The Mammoth Book of Superstition Roy Bainton,2016-11-10 Rather than providing a dictionary of superstitions of which there are already numerous excellent exhaustive and in many cases academic works which list superstitions from A to Z Bainton gives us an entertaining flight over the terrain landing from time to time in more thought provoking areas He offers an overview of humanity s often illogical and irrational persistence in seeking good luck and avoiding misfortune While Steve Roud s two excellent books *The Penguin Dictionary of Superstitions* and his *Pocket Guide* and Philippa Waring s 1970 *Dictionary* concentrate on the British Isles Bainton casts his net much wider There are many origins which warrant the full back story such as Friday the thirteenth and the Knights Templar or the demonisation of the domestic cat resulting in cat holocausts throughout Europe led by the Popes and the Inquisition The whole is presented as a comprehensive entertaining narrative flow though it is of course a book that could be dipped into and includes a thorough bibliography Schoenberg who developed the twelve tone technique in music was a notorious triskaidekaphobe When the title of his opera *Moses und Aaron* resulted in a title with thirteen letters he renamed it *Moses und Aron* He believed he would die in his seventy sixth year 7 6 13 and he was correct he also died on Friday the thirteenth at thirteen minutes before midnight As Sigmund Freud wrote Superstition is in large part the expectation of trouble and a person who has harboured frequent evil wishes against others but has been brought up to be good and has therefore repressed such wishes into the unconscious will be especially ready to expect punishment for his unconscious wickedness in the form of trouble threatening him from without **Brown's Nautical Almanac** R. Ingram-Brown,1858 *The Mammoth Book of Unexplained Phenomena* Roy Bainton,2013-01-17 New mysteries as well as variations on recurring ones continue to surface on a weekly basis around the globe from showers of frogs over Hungary to birds falling to earth in Arkansas This compendious round up of unexplained phenomena examines everything from the experiments being done with the Large Hadron Collider to classic maritime mysteries involving inexplicably missing crews via UFOs mediums cryptozoology panics paranoia and a universe proving stranger in fact than we d imagined *The Fabled Coast* Sophia Kingshill,The Estate of Jennifer Westwood,2012-06-28 Pirates and smugglers ghost ships and sea serpents fishermen s prayers and sailors rituals the coastline of the British Isles plays host to an astonishingly rich variety of local legends customs and superstitions In *The Fabled Coast* renowned folklorists Sophia Kingshill and Jennifer

Westwood gather together the most enthralling tales and traditions tracing their origins and examining the facts behind the legends Was there ever such a beast as the monstrous Kraken Did a Welsh prince discover America centuries before Columbus What happened to the missing crew of the Mary Celeste Along the way they recount the stories that are an integral part of our coastal heritage such as the tale of Drake s Drum said to be heard when England was in peril and the mythical island of Hy Brazil which for centuries appeared on sea charts and maps to the west of Ireland The result is an endlessly fascinating often surprising journey through our island history
