País De Los Ciegos Y Otros Relatos El:

El país de los ciegos y otros relatos Herbert George Wells, 1997-12-01 **El País de los Ciegos** H.G. Wells, 2017-06-12 El país de los ciegos y otros relatos 1911 fue una colección de cuentos anteriormente publicados en periódicos y revistas correspondiente a su etapa de soñador científico no muy diferente en su inverosimilitud al soñador político que fue en su época. De ahí que podamos hablar de historias románticas a pesar de su pretendida base científica que solo sirve al escritor para crear un contexto realista que haga creíble el relato al lector. Porque si algo hay destacable en estos excelentes cuentos es su precisión narrativa cuya línea argumental se mueve con la exactitud del bisturí de un cirujano. El país de los ciegos hace honor al nombre: nos habla de la ceguera de la no visión de lo oscuro que penetra de aquello que no podemos observar pero que sin embargo sentimos a nuestro alrededor. El país de los ciegos es uno de los relatos alegóricos más conocidos de su autor, el pionero de la ciencia ficción y pensador utópico H.G. Wells.

El país de los ciegos y otros relatos Herbert George Wells, 1980 **El país de los ciegos** H.G. Wells, 2015-05-16 Un montañero llamado Nez en su intento por coronar el Paríscotopetl el Matterhorn de los Andes resbala y cae por una ladera nevada. Al incorporarse comprueba aturdido que se encuentra en un valle aislado del resto del mundo por profundos precipicios. El País de los Ciegos. Los ancestros de sus habitantes huyeron de la represión española y una extraña enfermedad se propagó entre ellos provocando que todos sus descendientes nacieran ciegos. Nez cree que será fácil dominarlos ya que según el refrán. En el país de los ciegos el tuerto es el rey. Publicado en 1904 en The Strand Magazine este relato es uno de los textos más brillantes sobre la ceguera como metáfora. Aborda temas como el conocimiento humano y la sociedad y muestra de qué manera la comunidad somete al diferente a sus creencias eliminándolo por ser distinto.

H.G. Wells en España Alberto Lázaro, 2004-01-01 Para varias generaciones de lectores europeos H.G. Wells ha sido una figura sobresaliente tanto en el ámbito de la narrativa como en el de las ideas políticas y sociales. Famoso por sus fantasías científicas como La máquina del tiempo o El hombre invisible, Wells también destacó como escritor realista, sociólogo e historiador. Fue defensor de las teorías de la evolución de Darwin, crítico con el cristianismo y la moral conservadora, adalid del socialismo democrático, partidario de la igualdad entre el hombre y la mujer, promotor del control de la natalidad y paladín de los derechos humanos en general. En ocasiones ofreció una imagen de autor polímico, rebelde, provocador e iconoclasta. Algunas de sus obras como Ann Veronica y The New Machiavelli tuvieron problemas con la censura en Gran Bretaña; otras fueron también prohibidas en Irlanda y Alemania. La fama de Wells llegó pronto a España, siendo un escritor admirado especialmente por sus fantasías de anticipación que se tradujeron masivamente durante la primera década del siglo XX. Sin embargo, con estos antecedentes de escritor polímico cabe preguntarse cuál fue la recepción de la obra de Wells en España posteriormente durante los años del régimen de Franco. El objetivo principal de este trabajo es recuperar los expedientes de censura existentes en España sobre Wells con el fin de estudiar el tratamiento que tuvieron sus obras por parte de los censores españoles.
