**The Pacific** Ranginui Walker, William M. Sutherland, 1988      **Peace and Security in the Asia-Pacific** Sorpong Peou, 2010-04-15 Demonstrating that none of the various perspectives under review has emerged as the clear winner in the struggle for theoretical hegemony in security studies this book shows that eclectic perspectives like democratic realist institutionalism can better explain peace and security in the Asian Pacific The Asian Pacific has emerged as one of the most important regions in the world causing scholars to pay increased attention to the various challenges old and new to peace and security there Peace and Security in the Asia Pacific Theory and Practice is a comprehensive critical review of the established theoretical perspectives relevant to contemporary peace and security studies in the light of recent experiences Illuminating ongoing debates in the field the book covers some 20 theoretical perspectives on peace and security in the Asian Pacific including realist liberal socialist peace and human security constructivist feminist and nontraditional security studies The first section of the book discusses perspectives in realist security studies the second part covers perspectives critical of realism The author's goal is to assess whether any of the perspectives found in nonrealist security studies are capable of undermining realism His conclusion is that each theoretical perspective has its strengths and weaknesses leaving eclecticism as the best way to understand the region's dynamics      *Peace and Security in Indo-Pacific Asia* Sorpong Peou, 2021-11-21 Peace and Security in Indo Pacific Asia is for the informed the interested and the engaged Sorpong Peou brings together the skills of the pedagogue with the knowledge of the scholar Dr David Dewitt University Professor Emeritus Senior Scholar York University Toronto Canada Peou's excellent book provides both the lay reader and the specialist with six important theoretical frameworks which should provide the basis for better appreciation of what a security community in Indo Pacific Asia means in our world today There are very few scholars who understand the region like Peou Dr W Andy Knight Professor of Political Science the University of Alberta Canada Sorpong Peou's extraordinary breadth of knowledge of both International Relations theory and the key trends in Indo Pacific Asia shines through in this authoritative analysis Dr Richard Stubbs Professor of Political Science McMaster University Canada A pedagogical approach of the textbook that is appreciated is how the author respectfully engages with the theories of IR and is not pushing an agenda of denouncing some theories and trying to persuade the reader of others We live in such polarizing times that it is truly refreshing to read scholarly work that avoids sensationalistic attacks on theories that have been debated for decades Each theory in this manuscript is explored on its own terms and the reader is encouraged to figure out where they stand on these enduring debates in the context of Indo Pacific security The approach will lead to compelling classroom discussions of the theories and the politics of the region This book is a must read for any student or observer of security trends in the region Dr Mark Williams Chair and Professor of Political Studies Vancouver Island University B C Canada      **France and the South Pacific since 1940** Robert Aldrich, 1993-09-01 For some Tahiti New Caledonia and Wallis and Futuna are idyllic tropical

islands with a French flavour while for others they represent continuing French colonialism thwarted independence movements and nuclear testing This book looks at the realities of the French territories in Oceania and the former Franco British condominium of the New Hebrides now Vanuatu as well as changing French policy in the region This study is based on published sources as well as archival material and interviews and is a sequel to the highly praised *The French Presence in the South Pacific 1842-1940* South Pacific Handbook David Stanley, 1993 An all new edition of the original comprehensive South Pacific guide completely revised and updated with over 85% new material Stanley provides an accurate portrait of all 15 insular territories of Polynesia and Melanesia offering an insider's knowledge spirited commentary and adventurous coverage Contains nearly 200 concise reliable maps glossary and index Moon Publications *The Pacific Islands and the USA* R. G. Crocombe, 1995 The world's most powerful nation and more than a dozen of the world's smallest have been interacting for 200 years Beginning with whaling in the 1700s it has continued through many trades investment education churches media diplomacy and strategic issues As significant as the movement of Americans to the Pacific is that of 150 000 Pacific Islanders to the USA This important book documents the growing interaction with the USA to the pinnacle of involvement in World War II The importance of USA to the Pacific Islands remained high until the end of the 1980s but has declined since then on almost every dimension While USA will remain significant for the Pacific Islands its relative profile will continue to decline Back cover WMD Arms Control in the Middle East Harald Müller, 2016-02-17 The Middle East is a hot spot of proliferation It contains one state assumed to possess nuclear weapons several states that tried and failed to develop a military nuclear capability one state under suspicion of trying to do so and it is the world region that witnessed the most frequent and severe employment of chemical weapons since the end of World War I Notwithstanding not a single arms control regime concerning weapons of mass destruction WMD covers the region as a whole Instead we have seen several proliferation related military operations which have rather contributed to destabilization than served non proliferation This volume written under the auspices of the EU Consortium for Non Proliferation and Disarmament determines the current state of diplomatic efforts to establish a WMD free zone in the Middle East In doing so it provides insights into central actors conflicting political positions thereby explaining the stalemate of efforts to negotiate a WMD free zone Chapters written by renowned experts from academia and policy oriented think tanks as well as by next generation Middle East and arms control experts introduce the subject to the reader give background information about arms control initiatives provide technical expertise and endeavour to make proposals for arms control measures in support of the creation of a Middle East WMD free zone **ISSUES ON WAR & PEACE** Julie Kimber, Phillip Deery, Warwick Eather, Drew Cottle, Nic Maclelland, Jonathan Strauss, Michael Hamel-Green, Jeanette Debney-Joyce, Doris LeRoy, David Faber, 2015-02-15 These proceedings carry some of the papers delivered at the 14th Biennial Labour History Conference 11-13 February 2015 Titled Fighting Against War Peace Activism in the Twentieth Century the conference was held at the University of Melbourne A conference book of refereed

papers has been published under that title and these proceedings carry the non refereed papers received for publication There is one exception to that rule the paper written by Warwick Eather and Drew Cottle published below which underwent double blind refereeing It is an important paper which demonstrates with compelling evidence that the rabbit was anything but a curse to the many men women and children who took advantage of the rabbit industry s resilience during the economic storms for much of the twentieth century It exemplifies how meticulous research in labour history can provide an entirely new understanding of an otherwise much maligned animal in Australia The next three papers all concern opposition to nuclear testing from the 1950s to the 1980s When read together they provide a convincing argument for the importance and efficacy of the diverse anti nuclear movements in Australia New Zealand and the Pacific Islands Whilst there are inevitable overlaps these papers emphasise different and often neglected dimensions the struggle for recognition of and compensation for the devastating effects of nuclear testing the internal dynamics of the various nuclear disarmament organisations and an evaluation of their impact on government policy culminating in the Rarotonga Treaty of 1985 The last three papers cover aspects of World War I the Cold War and the Vietnam War The first focuses on the role of one redoubtable woman Ettie Rout in challenging popular misconceptions about venereal disease held by military authorities and the soldiers themselves The next paper examines the life of a Czech Lutheran pastor Professor Josef Hrom dka who visited Australia twice during the 1950s Hrom dka attempted to juggle Christianity with Socialism which in the prevailing climate of strident anti communism provoked hostile receptions and Cold War invective The final paper in this collection brings to life through the reflections of a participant observer the preparations conduct and impact of Adelaide s largest anti war demonstration the protest against the invasion of Iraq in 2003 organised by the NoWar collective Its efforts undertaken by a broad range of rank and file activists is a fitting reminder and exemplar of the theme of our conference peace activism in the twentieth century

Framing the Islands Greg Fry, 2019-10-25 Since its origins in late eighteenth century European thought the idea of placing a regional frame around the Pacific islands has never been just an exercise in geographical mapping This framing has always been a political exercise Contending regional projects and visions have been part of a political struggle concerning how Pacific islanders should live their lives Framing the Islands tells the story of this political struggle and its impact on the regional governance of key issues for the Pacific such as regional development resource management security cultural identity political agency climate change and nuclear involvement It tells this story in the context of a changing world order since the colonial period and of changing politics within the post colonial states of the Pacific Framing the Islands argues that Pacific regionalism has been politically significant for Pacific island states and societies It demonstrates the power associated with the regional arena as a valued site for the negotiation of global ideas and processes around development security and climate change It also demonstrates the political significance associated with the role of Pacific regionalism as a diplomatic bloc in global affairs and as a producer of powerful policy norms attached to funded programs This study also challenges the

expectation that Pacific regionalism largely serves hegemonic powers and that small islands states have little diplomatic agency in these contests Pacific islanders have successfully promoted their own powerful normative framings of Oceania in the face of the attempted hegemonic impositions from outside the region seen for example in the strong commitment to the Blue Pacific continent framing as a guiding ideology for the policy work of the Pacific Islands Forum in the face of pressures to become part of Washington's Indo Pacific strategy
