

web sep 1 2023 based on historical study learning models are classified into two subclasses e.g. classical machine learning and advanced machine learning as shown in table 3 ordinary least square regression models deep learning and ensemble learning models have supervised learning models

*supervised machine learning in wind forecasting and ramp event* - Jul 07 2023

web supervised machine learning in wind forecasting and ramp event prediction provides an up to date overview on the

broad area of wind generation and forecasting with a focus on the role and need of machine learning in this emerging field of knowledge

supervised machine learning in wind forecasting and ramp - Oct 10 2023

web supervised machine learning in wind forecasting and ramp event prediction provides an up to date overview on the broad area of wind generation and forecasting with a focus on the role and need of machine learning in this emerging field of knowledge various regression models and signal decomposition techniques are presented and

**jmse free full text machine learning based approach to wind** - Mar 23 2022

web nov 4 2023 as wind energy continues to be a crucial part of sustainable power generation the need for precise and efficient modeling of wind turbines especially under yawed conditions becomes increasingly significant addressing this the current study introduces a machine learning based symbolic regression approach for elucidating

**data augmented sequential deep learning for wind power forecasting** - Jan 01 2023

web nov 15 2021 this paper initially scrutinizes the usefulness of data augmentation approaches in wind power forecasting and proposes a multi input and multi output prediction algorithm with verified superiority inferences on the results of multistep forecasting five wind turbines with various topologies conclusions are given as follows
