Pakistan And Asian Peace:

Pakistan and Asian Peace V. D. Chopra, 1985 **Democratic Transition and Security in Pakistan** Shaun Gregory, 2015-10-23 This volume examines the trajectory of Pakistan's democratic transition and the implications of this change for its security In May 2013 for the first time in its 66 year history Pakistan saw an elected government complete a full term in office and transfer power through the ballot box to another civilian government At this important moment in Pakistan's history this collection brings together twelve leading academics and writers with an aim to provide a far reaching analysis of the current situation in Pakistan and emergent trends Drawing on history diverse theoretical perspectives and empirical evidence three themed sections deal respectively with democratic transition including Islam and democracy civil military relations and economics contested borders and contested spaces the Pashtun belt Kashmir and intra Islamic conflict and regionalism bilateral relations from both Pakistani and Indian perspectives US Pakistan relations and nuclear weapons dynamics Together the contributors explore the status of Pakistan's democratic transition contemporary security dynamics and wider regional security and political dynamics and the complex interplay of the three to provide a wide ranging analysis of Pakistan's contemporary national and regional challenges its impact on the region and evidence of some positive trends for Pakistan's future The book will be of much interest to students of South Asian politics Asian security governance and IR in general as well as policy makers diplomats and military professionals *Prospects for Peace in South Asia* Rafiq Dossani, Henry S. Rowen, 2005 Dossani's book addresses the largely hostile often violent relations between India and Pakistan that date from their independence in 1947 **Asian Peace** Majid Tehranian, 1999 The potential dichotomy between individual security and governance on a wider scale is nowhere more sharply in evidence than in the diverse political countries of the Asia Pacific region This timely volume examines the economic divergences within the region the old style communist dictatorships and new style market communism democratic capitalism authoritarian capitalism and cultural diversity Based on groundbreaking research by internationally renowned specialists the book is essential reading Nuclear Pakistan M. G. Chitkara, 1996 **Reconsidering the East Asian Peace** William R. Thompson, Thomas J. Volgy, 2024-08-01 This volume re-examines the notion of the East Asian peace arguing that it requires updating for the current and near future context of US Chinese rivalry The East Asian peace refers to the remarkable change in conflict levels in eastern Eurasia over the past 80 years or even the past 130 years or so Prior to the late 1970s East Asia was regarded as the most conflictual region on the planet Although insurgencies have continued in places such as Myanmar Thailand and the Philippines after the 1980s East and Southeast Asia became one of the world's least conflictual regions Geopolitics and economic development worked hand in hand to reduce conflict in the region and in this respect the East Asian peace has been a confluence of peace The general problem with a confluence of peace is that the factors that shape it evolve over time and the specific circumstances in question seem to be evolving in a different direction with East Asia shaping up to be the most central locale

of the contest between US and Chinese hegemony both regionally and perhaps globally This book argues that the idea of the East Asian peace now requires adjustment to the current and near future context The more general arguments presented here focus on alternative interpretations of how regional peace and order should be interpreted while the more specific arguments involve interpretations of Chinese and other countries behavior in the context of the heightened rivalry between China and the United States This book will be of much interest to students of East Asian politics peace studies foreign policy and international relations

,1977 Federalism in South Asia Mahendra Prasad Singh,Veena Kukreja,2014-08-07 This book is one of the first in depth and systematic studies on the functioning and aspiring federations of South Asia It examines how federal dynamics in India Pakistan Nepal and Sri Lanka are impinged on by the nature of their specific constitutions their societal political and cultural fabrics composition of power elites and ruling classes structures of political economy and market electoral and party systems mass media and information technology The authors offer a comparative analytical conceptual and theoretical framework to understand patterns and trends as also experiences of and possibilities for federalism in South Asia They highlight divergences and similarities successes and key challenges while indicating federalism s wider regional relevance in the discourse on democracy and governance The book concludes that the multicultural character of these societies beset with ethnic and regional conflicts separatist and military undercurrents makes federal political solutions the only viable route Providing a wealth of material this will deeply interest scholars students and teachers of comparative politics political science federal studies area studies as well as those interested in political structures and processes in South Asia **Reorienting U.S. Pakistan Strategy** Daniel S. Noor,2009-06-04 In recent years peace psychology has grown from a utopian idea to a means of transforming societies worldwide Yet at the same time peacebuilding enjoys global appeal the diversity of nations and regions demands interventions reflecting local cultures and realities Peace Psychology in Asia shows this process in action emphasizing concepts and methods diverging from those common to the US and Europe Using examples from China India Indonesia the Philippines and elsewhere in the region chapter authors illuminate the complex social political and religious conditions that have fostered war colonialism dictatorships and ethnic strife and the equally intricate personal and collective psychologies that need to be developed to encourage reconciliation forgiveness justice and community Peace Psychology in Asia Integrates psychology history political science and local culture into concepts of peace and reconciliation Highlights the indigenous aspects of peace psychology Explains the critical relevance of local culture and history in peace work Blends innovative theoretical material with empirical evidence supporting peace interventions Balances its coverage among local national regional and global contexts Analyzes the potential of Asia as a model for world peace As practice driven as it is intellectually stimulating Peace Psychology in Asia is vital reading for social and community psychologists policy analysts and researchers in psychology and sociology and international studies including those looking to the region for ideas on peace work in non Western countries CBMs In India-Pakistan Relations Surender Singh,2021-08-09 About the Book India and Pakistan the two important countries of the South Asian Sub continent have had a far from cordial relationship It was in sum a love hate relationship in which one is compelled to unwillingly coexist with the other and retain a

constant but correct relationship on account of geography and historical circumstances This state of affairs between the two countries could be traced to the very beginning of the birth of the two nations in 1947 The problems that existed in the initial years of their independence have survived in the seventh decade with no signs yet of any enduring solution This study deals with India Pakistan relations from 2003 to the present time This period has been chosen because it signifies the culmination of certain trends in the relationship between the two nations after the start of the process of Confidence Building Measures CBMs This book provides a theoretical understanding of the South Asian region in general and India Pakistan relations in particular It analyses not only India s interests and policy options towards Pakistan but also evaluates the real nature of their bilateral relations It has discussed not only the key issues between them such as Kashmir Terrorism Siachen Sir Creek Drug Trafficking but also provides their likely solutions to these problems Besides this the process of CBMs and the steps taken by both nations are also discussed in it Hence this book presents an overview of the contemporary nature of India Pakistan relations after the start of the process of CBMs The book may be beneficial for students teachers policymakers diplomats as well as common readers engaged in understandings the current discourses on India Pakistan relations in this changed international milieu *Peace Processes and Peace Accords* Samir Kumar Das,2005-11-05 The second volume in the South Asian Peace Studies series *Peace Processes and Peace Accords* looks at the political question of peace from three perspectives the process of peace the contentious issues involved in the peace process and the ideologies that come in conflict in this process Arguing that peace is not a one time event to be achieved and rejoiced over but a matter to be sustained against various odds the contributors show that the sustainability of peace depends on a foundation of rights justice and democracy Peace accords they maintain are only a moment in the process the very act of signing an accord could mark either a continuation of the same conflict or simply its metamorphosis Therefore as this volume shows negotiation should be redefined as joint problem solving on a long term sustained basis rather than one off hard bargaining
