## Partisans Of Error:

The Ambivalent Partisan Howard G. Lavine, Christopher D. Johnston, Marco R. Steenbergen, 2012-12-06 The authors of this book demonstrate that compared to other citizens ambivalent partisans perceive the political world accurately form their policy preferences in a principled manner and communicate those preferences by making issues an important component of their electoral decisions

Partisans of Error Michael Davies, 1983-01-01 This book has the modest aim of explaining why Modernism is the most dangerous of all heresies and the steps taken by St Pius X to suppress it The author rarely refers to the contemporary Church and yet on page after page the reader will cry out But this is just what is happening today Those who read this book will know all they need to know about Modernism and will certainly understand why they have a duty to help defend the Faith against it

Lemius, 1908 Islam, Christianity and Tradition Ian Richard Netton, 2006-12-22 Offers a unique comparative exploration of the role of tradition in Islam and Christianity The idea of tradition has enjoyed a variety of senses and definitions in Islam and Christianity but both have cleaved at certain times to a supposedly golden age of tradition from the past The author suggests there has been a chain of thinkers from classical Islam to the twentieth century who share a common interest in ijihad or independent thinking Drawing on past and present evidence and using Christian tradition as a focus for contrast and comparison the author highlights the seemingly paradoxical harmony between tradition and itjihad in Islam The author draws on a variety of primary and secondary sources including contemporary newspaper and journal

**Ambivalence, Politics and Public Policy** S. Craig, M. Martinez, 2016-04-30 Exploring the extent and nature of attitudinal ambivalence on public policy issue these essays by distinguished scholars of public opinion examine citizens conflicting attitudes about abortion gay rights environmental protection and property rights crime and the police and church state relations Linking ambivalence with a complex structure of belief the contributors link the effects of ambivalence on information processing the formation of policy preferences and the impact of those policy preferences on voters decisions Using multiple approaches to measurement and research design this volume helps build a sturdy foundation of knowledge about the phenomenon of ambivalence and its effects on politics The concluding chapter provides an overview of our progress in understanding the effects of ambivalence on public opinion

*Competing Motives in the Partisan Mind* Eric Groenendyk, 2013-09-05 Party identification may be the single most powerful predictor of voting behavior yet scholars

disagree whether this is good or bad for democracy *Competing Motives in the Partisan Mind* provides a window into the nature of party identification by examining circumstances in which political attitudes and party identities collide **Red Star Over China - The Rise Of The Red Army** Edgar Snow, 2013-04-18 Originally published in 1939 this is both a far reaching history and an eyewitness account of the communist revolution in China Contains a number of excellent historical photographs Many of the earliest books particularly those dating back to the 1900s and before are now extremely scarce and increasingly expensive Hesperides Press are republishing these classic works in affordable high quality modern editions using the original text and artwork Contents Include In Search of Red China The Road To The Red Capital In Defended Peace Genesis of A Communist The Long March Red Star In The North West En Route To The Front With The Red Army With The Red Army War And Peace Back To Pao An White World Again *Partisan Linkages in Southern Politics* Michael A. Maggiotto, Gary D. Wekkin, 2000 Interpreting extensive data gathered in eleven southern states during the 1992 presidential election this book addresses a critical question about the democratic process Do political parties still have a meaningful role to play in linking government and the governed While some observers have written off modern parties arguing that they have been supplanted by political action committees social movements candidate organizations and the like Michael Maggiotto and Gary Wekkin find that parties remain viable mediators between the wishes and values of the electorate and the policy behavior of those whom they elect The authors base their conclusions on surveys conducted among a wide range of southern political participants in the 1992 election from the eligible electorate to those constituting the various party elites such as chairs and members of party committees and delegates to the national conventions In analyzing the data the authors proceed in three steps First they define party masses by party identification and expected vote and compare them to party elites using demographic socioeconomic and ideological factors Second they identify issue and ideological connections between party elites and masses Third they contextualize their findings by exploring the various political and socioeconomic environments within which elite mass interaction occurs This study is valuable for several reasons Its southern focus adds to our understanding of a dynamic political culture in which patterns of party competition and loyalty have changed rapidly in recent decades Also it is the first such study to take into account the influence of demographic institutional and cultural variables on the ways in which parties cohere on issues Finally it reaches some intriguing conclusions The authors find for example that issue congruence within parties often has as much to do with internal factors such as the strength of the party organization as it does with external variables such as race religion or level of education In illuminating the continuing vitality of partisanship in American political life this book will be studied and debated for years to come The Authors Michael A Maggiotto is professor of political science and dean of the School of Letters and Sciences at the State University of New York Brockport He is co editor with Gary D Wekkin Donald E Whistler and Michael A Kelley of *Building Democracy in One Party Systems* Gary D Wekkin is professor of political science at the University of Central Arkansas and author of *Democrat*

versus Democrat The National Party's Campaign to Close the Wisconsin Primary      **The Feeling, Thinking Citizen** Howard Lavine, Charles S. Taber, 2018-03-13 This book is an appreciation of the long and illustrious career of Milton Lodge Having begun his academic life as a Kremlinologist in the 1960s Milton Lodge radically shifted gears to become one of the most influential scholars of the past half century working at the intersection of psychology and political science In borrowing and refashioning concepts from cognitive psychology social cognition and neuroscience his work has led to wholesale transformations in the way political scientists understand the mass political mind as well as the nature and quality of democratic citizenship In this collection Lodge's collaborators and colleagues describe how his work has influenced their own careers and how his insights have been synthesized into the bloodstream of contemporary political psychology The volume includes personal reflections from Lodge's longstanding collaborators as well as original research papers from leading figures in political psychology who have drawn inspiration from the Lodgean oeuvre Reflecting on his multi-faceted contribution to the study of political psychology *The Feeling Thinking Citizen* illustrates the centrality of Lodge's work in constructing a psychologically plausible model of the democratic citizen      **The Essentials of Political Analysis** Philip H. Pollock III, 2015-09-16 This Fifth Edition of *The Essentials of Political Analysis* equips students with the skills to conduct political analysis and critically assess statistical research Bestselling author Philip H. Pollock III builds students' analytic abilities and develops their statistical reasoning with new data, fresh exercises and engaging examples This accessible introduction to the essential elements of political analysis walks students through the basics: measuring concepts, describing variables, formulating and testing hypotheses, controlling for alternative explanations and interpreting graphic displays and nearly 50 practical exercises motivate them to use their new skills with confidence      *Pierce's Code, State of Washington, Cyclopedic Arrangement, Including Laws 1919* Washington (State), 1926      *Partisan Hearts and Minds* Donald P. Green, Bradley Palmquist, Eric Schickler, 2004-01-01 A treatment of party identification in which three political scientists argue that identification with political parties powerfully determines how citizens look at politics and cast their ballots They build a case for the continuing theoretical and political significance of partisan identities      *The Termination Report of the National War Labor Board: Industrial disputes and wage stabilization in wartime* United States. National War Labor Board (1942-1945), 1947      **An Heretical Heir Of The Enlightenment** Harry Redner, 2019-03-11 This is primarily but not exclusively a book on Lindblom All the pieces in it bear on his work either as direct commentary on it or criticism of it or as extensions of his ideas But at the same time every piece follows the trajectory of its own ideas into the subject matter in which it delves And these subjects are many and varied Indeed the prime purpose of this volume is to make the broad public aware of the full scope and amplitude of Lindblom's thought and to convey something of the inner coherence that governs it Anyone who has previously encountered Lindblom only in one manifestation of his multifaceted mind might be surprised to learn that there are so many other facets as well Merely to list the disciplines to which he has contributed threatens to

extend into an academic catalogue of ships But the truth is that his work is not docilely academic it refuses to lie down neatly and supinely into the procrustean beds of the established disciplines Like his closest predecessor Veblen he offers a comprehensive treatment of social reality as a whole together with something of the same heretical thrust against the academic establishment      *Readings in World History* Leften Stavros Stavrianos, 1962      Bases Loaded Costas Panagopoulos, 2021 Presidential campaigns in recent years have shifted their strategy to focus increasingly on base partisans a shift that has had significant consequences for democracy in America Over the past few decades political campaign strategy in US elections has experienced a fundamental shift Campaigns conducted by both Republicans and Democrats have gradually refocused their attention increasingly toward their respective partisan bases In Bases Loaded Costas Panagopoulos documents this shift toward base mobilization and away from voter persuasion in presidential elections between 1956 and 2016 His analyses show that this phenomenon is linked to several developments including advances in campaign technology and voter targeting capabilities as well as insights from behavioral social science focusing on voter mobilization Demonstrating the broader implications of the shift toward base mobilization he links the phenomenon to growing turnout rates among strong partisans and rising partisan polarization A novel data rich account of how presidential campaigns have evolved in the past quarter century Bases Loaded argues that what campaigns do matters not only for election outcomes but also for political processes in the US and for American democracy
