Pacification Of Melanesia:

The Pacification of Melanesia, 1977 *Religions of Melanesia* Garry Trompf, 2006-09-30 Melanesia boasts over one quarter of the world's distinct religions and presents the most complex religious panorama on earth. The region is famous for its unusual new religious movements that have adapted traditional beliefs to modernity in surprising ways. As the first bibliographical survey to comprehensively cover the entire region, *Religions of Melanesia* is an invaluable research aid for anyone interested in this growing field. Trompf's work is a complete listing of scholarly publications and provides readable and concise descriptions that will clearly guide the researcher toward the most relevant sources. This survey covers 2188 entries organized topically and regionally. Trompf covers such subjects as traditional and modern belief systems and the emergent indigenous Christianity that has taken root. Regional coverage includes Irian Jaya, Papua New Guinea, Solomon Islands, Vanuatu, New Caledonia, and Fiji.

From Primitive to Postcolonial in Melanesia and Anthropology Bruce Knaft, 2025-10-01 What have anthropologists taught us about Melanesia, one of anthropology's most important and intensively studied world regions? In this book, Professor Bruce Knaft draws together and critically reanalyzes what we know about major features of Melanesian cultural history: warfare and politics, gender, bodily practices, and spirituality as discerned from more than a century of academic study. *From Primitive to Postcolonial in Melanesia and Anthropology* is arguably the most comprehensive single reassessment of Melanesia as an ethnographic world area to have been published in several decades. Written for students as well as professional scholars, this work further broadens our understanding by analyzing the history of Melanesian ethnography and relating this history to the larger relationship between Melanesia as a contemporary world area and anthropology as a field of contemporary human study. Bruce M. Knaft is Professor of Anthropology, Emory University, and the author of three previous books as well as some thirty journal articles and chapters. Knaft's interests span a wide range of issues in the anthropology of Melanesia, and he is articulate with general issues of cultural theory and anthropological history.

Statebuilding and State Formation in the Western Pacific Matthew Allen, Sinclair Dinnen, 2018-04-19 This book provides a rigorous and cross-disciplinary analysis of this Melanesian nation at a critical juncture in its post-colonial and post-conflict history, with contributions from leading scholars of Solomon Islands. The notion of transition, as used to describe the recent drawdown of the decade-long Regional Assistance Mission to Solomon Islands (RAMSI), provides a departure point for considering other transformations social, political, and economic under way in the archipelagic nation. Organised around a central tension between change and continuity, two of the book's key themes are the contested narratives of changing state-society relations and the changing social relations around land and natural resources engendered by ongoing processes of globalisation and urbanisation. Drawing heuristically on RAMSI's genesis in the state-building moment that dominated international relations during the first decade of this century, the book also examines the critical distinction between state building and state formation in the Solomon Islands context. It engages with global scholarly

and policy debates on issues such as peacebuilding state building legal pluralism hybrid governance globalisation urbanisation and the governance of natural resources These themes resonate well beyond Solomon Islands and Melanesia and the book will be of interest to a wide range of students scholars and development practitioners This book was previously published as a special issue of The Journal of Pacific History *Melanesians and Missionaries* Darrell L.

Whiteman,2002-05-10 In *Melanesians and Missionaries* one of the best of the younger generation of missionary anthropologists demonstrates that a commitment to the missionary enterprise on the part of a solid scholar facilitates rather than hinders the anthropological study of a missionary topic This is better anthropology because Dr Whiteman is able to probe more deeply into his topic and demonstrates that he understands and appreciates both Melanesians and missionaries Charles H Kraft Professor of Anthropology School of World Mission Fuller Theological Seminary Pasadena **Leadership and Change in the Western Pacific** R.
